# *Welcome to CRESKATE*

CRESKATE stands for create & skate. With our products children, teenagers and adults can build and design their own fingerboards made of real wood layers. The manufacturing process is exactly the same as for real skateboards.

The finished fingerboards are not only unique, but also correspond to professional fingerskateboards in terms of function and performance. Therefore you can also use it to learn flips, grinds and slides.

Fingerskateboarding is a hobby and sport that is enjoyed by many people around the world. There are even competitions and world championships.

Welcome to the world of CRESKATE.

# Our Mission

CRESKATE wants to awaken your passion to create something special with your own hands around the topic of skateboarding.

CRESKATE doesn't end up gathering dust in the closet like other wooden kits do: the fun really begins when your board is finished and you can practice tricks and lines at home on your table, on the go or in the skatepark.

Build impressive fingerboards for yourself, your friends or even start your own brand.

What will  
your board  
look like?

Our costumers are interested in skateboarding or model and wooden building

# Fingerskateboard Construction Kit

This KIT is made FOR BEGINNERS and it's a great opportunity to join the world of fingerskateboarding. The kit contains everything you need to start building your boards right away. The Step-by-step instruction allows even rookies to have a sense of achievement.

Step by step to  
your perfect board

# The Mold

The mold is the heart of the kit. After the glue has been applied to several layers of wood, it is placed into the mold. In the mold the wood is shaped into a skateboard. Using the included board shaper, the skateboard blank can then be shaped precisely.

## Perfect truck holes

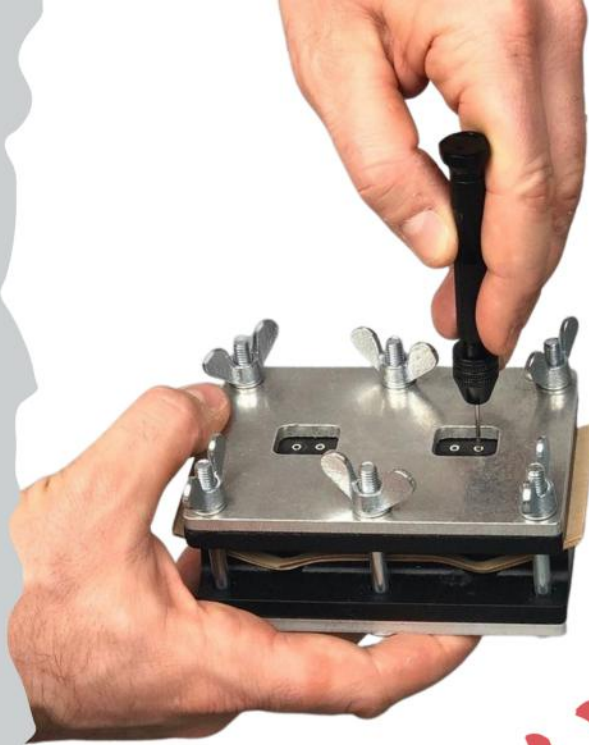

even after 300 boards, because of the metal inserts for easy drilling

## Awesome fingerboard shape

which is loved by a lot and great to skate.

## Precise shape

thanks to the included board shaper

# The Kit

In addition to the mold, the kit includes wood and glue for **3 skateboards**. For the perfect start to the game, wheels, trucks and griptape for one board are included.

The *Fingerboard Tool Kit*\* is the perfect addition to have all the tools at hand.

## Easy to learn

with a step-by-step instruction video

**REAL VENEER &  
SMOOTH GRIPTAPE**  
for 3 boards

**WOOD GLUE**  
specially for building  
Fingerskateboards

**ICONIC GRAPHICS**  
for your first boards

**TRUCKS & WHEELS**  
to shred straight away

\*Fingerboard Tool Kit is a separate CRESKATE product

Best starting Fingerboard Mold out there!

“I had purchased the beginner mold with the tool bundle and all I can say is...WOW! It comes with everything you need to make yourself (and customers) a quality fingerboard. 2 years later and I am still using this exact mold and shapers. That tells you how much quality you get from Create Your Skate...”
