

SUPPLYING QUALITY DOORS  
FOR OVER 30 YEARS

# PERFECT COMPANIONS FOR YOUR HOME

---

Make the doors in your home a feature, or choose to have them blend into your homes aesthetics.

We have a large range of doors, each with it's own personality.

Which ones will you choose to have in your home?

# OUR DOOR STYLES

FLUSH PANEL DOORS

GROOVED DOORS

VISION PANEL DOORS

ROUTED DOORS

## FLUSH PANEL

---

For a clean look or economy option, the Flush Panel Door is an excellent choice

Available in hollow, poly and solid core construction with quality MDF (for interior) and tempered hardboard (for exterior) skins for premium paint finish.

Available in any sizing up to 1200mm wide and 2400 high.

FLUSH PANEL

## GROOVED DOORS

---

Choose to add value to your home by selecting from our range of grooved door designs.

We have a variety of both traditional and contemporary designs available in either a square or V groove finish.

Consider designing your own custom groove pattern if you cannot see a pattern that suits your style.

The internal construction of the door gives different levels of noise, thermal and impact protection. All these doors are available in the three core options: hollow, poly, and solid.

If you are considering a gloss finish paint, talk to us about thicker skinned doors to give that clean solid finish.

## VISION PANEL DOORS

---

Adding a vision panel to your doors creates a sense of openness and light to your home. They also provide safety by enabling visibility in high use doors.

We have a full range of vision panel orientations and glazing options to suit the style of your doors and interior finishing.

# ROUTED GROOVE DOORS

---

This higher spec range of designs supports a wider, more detailed groove, which offers a more prominent statement of your style.

Depending on how you compliment these designs, they can convey both a traditional or contemporary feel to your home.

# OUR DOOR TYPES

---

PRE-HUNG DOORS

WARDROBE DOORS

CAVITY SLIDERS

BARN DOORS

EXTERIOR DOORS

BIFOLD DOORS

CUSTOM DOORS

## PRE-HUNG DOORS

---

Our pre-hung doors come in a frame ready for installation by your builder.

Available in a variety of frames and materials from paint finish MDF to solid timbers to suit your budget and style.

Pre-hung doors also come in a number of cores to suit your needs: 'hollow' core is standard, but also available in poly and solid core to reduce noise and give a more solid and hard-wearing feel to your home.

Doors also come in a variety of finishes from standard to high gloss paint applications through to timber veneer, solid timber, and custom requirements.

We can supply door handles to suit your pre-hung doors with hinges to match the hardware.

Our pre-hung doors are available in any of the designs featured in our collections in this brochure, as well as any custom designs you can think up!

## WARDROBE DOORS

---

From hinged single and double doors to top or bottom rolling sliding doors, we have a range of options that are perfect for bedroom wardrobes, linen cupboards, and storage areas.

Our wardrobe sliders have a sleek aluminum profile with a range of trim colours and panel style options including mirror panels, grooved designs and melteca finishes.

If you are wanting something different from the classic aluminum slider, consider a bottom rolling wardrobe roll system with doors to match the rest of the house. Don't want to see a bottom track? Choose a top hung system or even a ceiling mounted track to achieve that clean and minimal look.

Whether it is a small or large space we can manufacture a door solution to fit. Whatever your style preference, there are options to make those robes and cupboards disappear into the background or stand out as a feature.

## CAVITY SLIDERS

---

A cavity slider is a sliding door housed in a 'pocket' that sits inside the wall. As a sliding door, cavity sliders provide versatile solutions both as space saving elements and design features.

They are a functional choice where space is limited, such as a pantry or any other area where that extra space is especially useful.

There are also a variety of cavity slider options that can add functional design to your home. Consider using a corner meeting cavity to enclose that lounge space, or an overtaking cavity to divide a room in half. Or extend your cavity door full height to the ceiling with zero clearance and gib return detailing to create a clean minimalist feel.

Talk to our experienced team about the options and features that cavity sliders can offer.

## BARN DOORS

---

Introducing a barn door to your build or renovation can bring a striking style element to your home or workplace.

Depending on the style of exposed rail track and finish, you can create that rustic feel or achieve a more modern look with our barn doors.

Choose from the traditional style braced and ledged style doors (pictured), match to your existing doors, or pick from any of the designs in this brochure to make a functional feature out of an opening.

Easy to install and available in many standard sizes, these barn doors can be made to fit any size opening that you require.

## FOLDING DOORS

---

Bifold doors are folding doors that fold back on themselves or against a wall.

They take up very little floor space when opened, making them practical in small areas.

They are great space savers and are used in rooms as pantries, wardrobes, laundries, study nooks, offices and room dividers making spaces more livable and versatile.

Our bifold doors can be supplied as pre-hung units or as loose doors.

Two and four door configuration are standard, but we can manufacture any configuration to suit you.

## EXTERIOR DOORS

---

We have an extensive range of door options to suit your style, architectural requirements, and environment.

Our exterior doors can come pre-hung in a frame, or as door panels to fit into your existing frame.

Exterior doors can be manufactured to suit your opening and frame requirements. Available in a variety of frame profiles and materials from H3 pine to kwila right through to steel frames.

There is an extensive range of styles and materials to choose from including:

- Exotic Timbers
- Cedar
- Paint Finish
- Fiberglass
- Aluminium
- Steel

Your exterior door is the first impression to your home. Get creative and make it a good one!

## SPECIALTY & CUSTOM DOORS

---

If your project requires a different solution or you are looking for something that extra special, we have the experience to source or manufacture custom doors and solutions including:

- Fire Doors
- Timber Veneer Doors
- Solid Timber Doors
- Moulded Panel Doors
- Pivot Doors
- Hidden Doors
- Internal Windows or Borrowed Lights
- Doors for Commercial Applications
- Steel and Aluminium Clad Doors

Please speak to our experienced team about these and other options.

# OUR STORY

---

Locally owned and working in Canterbury for over 30 years, J&G Doors has been here since pre-hung doors became a thing. Over this time we have built a solid reputation as the go-to guys for all things doors. We have seen the building industry go through peaks and troughs, and we have seen products and manufacturers come and go. Along the way we have learnt a few things and have been able to build up a large base of knowledge and experience.

We have a broad range of product offerings which enables us to provide for residential and commercial projects. Whether it is one door or one hundred, a simple job or a specialised undertaking, with our longstanding tradition of customer service and experience we will be able to assist you with your next project.

# OUR GUARANTEE

---

At J&G Doors we are committed to delivering the best product with the best service. We endeavor to supply only the products and materials that we know are tried and tested, and that come with manufacturer support.

We have an experienced team that work hard to provide accuracy in pricing and information and will always advise the right products for the job. We will always take on feedback and can remedy any issues that may occur.

We stand behind every door we supply!
