## **RELYON NUTEC FIRE ACADEMY**

Established since 1985

## **BACKGROUND HISTORY**

RelyOn Nutec Fire Academy was first established in 1985 under the name of Rotterdam International Safety Center (RISC). Together with Nutec, it became part of the Falck organisation in 2004, and RISC was later renamed as Falck Fire Academy. In 2019, the academy's name was changed to RelyOn Nutec Fire Academy.

We offer advice, education and training courses to emergency services, industrial and municipal fire brigades, and professionals from the offshore, maritime and wind energy industries. At our two Dutch training centres in the ports of Rotterdam and Amsterdam, we train professionals and emergency responders in preventing and fighting incidents in a realistic training environment with the use of realistic incident scenarios. Jointly with our customers, we have already been looking after the safety of our customers workforce for more than 35 years. We ensure that our customers have all the necessary competencies in house and are as well prepared as possible for emergency situations. Thanks to our extensive knowledge and experience, we can go well beyond the scope of the law and regulations.
