EZENZIAL[®]

—www.EZENZIALLIVING.com—

EZENZIAL FURNITURE is a globally recognized premium furniture manufacturer with over 250 artisan crafters, and a 350,000 sq. ft. custom production facility.

At EZENZIAL, we take pride in our quality. Although we employ modern manufacturing techniques that allow us to mass produce thousands of items each month, all our furniture is hand-made by our experienced crafters who give the same attention to detail to each item, be it a few pieces or 1000 pieces.

OUR WORLD-RENOWNED DESIGNERS

Morten Georgsen Design Studio

Valencia, Spain

Ezenzial Living and Morten Georgsen Design Studio have a long-standing relationship of collaboration.

Georgsen is probably one of the bestselling furniture designers in the world, and has a very simple philosophy, to design furniture that will give people pleasure for years to come. The studio based in Valencia, Spain is completed with a team of dedicated designers, with diverse backgrounds and experiences.

OUR COMMITMENT TO QUALITY

Just as a healthy tree needs strong roots to survive, so too does quality furniture need quality lumber to last the test of time.

Our furniture pieces feature kiln-dried solid wood construction. All with meaningful hidden reinforcements, like solid wood corner blocks that help reinforce the integrity of the furniture. With Ezenzial furniture you can take comfort that all our well constructed furniture will stand the test of time.

Typical contemporary furniture is about exposed legs and clean lines to give a light and airy feel.

We use materials like metal, stone and glass because of their light-reflecting properties. This look is the ultimate mix of house décor styles. In

addition, neutral color palettes are the most common for contemporary design with textured fabrics to create interest.
