To build a house that remains for history  
To enjoy nature  
To feel calm  
To live royally; choose (MCA Holding - Erbil Thermowood)

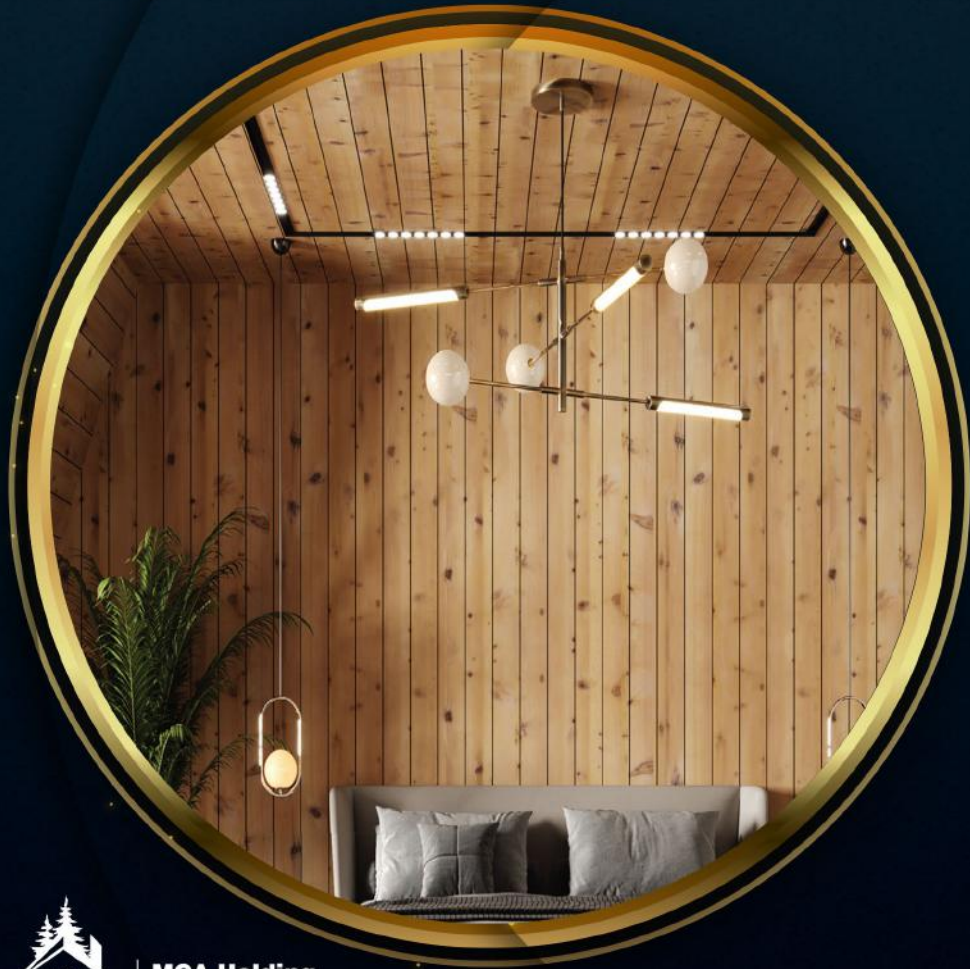

Building a wooden house with a modern and different design using Finnish wood. This wood is used for interior and exterior spaces and can be painted in your favorite color, with a 15-year guarantee and it is against water, insects and fire. We assure you that a very specialized and experienced staff is responsible for the implementation of the projects.
