BUILT BETTER

A NEW ERA HAS ARRIVED

BRAND DNA

ROX Mining Parts is a division of the Bend-tech Group dedicated to the supply of Open cut and Underground machine replacement parts. ROX is committed to eliminating downtime, improving performance, and increasing longevity of parts through innovation. The ROX team has been restructured with customer experience in mind and with dedicated supporting departments such as research and development, engineering, and logistics, the ROX division is poised to transform mining parts supply.

ROX

A riff on the substrate mobile equipment mine (*Rocks*). Combined with the animal the Aurochs or Ox for its characteristics in defence, agility, and protection.

AUROCHS / OX

Representing the strengths of the division and the parts we supply the Aurochs is known as an agile, athletic, and strong animal capable of defending themselves against predators such as wolves.

BRAND STORY

We are excited to introduce our reimagined identity – a transformation born from our unwavering commitment to provide even greater value to our customers and a realisation that our provision of OEM replacement parts division has become much more than just a business unit. Our journey began with a simple idea, and today, that idea is evolving into a brand-new experience that reflects our dedication to innovation, quality, minimising downtime, and customer experience.

THE ORIGINS

Every great journey has its origins. What has become ROX today started in the late 2000's when we began supplying OEM replacement handrails for Underground machines. This quickly evolved into supplying more handrails, then more parts. Which then evolved into servicing the Open cut machine market, supplying components such as handrails, fenders and guards, platform modules and fuel tanks. Through the years, we've remained dedicated to serving our customers, adapting to their needs, and leveraging new technologies to improve their experience.

THE VISION

Our new identity is not just a logo or a name – it's a reflection and commitment of our vision for the future. We envision a world where all our customers' required parts are stocked, downtime is eliminated, parts are innovated and improved, and we are the relied upon supplier for mining equipment replacement parts. This vision is the driving force behind every decision we've made in shaping our rebrand.

THE PROMISE

Our promise to you remains unchanged. Just as we've stood by your side in the past, we will continue to be your trusted partner on this journey of sustained value and minimising downtime. Our commitment to all parts being stocked, downtime eliminated, innovated parts and improved performance, and becoming the relied upon supplier for mining equipment replacement part supply remains steadfast, serving as the bedrock of our rebrand and the road ahead.

THE EVOLUTION

As time passed, the division continued to grow both in parts and services provided as well as our human resources and supporting divisions such as research and development (R&D). We realised that providing what the industry needs and mitigating customer pain points meant embracing change. Our rebrand is the result of an evolution – a transformational process that has seen us listen to your feedback, learn from our experiences, and begin a journey towards continued innovation to create something even more exceptional.

THE BENEFITS

Our rebrand isn't just for us – it's for you. We've reimagined our service with you in mind, with the mission of creating an experience that is more streamlined, innovative, and dedicated than ever before. With our new identity, we're poised to elevate your experience and empower you like never before. With a restructured team, more robust R&D, and a new, dedicated website in the works we are poised to deliver the best service in the industry.

CONCLUSION

In closing, we're excited to embark on this new chapter with you. Our rebrand of our OEM Replacement Parts division is more than a new name, new colours, or new logo – it's a testament to our dedication to continuous improvement, innovation, and growth. Thank you for being a part of our story so far, and we look forward to the exciting journey ahead, hand in hand.

CAT D10T DOZER

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT D10T DROP-IN BONNET HANDRAIL

Part No. 5504947

A comprehensive set of handrails designed and engineered to provide fall protection on the bonnet of the Caterpillar D10T Dozer. Drop-in handrails for temporary maintenance.

Features:

- Heavy-duty, lightweight aluminium construction
- Suits D10T RJG, D10N 3SK/2YD, D10R 3KR
- Mounts sold separately for ease of fleet implementation (Mount Kit - Part No. **5600787**)
- 2 piece design for ease of fitment

CAT D10T FIXED BONNET HANDRAILS

Part No. 5504835

A comprehensive set of fixed handrails designed and engineered to provide fall protection on the bonnet of the Caterpillar D10T dozer.

Features:

- Suits D10T RJG, D10N 3SK/2YD, D10R 3KR
- Shock absorbing mounts
- Bolt-in handrails for a fixed maintenance solution
- Finished in Satin Black to reduce glare during operation

CAT D10T FUEL TANK

Part No. 5600595

Replaces OEM No. 209-6935

CAT D10T BONNET / HOOD

Part No. 5600597

Direct bolt-on replacement for the CAT D10 Bonnet/Hood complete with all components.

Replaces OEM No. 371-4122, 272-9665

Features:

- Suits D10T RJG, D10N 3SK/2YD, D10R 3KR
- Heavy-duty steel construction
- Comes pre-installed with welding bosses to suit ROX's D10T fixed & drop-in handrails

CAT D10T FUEL TANK

Part No. 5600595

A cost-effective replacement for the CAT D10T Fuel Tank complete with all components.

Replaces OEM No. 209-6935

Features:

- Heavy-duty steel construction
- Available for ROX New for Old (NFO) Exchange [see page 30]

CAT D10T2 FUEL TANK

Part No. 5601243

ROX's CAT D10T2 fuel tank is a direct replacement for CAT OEM part 378-5564, 379-8601, 477-6755, 477-6756, 492-3520 and 492-3521. Complete with all components and designed to be stronger and more robust

Features:

- Heavy-duty steel construction
- Available for ROX New for Old (NFO) Exchange [see page 30]

CAT D10T2 FIXED BONNET HANDRAILS

Part No. 5506668

A set of fixed handrails designed and engineered to provide fall protection on the bonnet of the D10T2.

Features:

- Heavy-duty steel construction
- Shock absorbing mounts
- 2 piece design for ease of fitment
- Finished in Satin Black to reduce glare during operation

CAT D10 / D11 TRACK HANDRAIL

Part No. 5501429

A set of handrails designed to provide fall protection on the Dozer tracks.

Features:

- Heavy-duty, lightweight aluminium construction
- Tare weight per handrail: 72kg
- Includes LH & RH set
- All fixings included

CAT D10T REAR HANDRAILS

Part No. Handrail A: 5600494, Handrail B: 5600495

A comprehensive set of handrails designed and engineered to provide fall protection on the rear of the Caterpillar D10T dozer.

Features:

- Heavy-duty steel construction
- Shock absorbing mounts
- Finished in Satin Black

CAT DIOT/DIOT2 BELLY GUARD 1

PART NO. 5607074
OEM NO. 7G-1814

CAT DIOT/DIOT2 BELLY GUARD 3

PART NO. 5607076
OEM NO. 231-8149

CAT DIOT/DIOT2 BELLY GUARD 5

*2x Required
PART NO. 5607078
OEM NO. 256-9990

CAT DIOT/DIOT2 BELLY GUARD 2

PART NO. 5607075
OEM NO. 231-8148

CAT DIOT/DIOT2 BELLY GUARD 4

PART NO. 5607077
OEM NO. 602-7700

Features:

- Heavy-duty steel construction
- Direct CAT OEM Replacement
- Certified and compliant with Australian Standards
- Powdercoated in CAT Yellow
- Stocked and ready for immediate despatch

CAT D11T DOZER

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT D11T DROP-IN BONNET HANDRAILS

Part No. 5506300

A comprehensive set of handrails designed and engineered to provide fall protection on the bonnet of the Caterpillar D11T Dozer. Drop-in handrails for temporary maintenance.

Features:

- Heavy-duty, lightweight aluminium handrails
- Heavy-duty steel drop-in mounts included
- 4 piece design for ease of fitment
- Suits GEB series only

CAT D11T FIXED BONNET HANDRAILS

Part No. 5505157

A comprehensive set of fixed handrails designed and engineered to provide fall protection on the bonnet of the Caterpillar D11T dozer.

Features:

- Heavy-duty steel construction
- Rubber mounts and joins
- Access gate
- 2 piece design for ease of fitment
- Suits GEB series only
- Finished in Satin Black to reduce glare during operation

CAT D11T CHASSIS HANDRAILS

Part No. 5502252

A removable handrail to be fitted to the D11T chassis, designed and engineered to provide fall protection during maintenance

Features:

- Lightweight aluminium construction
- Powder coated in Y-14 Safety Yellow
- Beam Clamps
- 1800mm high, 2730mm wide [total]

CAT 24M GRADER

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT 24M EMERGENCY ACCESS LADDER

Part No. 5502411

Our CAT 24M Emergency Access ladder is designed for emergency situations. Allows operators to escape quickly in case of a fire or other emergency. Certified and compliant with Australian Standards.

Features:

- Gas struts for controlled release and easy lifting
- Heavy-duty steel and aluminum
- Working Load Limit of 150kg
- Easy-to-use latching system
- Mounts to LHS of cab
- Non-slip nosing's on ladder treads

CAT 24M COVER PLATE RIGHT

Part No. 5502412

A side cover plate to suit the right hand side of a CAT 24M, designed to protect hydraulic hoses and electrical wiring on the front chassis frame.

Replaces OEM No. **316-2323**

Features:

- Heavy-duty steel construction
- Stocked and ready for despatch

CAT 24 COVER PLATE LEFT

Part No. 5502413

A side cover plate to suit the left hand side of a CAT 24M, designed to protect hydraulic hoses and electrical wiring on the front chassis frame.

Replaces OEM No. **316-2322**

Features:

- Heavy-duty steel construction
- Stocked and ready for despatch

OPEN CUT MACHINE

CAT 777 HAUL TRUCK

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT 777 FUEL TANK

Part No. 5607185

Direct OEM replacement fuel tank for all CAT 777 models.

Features:

- Heavy-duty steel construction
 - Optional Armour Flex coating for extra protection
 - Fast-fill options available
 - Delivered in certified transport frame
 - Complete with all components
 - Stocked and ready for despatch
 - Available for ROX New for Old (NFO) Exchange [see page 30]
-

CAT 777F CHASSIS HANDRAIL KIT

Part No. 5503417

A removable handrail to be fitted to the 777F chassis, designed and engineered to provide fall protection during maintenance.

Features:

- Lightweight, yet heavy-duty aluminium construction
 - Clamps to chassis via hand bolts
 - Swinging gates
 - Set includes 2 identical handrails (LH & RH)
-

CAT 777G EMERGENCY EGRESS LADDER

Part No. 5502447

Direct replacement for OEM No. 312-0850. This design is a result of a reccuring incidents where emergency ladders are destroyed weekly.

Features:

- Gas struts for controlled release and easy lifting
 - Heavy-duty steel and aluminum
 - Working Load Limit of 150kg
 - Easy-to-use latching system
 - Fully TIG welded ladder construction
 - Mounts to LHS of cab
-

CAT 785 HAUL TRUCK

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT 785C/D FUEL TANK

Part No. 5607174

ROX's 785C/D Fuel Tank is a direct replacement for CAT OEM No. 434-0955.

Features:

- Heavy-duty steel construction
- Optional Armour Flex coating for extra protection
- Fast-fill options available
- Delivered in certified transport frame
- Complete with all components
- Stocked and ready for despatch
- Available for ROX New for Old (NFO) Exchange [see page 30]

CAT 785C/D FUEL TANK TRANSPORT FRAME

Part No. 5607176

A designed and engineered frame for the CAT 785C/D Fuel Tank. Maximises safety and efficiency during transport and storage.

Features:

- Heavy-duty steel construction
- Tie-down points
- Rubber pads to keep tank from being scratched/dented in transit

CAT 785D CHASSIS HANDRAIL KIT

Part No. 5504818

Removable handrails to be fitted to the CAT 785D chassis, designed and engineered to provide fall protection during maintenance. Certified & compliant with Australian Standards.

Features:

- Set includes 5 assemblies
- Lightweight, yet heavy-duty aluminium construction
- Clamps to chassis via hand bolts
- Self-closing gate
- Ratchet straps to attach handrails to chassis
- Finished in Bend-tech Green

CAT 789 HAUL TRUCK

ELIMINATING DOWNTIME MAXIMISING EFFICIENCY.

CAT 789B/C FUEL TANK

Part No. 5609060

ROX's 789B/C Fuel Tank is a cost-effective replacement for CAT OEM No. **151-3177**.

Features:

- Heavy-duty steel construction
- Optional Armour Flex coating for extra protection
- Fast-fill options available
- Fitting kit available
- Complete with all components
- Stocked and ready for despatch
- Available for ROX New for Old (NFO) Exchange [see page 30]

CAT 789D FUEL TANK

Part No. 5607789

ROX's 789D Fuel Tank is a direct replacement for CAT OEM No. **347-0420**.

Features:

- Heavy-duty steel construction
- Optional Armour Flex coating for extra protection
- Fast-fill options available
- Delivered in certified transport frame
- Complete with all components
- Stocked and ready for despatch
- Available for ROX New for Old (NFO) Exchange [see page 30]

CAT 789D HANDRAIL CONVERSION

Part No. 5501853

Direct replacement for CAT OEM No. 328-1140.

Individual parts:

Platform Handrail LH (1) - 5000282
Platform Handrail RH (2) - 5000281
Stairway Handrail LH (3) - 5000284
Stairway Handrail RH (4) - 5000283

Features:

- Heavy-duty steel construction
- Mounts in existing bolt holes on top
- Ladder handrails simply require welded stud plates for bolting handrails on

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT 793 HAUL TRUCK

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT 793F FUEL TANK

Part No. 5600635

ROX's 793F Fuel Tank is a direct replacement for CAT OEM No. 380-1454.

Features:

- Heavy-duty steel construction
- Optional Armour Flex coating for extra protection
- Fast-fill options available
- Delivered in certified transport frame
- Complete with all components
- Stocked and ready for despatch
- Available for ROX New for Old (NFO) Exchange (see page 30)

CAT 793F FUEL TANK TRANSPORT FRAME

Part No. 5504628

A transport and storage frame designed and engineered for the CAT 793F Fuel Tank. Fitted with rubber pads to keep tank from damage during transit.

Features:

- Heavy-duty steel construction
- WLL: 2T
- Forklift slots (2 sizes)
- Rubber pads to keep tank from being scratched/dented in transit

CAT 793D/F FUEL TANK TRANSPORT AND INSTALLATION FRAME

Part No. 5504650

A frame that has been designed and engineered for transport and installation of CAT 793D and 793F fuel tanks.

Features:

- Heavy-duty steel construction
- Side support uprights with protective lining
- Hot dip galvanised finish
- Fitted with forklift slots
- Ratchet straps included
- Tie-down lugs

CAT 793F CHASSIS HANDRAILS

Part No. 5502341

A removable handrail to be fitted to the 793F chassis, designed and engineered to provide fall protection during maintenance. Certified and compliant with Australian Standards.

Individual parts:

- 1x 793F LH1 - 1700mmL
- 1x 793F LH2 - 2770mmL
- 1x 793F RH1 - 1700mmL
- 1x 793F RH2 - 2770mmL

Features:

- Heavy-duty steel construction
- Finished in CAT Yellow

CAT 793F CORNER MODULE

Part No. 5504223

Direct replacement for CAT OEM No. **300-4166** & **366-3292** (Area B). Certified and compliant with Australian Standards.

Features:

- Heavy-duty steel construction
- Fitted with a non-slip deck
- Includes handrail kit
- Finished in CAT Yellow
- Stocked and ready for despatch

CAT 793F REAR CHASSIS HANDRAIL

Part No. 5501294

Lightweight handrails clamp on to rear chassis to provide fall protection during maintenance.

Features:

- TIG welded lightweight aluminium construction
- Powder coated in Y-14 Safety Yellow
- Threaded blocks clamp onto chassis

CAT 793F BEHIND CAB HANDRAIL LH

Part No. 5600043

An improved replacement for OEM No. **438-9864**. Heavy-duty steel handrail designed and engineered to provide safety while behind the cab of a CAT 793F.

Features:

- Heavy-duty steel construction
- Finished in Y-14 Safety Yellow, Satin Black, or to site requirement

CAT 793F AUTONOMOUS DETECTION BOX ASSEMBLY

Part No. 5600371

Direct replacement for OEM No. **355-8398**. A cost effective replacement for the CAT minestar box.

Features:

- Includes box, clear lens, gaskets, fixings and clamp plate
- Excluding electrical components
- Finished in CAT Yellow

CAT 793F AMT RADAR BOX ACCESS COVER SET

Part No. 5506566

Custom designed hinged radar box covers to replace OEM No. **355-8398**. Durable design for protection from the harsh environment and hinged for ease of access.

Features:

- Includes 3x CAT 793F AMT Radar Box Access Cover (5506565)
- Reversible, bolt-on design
- Neoprene seal gaskets
- Steel parts finished in CAT Yellow

CAT 793F FULL HANDRAIL CONVERSION KIT - NEW STYLE

Part No. 5600300

Direct replacement for CAT OEM No. 328-1140. This conversion kit is designed specifically to suit the upgraded ladder (contact team if unsure).

Individual parts:

Platform Handrail RH [1] - 5600296
Platform Handrail LH [2] - 5600297
Stairway Handrail RH [3] - 5600298
Stairway Handrail LH [4] - 5600299

Features:

- Heavy-duty steel construction
- Mounts in existing bolt holes on top
- Ladder handrails simply require welded stud plates for bolting handrails on

CAT 793F/D HANDRAIL CONVERSION

Part No. 5501853

Direct replacement for CAT OEM No. 328-1140.

Individual parts:

Platform Handrail LH [1] - 5000282
Platform Handrail RH [2] - 5000281
Stairway Handrail LH [3] - 5000284
Stairway Handrail RH [4] - 5000283

Features:

- Heavy-duty steel construction
- Mounts in existing bolt holes on top
- Ladder handrails simply require welded stud plates for bolting handrails on

CAT 854K WHEEL DOZER

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

CAT 854K EMERGENCY EGRESS LADDER

Part No. 5502306

This design is a result of a reoccurring incident on mine sites, where emergency ladders on CAT 854K machines are damaged and destroyed weekly. Certified & compliant with Australian Standards.

Features:

- WLL: 150kg
- Non-slip ladder nosings
- High strength aluminium ladder
- Heavy-duty steel main frame
- Torqued gear unit for controlled release & easy lifting
- Heavy-duty roller guides
- Release pedal for operating on the truck
- Patented design
- Non-slip ladder rungs

CAT 854K FRONT HANDRAIL KIT

Part No. 5504732

Handrails designed and engineered for protection of maintenance personnel on the front of the CAT 854K.

Features:

- Heavy-duty aluminium ladder and sides
- Heavy-duty steel main frame
- Non-slip grating on decks
- Non-slip nosings on edges of decks
- Access gate with vibration safe latch
- Vibration damping handrail mounts
- Finished in Y-14 Safety Yellow

CAT 994H WHEEL LOADER

CAT 994 EMERGENCY EGRESS LADDER

Part No. 5504157

This design is a result of a reoccurring incident on mine sites, where emergency ladders on CAT 994 machines are damaged and destroyed weekly. Certified & compliant with Australian Standards.

Features:

- WLL: 150kg
- Non-slip ladder nosings
- High strength aluminium ladder
- Heavy-duty steel main frame
- Torqued gear unit for controlled release & easy lifting
- Heavy-duty roller guides
- Release pedal for operating on the truck
- Patented design

TAKE NOTE

Lined area for taking notes, featuring horizontal lines and a large, faint background illustration of a bull's head.

BUILT BETTER

ROX

ROX

ROX FUEL TANKS

We provide value that is unrivalled in the industry when it comes to ROX fuel tanks.

Tanks come complete with all fitting components, with optional features such as Armour Flex coating for enhanced protection, a certified transport and installation frame for maximised safety and efficiency, and a range of fast-fill fuel injection options to suit your sites requirements.

NEW FOR OLD (NFO)

We understand that above all this is a time sensitive process, so our aim is to ensure you are receiving a fully operational replacement tank without incurring unnecessary downtime.

The first step is to reach out to one of our ROX team to discuss the extent of damage, your current stock level (and time sensitivity) and other specific requirements. From there we can determine the best path to take. Depending on the urgency, we can send out one of our stocked tanks with no project lead time, otherwise we will provide a quote and lead time on a full tank refurbishment.

FUEL TANK REFURBISHMENT

1. Tank is stripped back, cleaned, NDT crack test and thickness testing
2. Finalise scope of works and quote
3. Reweld cracks and carry out repairs as per AS1692-2006
4. Pressure test with air to 35kPa (unless noted otherwise) and hold for 40 min
5. Surface treatment with optional Armour Flex coating for extra protection or finished in machine colour
6. Returned to site on certified fuel tank transport and installation frame

NFO EXCHANGE

1. A brand new ROX fuel tank is despatched within 48 hours of purchase
2. Tank arrives to your site on a certified ROX transport and installation frame, complete with any site required modifications
3. New tank is installed and old tank is returned back to us on the frame

A simple process which delivers exceptional value and will significantly minimise downtime. Reach out to the ROX team if you have any questions about our fuel tanks, refurbishments, or NFO exchange.

- Stocked and ready for immediate despatch
- Suits models EX1900-5, EX1900-6

TRACK FRAME GUARD - FRONT

Part No. 5502043

Features:

- Construction: Heavy-duty steel
- Bolts and spacers included
- Direct replacement for OEM No. **7026071**
- Suits models EX1900-5, EX1900-6

TRACK FRAME GUARD - MIDDLE / REAR

Part No. 5502044

Features:

- Construction: Heavy-duty steel
- Bolts and spacers included
- Direct replacement for OEM No. **7026024**
- Suits models EX1900-5, EX1900-6

HITACHI EX1900-6 ACCESS LADDER

Part No. 5502080

Features:

- Heavy-duty steel construction
- Certified and compliant with Australian Standards
- Direct replacement for OEM No. **8086094**
- Stocked and ready for immediate despatch
- Suits models EX1900-5, EX1900-6

HITACHI EX1900-6 FENDER BRACKET

Part No. 5502081

Features:

- Heavy-duty steel construction
- Certified and compliant with Australian Standards
- Direct replacement for OEM No. **8108328**
- Stocked and ready for immediate despatch

HITACHI FENDER BRACKET

Part No. 5502082

Features:

- Heavy-duty steel construction
- Certified and compliant with Australian Standards
- Direct replacement for OEM No. **8108437**
- Stocked and ready for immediate despatch
- Suits models EX1900-6, EX2600-6

HITACHI EX1900-6 COVER

Part No. 5502085

Features:

- Heavy-duty steel construction
- Certified and compliant with Australian Standards
- Direct replacement for OEM No. **8110813**
- Stocked and ready for immediate despatch
- 2x units per Hitachi EX1900-6 Fender L2

Features:

- Construction: Heavy-duty steel
- Certified and compliant with Australian Standards
- Direct replacement for OEM No. 7030106
- Stocked and ready for immediate despatch
- Suits models EX2500-5, EX2500-6

HITACHI EX2500 BASH PLATE

Part No. 5500152

Features:

- Construction: Heavy-duty steel
- Modular design
- Painted to site or machine specific colours

HITACHI EX2500 CYLINDER PROTECTION

Part No. 5503492

Designed to minimise damage and downtime that occurs to the hydraulic rams during operation.

Features:

- Extremely robust, flexible rock deflection
- Provides full cover to the ram with no excess weight or restriction
- Fitting components supplied
- Cost effective solution, easy to install
- Stocked and ready for despatch
- Suits model EX2500-6

EPIROC D65 SURFACE DRILL

ELIMINATING DOWNTIME, MAXIMISING EFFICIENCY.

EPIROC D65 DRILL BOOM RAISE RAM CLAMP

Part No. 5503365

Clamps to the boom raise cylinder when extended for extra safety during maintenance.

Features:

- Heavy-duty steel construction
- WLL: 30T
- Lifting handles
- Manual handling weights of 14kg max
- Quick and easy installation

EPIROC D65 JACKING CYLINDER LOCKOUT SET

Part No. 5601316

Our rear jacking cylinder lockouts are built to Australian standards, ensuring safe maintenance on Epiroc D65 drills.

The set includes one Leveling Lockout and one Full Oscillation Extension Lockout.

Features:

- Heavy-duty steel construction
- WLL: 30T
- Easy to install and lock into place

EPIROC D65 CLAMP STORAGE TOOLBOX

Part No. 5504044

An engineered and certified toolbox for safe and efficient storage of Epiroc D65 clamps.

Features:

- Construction: Heavy-duty steel
- 500mm height
- Holds 3 x Rear Jackstand Clamps [5503499] and 1 x Boom Raise Clamp [5503365]
- Gas struts for lid
- Key lock with T handles
- Heavy-duty hydrocarbon resistant foam cut out
- Each tool has a specifically CNC routed cutout
- Fitted with forklift slots
