Harm from Others Overview

This section is to identify risks to the patient from any other person but does not include risks from service intervention (iatrogenic harm).

The section has a mixture of multiselect options, and the narrative boxes are to be used to highlight individual Harm From Others in as much detail as possible.

Harm From Others

This section shows you how to complete and change information in the Harm From Others section.

Adding Harm From Others Information

1) Select Yes or No by clicking the drop down arrows for **Harm From Others: Current Risk?** And **Are you currently experiencing Domestic Abuse/Violence?**

The screenshot shows the 'Harm From Others' form. On the left, there are two dropdown menus: 'Current Risk?' with 'Yes' selected and 'Are you currently experiencing Domestic Abuse/Violence?' with 'No' selected. These two dropdown menus are enclosed in a red rectangular box. To the right, there are three main sections: 'Current:' with a text area containing 'Bullying', 'Historic:' with a text area containing 'grooming', and 'My View' with an empty text area. Below 'My View' is an 'Others View' section, also empty. Each text area has a small magnifying glass icon in the top right corner.

2) Click into the free text narrative box to enter any **Current** risks.

This screenshot is similar to the previous one, but the red box now highlights the 'Current:' text area, which contains the word 'Bullying'. The dropdown menus on the left are no longer highlighted.

3) Click into the free text narrative box to enter any **Historic** risks.

The screenshot shows a form with several sections. On the left, there are dropdown menus for 'Current Risk?' (set to 'Yes') and 'Are you currently experiencing Domestic Abuse/Violence?' (set to 'No'). The main area has three text boxes: 'Current:' containing 'Bullying', 'Historic:' containing 'grooming', and 'My View'. The 'Historic:' box is highlighted with a red border. There is also an 'Others View' box at the bottom right.

My View/ Others View

There are **My View** (relating to the patient), and **Others view** sections throughout the safety summary to triangulate this information.

1) Click into the free text narrative box to enter **My View** and/or **Others View** where appropriate.

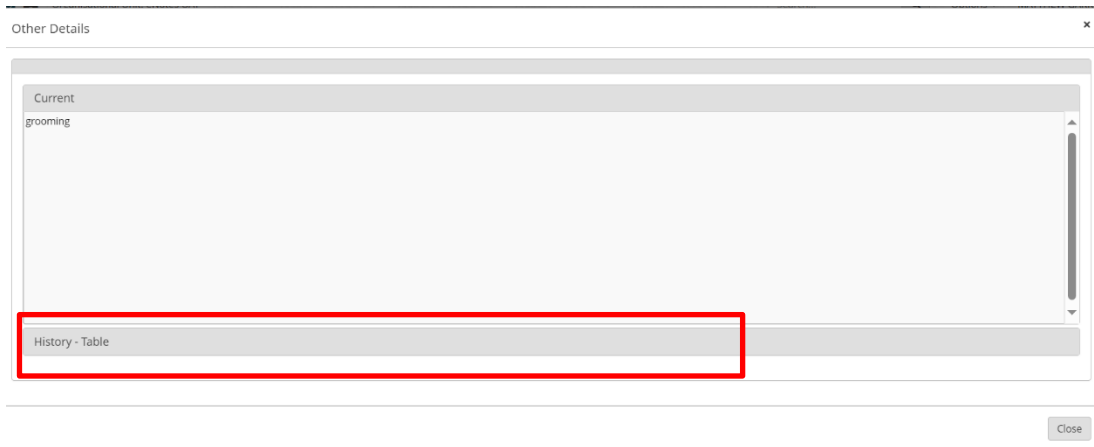

This screenshot is similar to the previous one but highlights the 'My View' and 'Others View' sections with a red box. The 'My View' box contains 'Bullying' and the 'Others View' box contains 'grooming'. The 'Current:' and 'Historic:' boxes are also visible, containing 'Bullying' and 'grooming' respectively.

Viewing Historical Information

1) **Selecting** the green **magnifying glass** will allow you to view any historic information relating to that specific field.

2) Select the **History - Table** heading

3) Any historical changes will be listed here chronologically and select **Close** to return to the profile
