A man with a mustache and long hair, wearing a dark olive-green technical jacket and matching pants, is hiking up a rocky mountain trail. He is looking off to the side with a determined expression. The background features a vast, hazy mountain landscape under a cloudy sky. The overall tone is rugged and adventurous.

BEYOND THE LIMITS

LIMITS ARE NOT FIXED

They shift with the environment, the mission,
and the person who faces them.

Our solutions are designed to evolve with
every challenge—adapting to terrain, climate, and
operational demands without compromise.

This is equipment built to extend endurance, sharpen
focus, and maintain control when pressure is highest.

Adjustable, resilient, and purpose-driven,
our gear takes you beyond comfort zones.

Reach the limits—and choose to go further.

**For 35 years, we design so you perform freely,
efficiently and confidently - even in the chaos.**

We measure our work by the confidence and protection our products provide to those who depend on them.

Every solution is designed to adapt, perform, and support operations as conditions evolve.

Experience has taught us that true performance is built over time – through discipline, refinement, and respect for real operational demands.

This understanding continues to guide our decisions today, just as it has for more than three decades.

As we mark 35 years of continuous service, our focus remains unchanged: to support people and operations with dependable solutions that perform quietly and consistently, wherever they are required—from critical operations to daily use.

2000

Pentagon was established as an innovative brand in the tactical field, ushering in a new era of products and maintaining a strong brand presence at international exhibitions worldwide.

OUR STORY

1991

ESTABLISHMENT

A family group of visionaries founded the company with the goal of creating something unique in Greece.

Purchase of new logistics facilities, totaling 6,000sqm. , securing a total storage capacity to 10,800 sqm.

2025

Launch of the B2G platform.

35 YEARS

OF PUSHING BEYOND LIMITS

OUR VISION

Our vision is to become the foremost provider of cutting-edge Tactical, Outdoor and Urban gear, an unwavering support to professionals and outdoor enthusiasts alike.

We seek to continually evolve, shaping the future of tactical wear and gear by pushing the limits of design, technology, and functionality.

We aim to empower our customers to thrive in every challenge they face.

GLOBAL PRESENCE

Our brand proudly exports to 132 countries worldwide, reflecting our commitment to global reach and excellence.

— COMFORT —

In the city, tactical doesn't mean standing out. It means blending in—fading into the environment while moving with intent.

The Comfort zone incorporates everyday urban movement, where functionality meets ease.

Our design philosophy fuses urban practicality with clean, sharp aesthetics, built for those who navigate the concrete jungle with purpose.

Lightweight fabrics, ergonomic fits, and subtle tactical features deliver all-day comfort without compromise.

Engineered to perform in various conditions, styled to belong in the city.

LIMIT

When conditions escalate and pressure builds,
there is no room for compromise.

LIMIT represents the point where everyday gear
is no longer enough.

Designed for high-intensity situations, this
equipment delivers enhanced durability,
advanced functionality, and dependable
performance, when conditions start getting tough.

So you can stay focused, stay prepared,
and remain in control.

A person in military gear is lying on a rooftop, looking out over a cityscape. The scene is bathed in the warm, golden light of a low sun, creating a hazy atmosphere. The person's legs and feet, wearing heavy boots, are visible in the foreground. The background shows a city with buildings and a church spire under a cloudy sky. The text "OPERATE ABOVE YOUR MISSION" is overlaid in the center in a bold, white, sans-serif font. A horizontal line with black, blue, and red segments is positioned below the text.

— EXTREME —

In operational environments, dependability is non-negotiable.

EXTREME is the threshold where conditions harden, pressure never lifts and every decision carries weight.

Equipment is engineered for decisive action, built to withstand relentless stress and crafted for mission-critical effectiveness.

Precision isn't optional. It's the standard when there is no margin for error.

BLEND IN THE EXTREME

Each solution is designed to work as part of a greater system moving in sync, supporting the whole, yet standing strong on its own.

From breathable base layers to weatherproof hardshells, each element adapts as conditions shift, responding to cold, snow, rain, water, wind and whatever the environment throws at you, keeping you ready for whatever the extreme zone brings.

EMBRACE THE ARCTIC

When temperatures plunge and the environment turns unforgiving, performance can not rely on comfort alone our systems are designed to survive the cold.

Advanced insulation systems and technologies retain warmth without bulk, maintaining mobility and comfort when you have to keep moving forward.

Materials are selected to remain flexible in sub-zero conditions, resisting stiffness, cracking, and thermal fatigue.

Insulation retains its structure under compression, movement and load, ensuring consistent performance over time.
