Acrylic Nail Transformation

Acrylic nails can be customized to suit your preferences. You can choose the length, shape, and color of your nails. Even adding designs or embellishments.

Acrylic nails can give you the instant gratification of having longer, stronger nails without having to wait for your natural nails to grow out.

Please Note: All acrylic services come with square shaped. *Prices will vary according to different other shapes, and length.*

Dear valued customer:

Thank you for considering getting Acrylic Nail Transformation on natural nails. We would like to inform you that due to the length of your natural nails, there may be limitations on the designs, shapes, or any special requests you may have.

Acrylic powder is a great option for those who want to add length and strength to your natural nails. However, it is important to keep in mind that the length of your natural nails will affect the outcome of your acrylic application. Generally, shorter natural nails are better suited for simpler designs and shapes, while longer natural nails can accommodate more intricate designs and shapes.

Overall, we would like to work with you to create the best possible outcome for your natural nails. Please let us know if you have any questions or concerns regarding getting acrylic nail transformation. We will be happy to assist you.

Gel-X System

Gel-X nails are a type of nail extension and strengthening that has become increasingly popular in recent years. Here are some of the benefits.

Overall, Gel-X nails are pre-shaped gel tips which offer a long lasting, low maintenance, and natural looking option for those who want to enhance the appearance of their nails.

No drying time, unlikely traditional nail polish. Gel-X nails are cured quickly under LED light, so there's no need to wait for them to dry. Gel-X are fillable, please prefer Hard Gel Transformation.

Hard Gel Transformation

Is a nail enhancement like acrylic nails, except it cures under a LED light. It is NOT Gel Polish/Shellac/Soft Gel/Soak-Off Gel.

It is considered a healthier version of acrylics, especially because they don't have the powder or harsh strength, shape and extended nails. It's also extremely resilient and hard wearing, making it have great long lasting effects.

Please Note: All Hard Gel Transformation services come with square shaped. Prices will vary according to different other shapes, and length.

If you're looking to get a special nail art design or have any special request, we might recommend that you call ahead of time to discuss your idea with us.

This will ensure that we have the proper materials and tools available to create the perfect look for you.

Additionally, please keep in mind that special nail art designs may require extra time to complete, so it's important to manage your time accordingly. We want to make sure that you have a great experience with us, and that includes allowing enough time for us to create your dream.

Finally, we kindly ask that you arrive on time to your appointment. This allows us to stay on schedule and ensures that we have enough time to create your desired nail art design. We appreciate your cooperation and look forward to providing you with beautiful and unique nails!
