

2026

# IONIQ 5

# Fully charged for the future. This is IONIQ 5.

Hyundai is always pushing the electric vehicle forward in exciting new ways. Just ask the automotive press: The Hyundai IONIQ 5 was named 2025 Best Electric SUV by U.S. News & World Report.<sup>1</sup> And the IONIQ 5 received a 2025 Best Buy Award from Kelley Blue Book's KBB.com.<sup>2</sup>

But you don't have to look to industry experts to see it. Just gaze directly at its audacious design. Every angle, bevel and edge of its Parametric Dynamic styling – and every element of its pixel lighting motif – says IONIQ 5 has gotten to the future first. Look inside, and you'll see more timeless modern design in its clean lines. It's all capped by dual 12.3-inch screens integrated into a single dramatic display panel that stretches from the driver's position across to the center stack.

To live up to all of that personality, IONIQ 5 offers many ways to make it personal. Choose between multiple power and range offerings, single or dual-motor powertrain

options, and five different trim levels. IONIQ 5 XRT bolsters off-pavement capabilities thanks to a higher ride height, all-terrain tires and rugged XRT styling inside and out. What other compact electric SUV invites you to go so far off the trodden path?

Its tech is right out of the future as well. Wireless Apple CarPlay® and Android Auto™ are standard.<sup>3</sup> Available Remote Smart Parking Assist 2 can help you slip into and out of tight parking spots.<sup>4</sup> Available Digital Key 2 Premium can integrate your key into your compatible smartphone or smartwatch.<sup>5</sup> And software updates are pushed to your Hyundai wirelessly.<sup>6</sup>

So, ready to charge up and go? It will take less time than you think. With IONIQ 5, you can use a DC fast charger – the fastest type of charger on the grid – to energize quickly.<sup>7</sup> A full charge can deliver an EPA-estimated range of up to 318 miles.<sup>8</sup> That'll take you forward into tomorrow.

IONIQ 5 Limited AWD in Gravity Gold Matte

# High tech. Higher heart rate.

Press the pedal formerly known as 'gas', and the electric energy of your IONIQ 5 rockets you confidently – and quietly – ahead with little more than a whoosh. Choose from three ways to experience IONIQ 5 power and efficiency: A 168-hp Rear Wheel Drive powertrain, an extended range 225-hp Rear Wheel Drive, or available All Wheel Drive with a full 446 lb-ft of torque surging from a 320-hp dual-motor system.

You'll experience IONIQ 5's speed and flexibility in how you charge as well. Thanks to the included adapter, you can plug into a US 400V conventional charger, the growing NACS (North American Charging Standard) Network or a 350 kW DC Fast Charger that can help boost you from 10% to 80% charge in as little as 20 minutes.<sup>9</sup> About the same amount of time it takes to order and enjoy your cup of coffee.<sup>7</sup>

What will you do with all of that range? How about a little more exploring? The rugged IONIQ 5 XRT trim lets you take the traction of IONIQ 5's All Wheel Drive even further with special Terrain modes that enhance its capabilities in mud, sand or snow. The XRT trim also comes equipped with a 23 mm higher ride height to clear rocky terrain, grippy all-terrain tires on 18-inch wheels and a body wrapped in protective cladding.

Wherever you go in your Hyundai IONIQ 5, bring your sense of adventure. And bring your electronic toys, too. IONIQ 5's available onboard Vehicle-to-Load (V2L) charger lets you energize e-bikes, game consoles, espresso machines – whatever you want to plug in and power up.<sup>10</sup>

All Wheel Drive with a 320-hp dual-motor electric powertrain

Ultra-fast 800V (350 kW) charging system

Exclusive XRT red front tow hooks

Exclusive 18" XRT wheel design

Extra protection with XRT digital camo lower body cladding

**IONIQ 5 Limited AWD in Gravity Gold Matte**

# Intelligent, but never artificial.

Opening the door to your IONIQ 5 is like opening the door to the future of useful technology. As you approach and unlock your vehicle, the door handles automatically extend outward to greet you. It's the first of many sophisticated, high-tech touches you'll find throughout IONIQ 5.

From the driver's seat, set your eyes on the big, bright 12.3-inch digital instrument cluster directly before you, which seamlessly extends to another 12.3-inch high-resolution infotainment screen to your right. They form one panoramic display with all of the information you need. On the Limited trim, you can also view your important driving information like a fighter pilot – projected onto the inside of your windshield – compliments of IONIQ 5's full color Head-up Display.

Wirelessly connect to Apple CarPlay® or Android Auto,™ and you can stream your music to an available 8-speaker Bose® premium audio system. It lets you connect two phones simultaneously via Bluetooth® streaming.

Everyone can stay plugged in with three standard USB-C ports up front and two ports in the 2nd row. Over-the-Air updates conveniently keep your software up-to-date. When it's time to park or recharge, integrated Hyundai Pay lets you pay for it right from your center console touchscreen.† If parking is tight, available Remote Smart Parking Assist lets you effortlessly roll into or out of parking spots using your key fob as a remote control while standing outside your IONIQ 5. That's genuinely brilliant.

IONIQ 5 Limited in Gray 2-Tone H-Tex®

# Big thinking. Smart space.

The IONIQ 5 interior is not only an icon of innovative design – it sets standards for intelligent use of space as well. The cabin floor is completely flat to give the feeling you're relaxing in your living room. That feeling extends to the rear passengers, who enjoy reclining seatbacks and 2nd-row seats that slide forward or rearward to extend rear-seat legroom or cargo room.

Fold down the 2nd-row seats, and you'll quickly convert your IONIQ 5 into a spacious hauler with the room you need for tackling your to-do list or a weekend road trip. And to make it easy to access that cargo room – even with arms full – just stand near the rear bumper with your Proximity Key, and the hands-free power liftgate's available auto open function effortlessly raises so you can load.<sup>12</sup>

Up front, settle into IONIQ 5 Limited's driver seat – you'll enjoy the supple feel of H-Tex®-trimmed seating and a reclining Relaxation Function that supports your legs while you rest. Now look to your right. Between the front seats is a versatile center console available with a floating island that can slide fore and aft to keep your dual cupholders and wireless phone charger in perfect reach.

When you want to activate features like the standard heated front seats or available quick-cooling ventilated front seats, smartly sculpted tactile buttons mean you don't have to use a touchscreen. And when you want to welcome in some sunlight, an available glass Vision Roof expands your sense of spaciousness.

60/40 split-folding 2nd-row seats with recline & slide

IONIQ 5 Limited in Gray 2-Tone H-Tex®

# Even its safety is forward-looking. And side. And rear.

Protection starts with vision. And our vision is seen in a suite of advanced safety and driver-assistance technologies known as Hyundai SmartSense. Using an integrated system of cameras, radar and ultrasonic sensors, SmartSense monitors your surroundings from nearly every angle to help avoid potential hazards.<sup>13</sup>

Yet IONIQ 5 is not only watching what's outside your vehicle – it's watching out for those inside as well. Forward Attention Warning<sup>14</sup> helps alert you to signs of driver fatigue or distraction, while available Advanced Rear

Occupant Alert helps look out for your little ones with super-sensitive radar that warns the driver if a sleeping child has been left in the 2nd-row seats.<sup>15</sup>

To match that safety with convenience, parking assistance features on XRT and Limited trims offer proximity sensors to the front, side and rear that help you confidently navigate crowded parking areas. The Parking Collision-Avoidance Assist – Reverse/Forward/Side feature can even hit the brakes if an object is detected.

## Hyundai SmartSense Technologies

Safe Exit Assist | Rear Occupant Alert **6**

Blind-Spot Collision-Avoidance Assist **2**

**4** Lane Following Assist

Rear Cross-Traffic Collision-Avoidance Assist **3**

**1** Forward Collision-Avoidance Assist

**5** Highway Driving Assist 2

### 1. Forward Collision-Avoidance Assist

When the front-facing camera and radar detect a vehicle, pedestrian or cyclist in your path – or an oncoming car when turning left in an intersection – your Hyundai warns you of a potential collision. If necessary, the system may automatically apply emergency braking to help avoid a collision.<sup>16</sup>

### 2. Blind-Spot Collision-Avoidance Assist

If your Hyundai detects a vehicle in your blind spot while the turn signal is on, this available feature alerts the driver and automatically applies opposite steering before you change lanes to help avoid a collision. It can also detect vehicles up to two lanes over to help prevent collisions when exiting a parallel parking spot.<sup>17</sup>

### 3. Rear Cross-Traffic Collision-Avoidance Assist

Backing out of a parking space and wondering whether there is cross traffic coming your way? This feature can help warn you of another vehicle approaching from the side. If necessary, your Hyundai may automatically apply braking to help prevent a collision.<sup>18</sup>

### 4. Lane Following Assist

Using the vehicle's front-facing camera to detect lane markers on the road, this feature assists the driver's steering to help keep you centered in your lane. It can even help determine a virtual path based on the movements of the preceding vehicle.<sup>19</sup> Meanwhile, haptic feedback through the steering wheel helps remind you to keep your hands on the wheel.

### 5. Highway Driving Assist 2

Acting as your copilot on freeways, this available feature helps keep you centered in your lane while also maintaining a set speed and distance from the vehicle in front. It can use navigation map data to automatically adjust for changing speed limits and reduce your speed when it detects you're approaching a curve in the road. The system can even respond to vehicles that drive too close in the adjacent lane and assist in making lane changes.<sup>20</sup>

### 6. Safe Exit Assist | Rear Occupant Alert

After you park, Safe Exit Assist issues an alert when another vehicle is detected to be approaching from behind, letting the driver know it may not be safe for passengers to open the street-side door.<sup>21</sup> The available Advanced Rear Occupant Alert feature can help remind the driver to check the 2nd-row seats for kids or pets after turning off the vehicle.<sup>15</sup>

# Experience Bluelink+: No fees. No trial. No worries.

When we introduced Bluelink+, Hyundai became the first automotive brand to offer its suite of connected car features to new car purchasers at no extra cost. Today, Bluelink+ remains complimentary with the purchase of your new 2026 IONIQ 5.<sup>22</sup>

Bluelink+ technologies are designed to help keep you safe – ranging from automatic collision notifications to enhanced roadside assistance that sends your location to a roadside assistance associate.<sup>23</sup> And much more. Bluelink+ also includes helpful maintenance features like remote diagnostics and monthly vehicle health reports. All complimentary with a 2026 IONIQ 5 new-vehicle purchase.

Our MyHyundai with Bluelink app turns your compatible smartphone, smartwatch or home assistant device into a Bluelink remote control – one capable of unlocking your IONIQ 5's doors and starting your vehicle's motor and climate controls before you leave the house, office or restaurant.

Enter your IONIQ 5 using the available Digital Key 2 Premium on your compatible smartphone or wearable device, and your radio and navigation system presets are automatically restored using your Bluelink personal profile.<sup>5</sup> Apple Wallet®, Google Wallet™ and Samsung Pass® let you share your digital key with trusted friends and family members<sup>24</sup> – as the primary driver, you control when a shared key can be used. You can also pause or end shared-key access at any time.

## Bluelink

### Automatic Emergency Assistance

Bluelink offers you 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that calls for help if you're in an accident where your vehicle's airbags deploy.<sup>23</sup>

### Remote Vehicle Status

Wondering how much charge is left in your IONIQ 5's battery? If the doors are locked or your liftgate is closed? Your MyHyundai with Bluelink app knows the answers to these questions and many more.

### Remote Charge Access

You can control the charging of your IONIQ 5 remotely while it is plugged into an external power source, and schedule charging at specific times to take advantage of low-demand hours and rates.

### Remote Climate Controls

Preheating your IONIQ 5 when it is connected to a power source saves battery power needed to heat your vehicle on the road. On warm days, Remote Climate Control can cool your cabin before you drive.

### Surround View Monitor

It's easy to keep a close eye on your parked IONIQ 5 from your smartphone using an available Surround View Monitor feature. You can access its four exterior cameras or an overhead view with a few taps in the app.<sup>25</sup>

### Hyundai Pay

Paying to charge or park is easy using the Hyundai Pay feature. It lets you find and complete payments for charging your vehicle or reserving a parking space directly from your vehicle's touchscreen display.<sup>11</sup>

Feature comparisons based on competitor information available at the time of publication. Although the information in this brochure is believed to be correct, accuracy cannot be guaranteed. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time, without notice, without incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer or visit HyundaiUSA.com for current vehicle specifications or details on any of the programs or services listed here.

## Footnotes

<sup>1</sup>View U.S. News Best Cars at cars.usnews.com. <sup>2</sup>For more information, visit Kelley Blue Book's KBB.com. Kelley Blue Book is a registered trademark of Kelley Blue Book Co., Inc. <sup>3</sup>Apple® is a registered trademark of Apple Inc. Android Auto™ is compatible with Android™ phones running Android 5.0 or higher. Android Auto may not be available on all devices. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. <sup>4</sup>Remote Smart Parking Assist 2 (RSPA) can help remotely park the vehicle. However, several factors can impact RSPA performance. RSPA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) interfere with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for details and limitations. <sup>5</sup>Digital smartphone key requires a compatible smartphone and an appropriately equipped Hyundai vehicle. Not all smartphones are compatible. Hyundai vehicle must be equipped with smart key with push button start, wireless device charging, and Audio Video Navigation System 5.0 (or newer) or Display Audio 2.0. Tap to lock/unlock function works on front doors only. Requires MyHyundai with Bluelink app and active Bluelink account. Please visit MyHyundai.com for information on compatible devices. Features and specifications subject to change. See your Owner's Manual for additional details and limitations. <sup>6</sup>Over-the-Air (OTA) software updates are available and complimentary to original purchasers and lessees of new 2026 IONIQ 5 Bluelink-equipped Hyundai vehicles ("Eligible Models"). Map and multimedia OTA updates are available and complementary to original purchasers and lessees of Eligible Models for an initial three-year term, after which fees apply. Three-year term starts from new vehicle date of first use. OTA updates require an Eligible Model and an active Bluelink subscription agreement subject to the Connected Services Terms and Conditions. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees are subject to change. <sup>7</sup>Actual charging time varies based on a number of factors, including current battery charge level, output of the charging unit, vehicle and battery settings, battery temperature and outside temperature. DC fast charging stations are provided by independent companies and availability is not guaranteed. <sup>8</sup>2026 RWD IONIQ 5 SE: 129 City/100 Hwy/114 Combined MPGe. 318-mile range based on a fully charged battery and 114 combined MPGe. MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. All figures are EPA estimates and for comparison purposes only. Actual range and mileage will vary with options, driving conditions and habits, vehicle and battery's condition and other factors. <sup>9</sup>Approximately 20 minutes to charge from 10% to 80% on a 350-kW, 800V DC ultra-fast charger using the CCS adapter included with the 2026 IONIQ 5. Actual charging time varies based on a number of factors including current battery charge level, output of the charging unit, vehicle and battery settings, battery temperature and outside temperature. DC ultra-fast charging stations are provided by independent companies and availability is not guaranteed. <sup>10</sup>Vehicle-to-Load (V2L) two-way charging will deplete the battery and become inoperable once battery discharge limit reaches 20 percent. Not all electrical appliances will operate properly when using this feature. Do not use products that require a continuous power supply, and only use appliances under 16 amps. Additional limitations may apply. See Owner's Manual for details and limitations. <sup>11</sup>Hyundai Pay is available on select 2021-2026 model year Hyundai vehicles equipped with Bluelink and touchscreen navigation. Requires an active Hyundai Bluelink mobile app account, subject to the Connected Services and Hyundai Pay Terms and Conditions. Cellular and GPS coverage is required. Only use Bluelink features and corresponding devices when safe to do so. Valid Visa, MasterCard or American Express credit card must be linked to Hyundai Pay. Credit card eligibility and terms are determined by the card issuing bank. Hyundai Pay is currently accepted at select gas stations, charging stations and parking facilities (collectively, "Merchants") in the U.S. Participating Merchants may not operate in all states or locations. Additional Merchant terms and fees may apply. Features, specifications, fees and availability are subject to change. Visit Owners.HyundaiUSA.com for more information. <sup>12</sup>The hands-free power liftgate opens when your Proximity Key is within 3 feet of the detection area for at least 3 seconds. Radio transmitters and other smart keys may interfere with normal operation. Please consult your Owner's Manual for details and limitations. <sup>13</sup>Safety features vary by model and trim level. For details, refer to the Features chart in this brochure or visit HyundaiUSA.com. <sup>14</sup>Forward Attention Warning monitors the driver's eye position using the vehicle's in-cabin camera and may provide an audible warning if it detects driver inattention or drowsiness. It does not detect and provide an alert in every situation. It is the driver's responsibility to remain alert at all times. See Owner's Manual for details and limitations. <sup>15</sup>When the vehicle is parked and the vehicle has been turned off, Advanced Rear Occupant Alert (AROA) can help alert the driver if it detects movement from a child or pet. Upon exiting and locking the vehicle, AROA may provide visual, audible and/or Bluelink+ alerts if the interior overhead sensor detects movement, AROA is not a substitute for driver attentiveness. Never leave a child or pet unattended in a vehicle. Bluelink notification requires a Bluelink-equipped vehicle with an active Bluelink account. See Owner's Manual for details and limitations. <sup>16</sup>Forward Collision-Avoidance Assist with Pedestrian, Cyclist, and Junction Turning Detection is intended to be a supplement to safe driving practices. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians, or cyclists under certain conditions. The system's Junction Turning function operates when the vehicle's left turn signal is activated, the vehicle is traveling between approximately 6-19 mph and the oncoming vehicle's speed is between approximately 19-44 mph. The system is a driver assistance system and is not a substitute for safe driving. The driver is responsible for being attentive and maintaining control of the vehicle, and not wait for the system's alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for further details and limitations. <sup>17</sup>Blind-Spot Collision-Avoidance Assist (BCA) can assist the driver by warning of other cars in the blind spot region. While your turn signal is on, it can alert you visually, by sound and/or by haptic feedback as well as apply corrective steering to help prevent an unsafe lane change if a collision is detected. It senses the rear side territory of the vehicle when it is traveling over approximately 25 mph. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot. Its operation depends on the size, distance, angle and relative speed difference between your car and other cars. BCA may not operate if sensors are obscured in any way. Do not rely exclusively on BCA. BCA is a supplemental system, and the driver must still be attentive and exercise caution when driving. It is important to always signal, look over your shoulder and through your mirrors before changing lanes. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for further details and limitations. <sup>18</sup>Rear Cross-Traffic Collision-Avoidance Assist (RCCA) may alert the driver of a potential collision by providing an audible warning and/or applying braking. RCCA is active when the vehicle is in reverse and operating at low speeds. Never rely exclusively on RCCA. RCCA cannot prevent all collisions and may not provide alerts or braking in all conditions. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. <sup>19</sup>Lane Following Assist (LFA) helps keep your vehicle centered in its lane only when the lane markings are clearly visible on the road. LFA will not work under all circumstances and will not prevent loss of control. LFA is a supplemental assist, and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. <sup>20</sup>Highway Driving Assist (HDA) is for highway use only and will help keep you centered in your lane while maintaining a safe distance from the vehicle ahead when the lane markings are clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for details and limitations. <sup>21</sup>When your vehicle is parked, Safe Exit Assist (SEA) can alert the driver when a vehicle is approaching from behind. When Child Locks are active, SEA prevents initial disabling of the child safety locks if a vehicle approaching from behind is detected. SEA does not work in all situations and is not a substitute for driver or passenger attentiveness. Always be aware of your surroundings and attentive to approaching vehicles. See Owner's Manual for details and limitations. <sup>22</sup>Bluelink+ is available to original purchasers and lessees of new 2024 or newer Bluelink-equipped Hyundai models. Not available on all models and trims. Bluelink+ requires an active Bluelink account subject to the Connected Services Terms and Conditions. Bluelink features vary by model and trim. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Fees apply for map and multimedia over-the-air (OTA) updates after an initial three-year period of complimentary updates. Three-year term starts from the new vehicle date of first use. Features, specifications, and fees are subject to change. Bluelink services rely on digital wireless telecommunications technology outside of Hyundai's control. Bluelink is dependent on 4G LTE cellular networks controlled and maintained by third-party wireless carriers. If and when these networks change and/or discontinue service, or the underlying technology required to support Bluelink becomes obsolete, then the connected services will not work and Hyundai will be forced to cancel impacted subscription services. <sup>23</sup>Bluelink agents will contact existing emergency service responders. <sup>24</sup>Apple Wallet® is a registered trademark of Apple Inc. Samsung Pass® is a registered trademark of Samsung Electronics Inc. Google Wallet™ is a trademark of Google LLC. <sup>25</sup>Surround View Monitor (SVM) is a parking support system. SVM cannot completely eliminate blind spots, may not detect every object and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for details and limitations.

Hope comes standard on every Hyundai.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 27 years, Hyundai Hope On Wheels has donated \$277 million to pediatric cancer research. Hope is our greatest feature. And it comes standard on every Hyundai.
