About Us

We are the San Diego Board of Realtist for Democracy in Housing, also known as NAREB San Diego. Our primary objective is to foster economic advancement for our members, and the underserved communities we serve. Our mission is to bring together professionals involved in the various facets of the real estate industry, including brokerage, management, mortgage financing, appraising, land development, home building, and related fields, to collectively influence real estate interests.

Established in 2010, the mission of San Diego Board of Realtist for Democracy in Housing is to enhance business conditions and promote higher standards and better practices within our industry through community education and training. We are dedicated to supporting our community by promoting homeownership, providing education, advocating for fair housing legislation, and offering valuable resources and services.
