Highlights & General information

Victoria Falls is a mile long curtain of water that stretches across the glistening basalt rock, erupts into spray, and then thunders into the canyons below. The walls of basalt rock that capture the mighty Zambezi form one of the great river corridors of the world. This is the domain of the Nyaminyami, the River God of the Tonga people and is the 'highway' for the rafts. The gorge is over 100 meters deep at the Falls and increases to over 200 meters by the end of a full day raft trip. Despite this rugged terrain, the gorges below the Falls are thick with vegetation and incredibly spectacular.

Arguably the wildest white water in the world, rafting on the Zambezi River is an adrenaline rush not to be missed. The rapids on the Zambezi River are officially defined as "Grade 5" by the British Canoe Union (Grade 6 being commercially un-runnable). Clients should be reasonably fit for this activity, as there is a steep walk into and out of the Batoka Gorge as well as the white water rafting activity itself.

All guests will be collected from their respective hotels and taken to The Lookout Café for their briefing. Please bring your vouchers to check in. Do not bring valuables with you. Please leave all valuables, jewellery and passports at your hotel for safekeeping. We provide a safekeeping facility at check-in, where valuables can be left at your own risk.

What to Wear

- Swimsuit and shorts/cycling shorts but nothing that water will suck away.
- A way to secure glasses to yourself or they will be lost.
- T-shirt or long-sleeved shirt for sun protection.
- Sunscreen and lip balm (guides will have dry bag for this).
- Sturdy shoes/trainers or rafting shoes. Your shoes must be securely fitted to your feet (i.e. no flip-flops) or they will be lost.
- A peak cap that will fit comfortably under your helmet.
- Wet Suits will be provided in the winter months.
- Bring as little as possible.

Check-in at The Lookout Café

At the Lookout Café, clients will receive a comprehensive briefing. This includes check-in procedures, signing an indemnity, and a thorough safety briefing. From this vantage point, clients can admire Rapids #3 and #4, which offer a thrilling spectacle. Situated 120m above the tumultuous rapids of the Zambezi River, the Lookout Café commands a breathtaking view. It perches on the edge of the Batoka Gorge, just downstream from the iconic Victoria Falls Bridge, providing a stunning backdrop. Please note that the hike into and out of the gorge is steep and rugged. The return journey to the top of the gorge covers approximately 750 feet and requires a reasonable level of fitness. However, at the top of the gorge, guests can quench their thirst with cold beer, soft drinks, and water.
