About

GUMDROP

Gumdrop magazine is an intimate collection exploring modern, undefined feminine forms. Across three chapters and seven subjects, Gumdrop magazine unfolds through a series of emotionally expressive and layered, both in feeling and design, photographic shoots. Through thoughtful, raw images of authentic women, Gumdrop reveals the depth of the feminine experience. Femininity exists in both the candid and the posed; the angular and soft, and the familiar and unexpected. This project reveals that the feminine is not defined, but explored, expanded, and shaped by those who embody it.
