WE'RE DRIVEN TO KEEP YOU DRIVING

Wheeler Fit is a customer-focused provider of medium and heavy-duty aftermarket truck parts. With a focus on affordability, we provide a range of replacement parts that keep your trucks on the road and out of the repair shop. Our quality-tested parts have earned their reputation in the commercial industry, ensuring you can maintain and optimize your fleet without straining your budget.

Affordability

We prioritize cost-effective replacement parts to help you maintain your vehicles within budget.

Quality-Tested Parts

Our parts are known for their quality and reliability, ensuring your trucks stay on the road.

Customer Engagement

What sets us apart is our active engagement with customers. We collaborate closely with our customers to understand the challenges they face with subpar OEM or alternative aftermarket parts. Through this collaborative process, we develop tailored solutions that specifically address their unique needs.

Versatility

Our parts work within a wide range of budgets, accommodating the financial considerations of both owner-operators and large fleet operations. We understand that different customers have varying financial constraints, and our solutions are tailored to ensure that all customers can find the right parts to keep their vehicles operational.

Wheeler Fleet Solutions isn't just about delivering exceptional aftermarket parts; we're your dedicated partners in problem-solving. Whether you're an owner-operator or part of a large fleet operation, Wheeler Fit goes the extra mile to keep your vehicles moving.

BODY & CAB

When your fleet hits the highway, a well-maintained truck with no visible damage or wear presents a more professional and reputable image. Body repair is essential for your commercial truck fleet to maintain safety, compliance, save costs, and will have a higher resale value.

Wheeler Fit offers a comprehensive range of crash parts for various makes and models of trucks on the road. Our high-quality crash parts ensure that your fleet not only operates safely and efficiently but also looks its best. Whether you need replacement panels, mirrors, lights, or any other crash parts, Wheeler Fit is your partner in enhancing your commercial fleet's appearance and reputation.

- Headlights, Fog lights and Marker lights
- Front bumpers and Reinforcements
- Grilles and Grille Screens
- Side Fairings
- Door Handles
- Cab Extension panels

BRAKE COMPONENTS

Brakes are undeniably one of the most critical components in your truck, an area where you never want to compromise. That's why Wheeler Fit brake components are engineered to deliver superior braking performance and safety. With a focus on quality and reliability, we offer a comprehensive range of products for various light, medium, and heavy-duty applications.

We offer both hydraulic and air brake components options to ensure compatibility with numerous makes and models.

Wheeler Fit's aftermarket brake parts not only contribute to the longevity of your braking system, but also ensures the consistent functionality of your brakes, promoting safe and reliable stopping power on the road.

- Brake Shoes
- Camshafts
- Slack Adjusters
- Drums
- Brake Chambers

AIR SYSTEM COMPONENTS

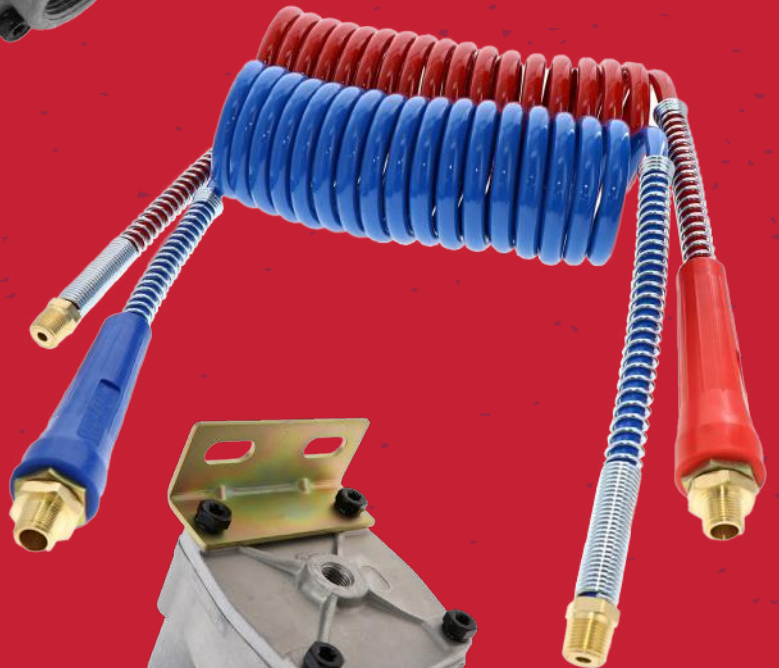

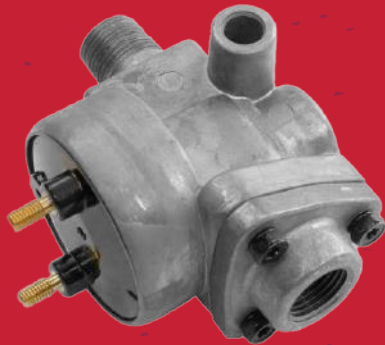

The air system is a lifeline for semi trucks, serving as a fundamental component for braking, suspension, transmission, tire management, and various accessories. Proper functioning is crucial for the safety, efficiency, and overall performance of these heavy-duty vehicles on the road.

Lack of maintenance can result in air leaks, increasing the risk of accidents. Braking problems, handling issues, or unexpected failures can compromise the safety of the driver, passengers, and other road users.

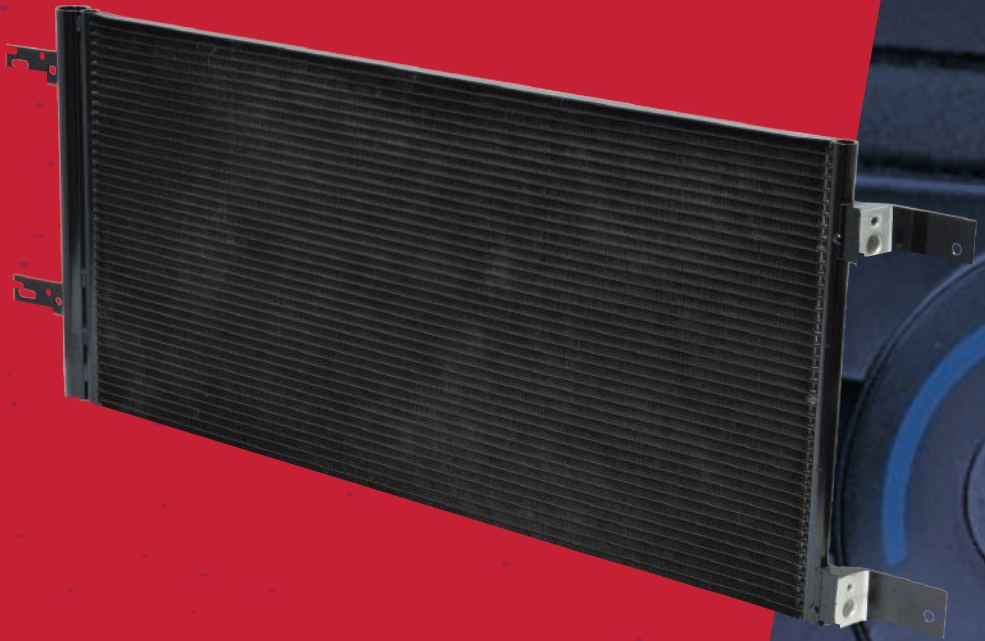

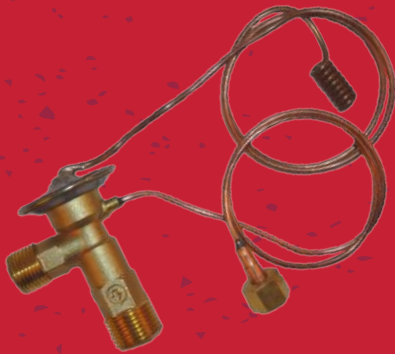

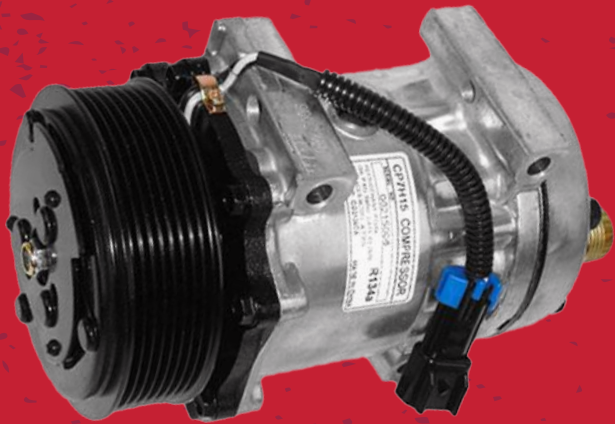

Stay proactive, stay safe. Wheeler Fit Air System parts are available to keep you, your fleet, and other motorists safe on the road.

- Governors
- Control Valves
- Brake Valves
- Relay Valves
- Coiled Air Hoses
- Hose Separators
- Tender Springs
- Pogo Sticks

A/C COMPONENTS

Long routes can be grueling, and the importance of a well-maintained A/C system cannot be overstated.

Whether navigating scorching deserts, traversing icy terrains, or enduring long-haul journeys, Wheeler Fit air conditioning components are designed to optimize comfort in the most challenging environments drivers face.

Wheeler Fit A/C components are engineered to withstand the rigors of varied climates and usage patterns. From advanced compressors ensuring efficient refrigerant compression to condensers and evaporators maximizing heat exchange, every part is thoughtfully designed. Wheeler Fit's commitment to optimizing comfort extends beyond temperature control - it encompasses minimizing noise levels and enhancing overall cabin air quality.

By investing in Wheeler Fit aftermarket, A/C parts, you ensure that your semi-truck's cooling system operates efficiently, minimizing the risk of engine damage and maintaining peak performance.

- Compressors
- Condensers
- Receiver Driers
- Expansion Valves
- Evaporators
- Accumulators

ENGINE COOLING

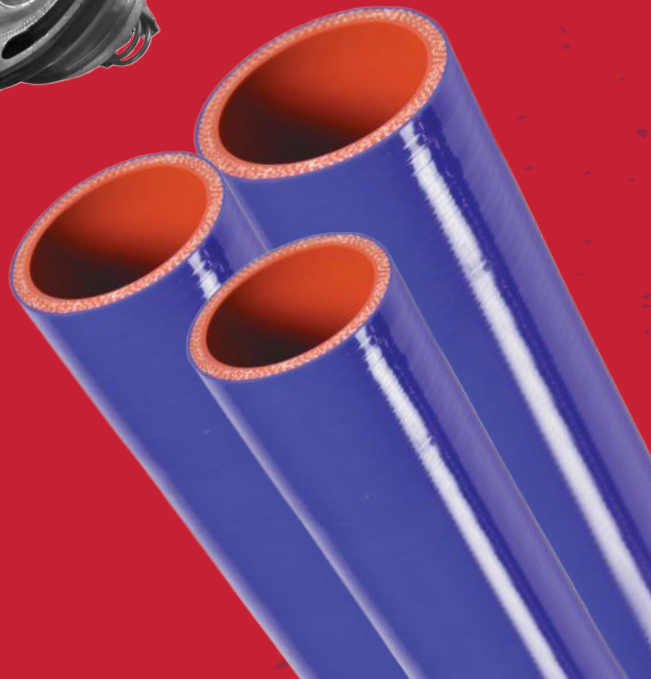

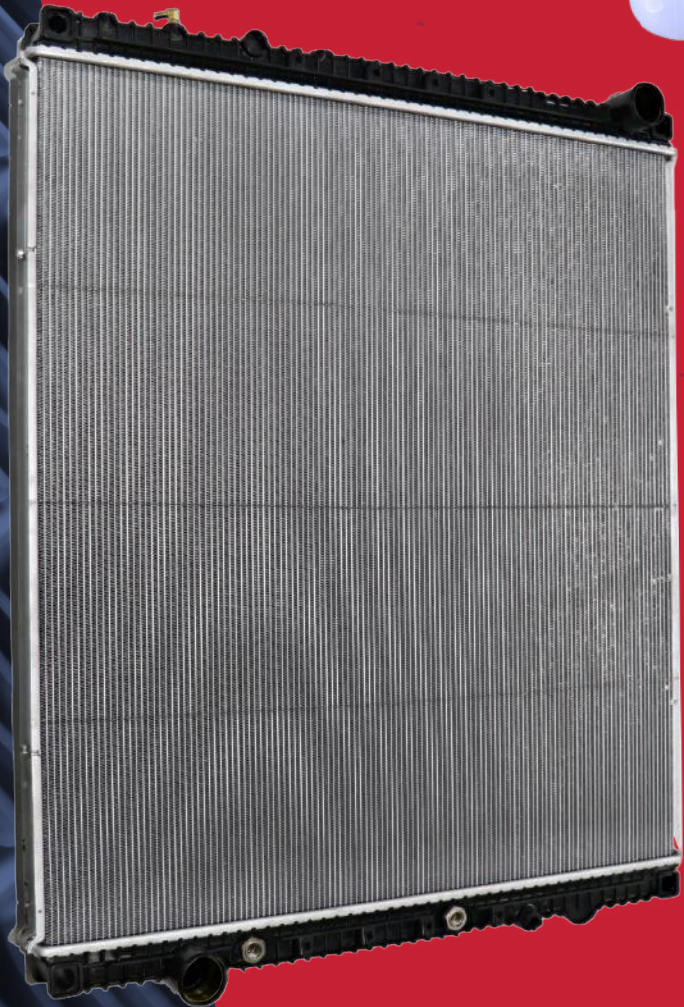

The engine cooling system is a critical component in the overall performance, longevity, and safety in all vehicles. A well-maintained engine cooling system is not merely a precaution; it is a proactive measure to ensure consistent performance and the risk of overheating. Overlooking the maintenance of this integral system may result in compromised fuel efficiency and, in extreme cases, engine failure.

Regular maintenance and the use of high-quality aftermarket cooling parts, such as Wheeler Fit's line of engine cooling parts, are key to ensuring the continued success and reliability of your truck or fleet.

Don't get stuck on the shoulder. Wheeler Fit aftermarket parts will keep your engine running smoothly, and steer clear of unnecessary setbacks.

- Radiators
- Thermostats
- Coolant Hoses & Clamps
- Heater Hoses
- Coolant Reservoirs
- Heater Hoses
- Water Pumps
- Surge Tanks
- Fan Shrouds

EXHAUST & EMISSIONS

A well maintained exhaust system on your truck is crucial for compliance with emissions regulations, ensuring you avoid costly fines. It also contributes provides enhanced fuel efficiency, reducing operational costs.

Wheeler Fit exhaust and emission parts are designed to improve overall truck performance while minimizing pollutants.

Choosing Wheeler Fit aftermarket exhaust and emissions parts is a strategic investment in maximizing your truck's performance and minimizing environmental impact on the road.

- Catalytic Converters
- Diesel Particulate Filters (DPF)
- Diesel Oxidation Catalysts (DOC)
- Exhaust Pipes
- Exhaust Bellows

ENGINE COMPONENTS

The engine is the heart of every vehicle. It's more than just a mechanical component; it's the force that keeps the entire system alive and in motion.

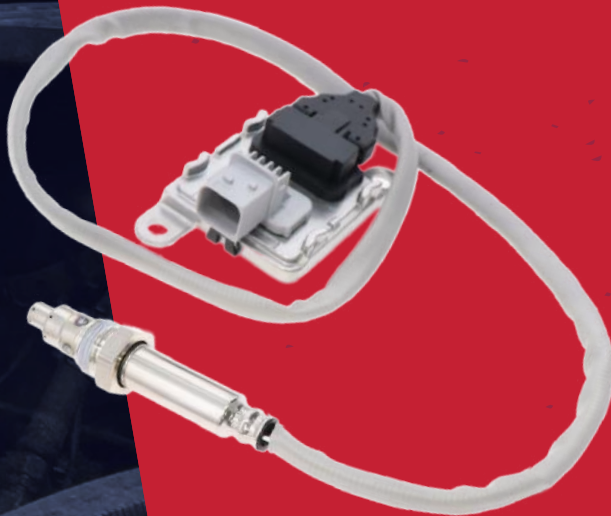

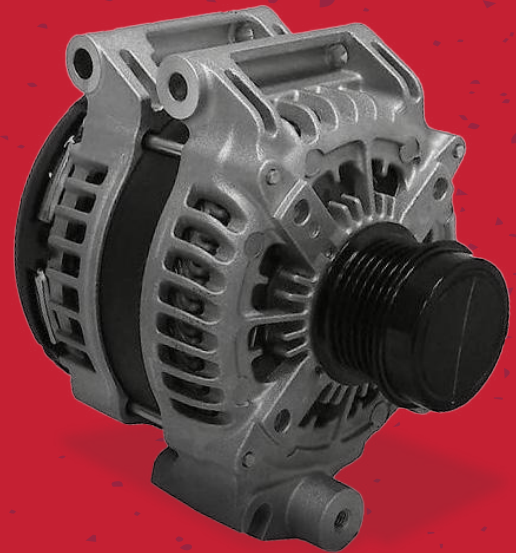

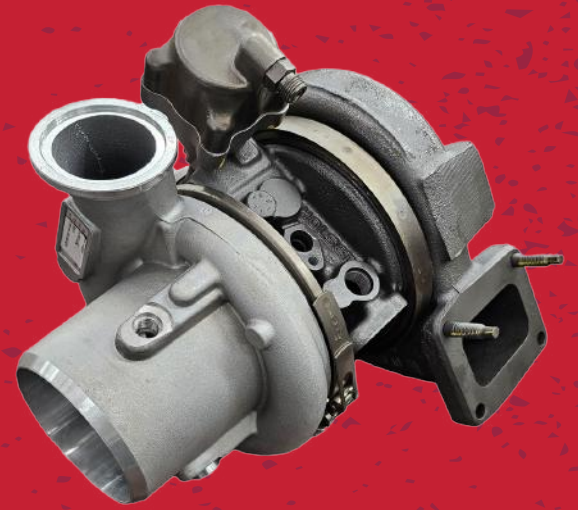

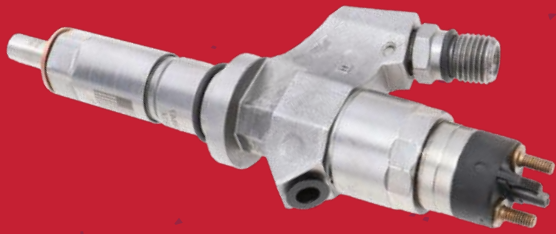

Heavy-duty trucks face rigorous conditions, and our parts are specifically engineered to endure the toughest challenges on the road. Our commitment to quality ensures that Wheeler Fit parts stand up to the demands of heavy-duty applications, providing longevity and dependability mile after mile.

Wheeler Fit engine parts ensure that the heart of every heavy-duty truck keeps beating strong, going the distance with power, efficiency, and unmatched performance.

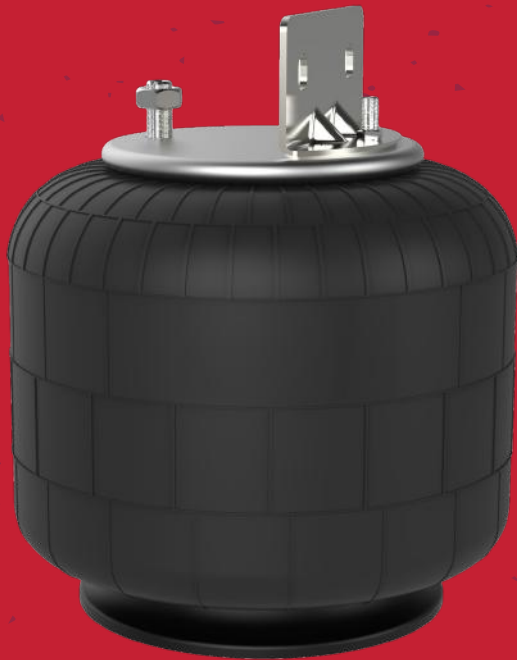

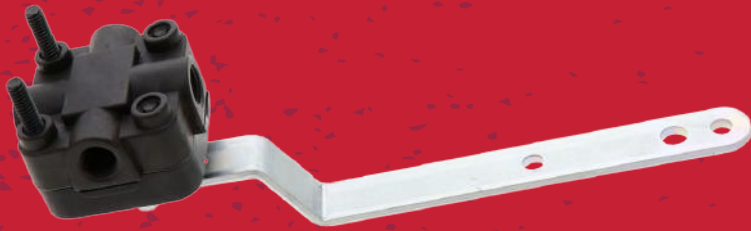

- Cylinder Heads
- Turbo Chargers & Actuators
- EGR Coolers
- NOx Sensors
- ABS Sensors
- Fuel Injectors
- Ignition Coils
- Alternators

SUSPENSION & WHEEL END

The suspension system plays a key role in maintaining the truck's stability and handling. Well-maintained suspension components contribute to better control, improved steering response, and enhanced overall stability on the road.

Routine maintenance helps identify and address issues before they escalate into costly repairs. This proactive approach can save operators both time and money by preventing major breakdowns and the need for extensive repairs.

Wheeler Fit aftermarket parts offer a reliable and cost-effective solution to ensure your trucks remain in peak condition on the road. By offering high-quality replacements for components like the centerlink, steering pump, idler arm, steering knuckle, shock absorber, strut set, leveling valves, and air spring, Wheeler Fit contributes to the safety, performance, and longevity of your truck or fleet.

- Air Springs
- Struts
- Shock Absorbers
- Leveling Valves
- Steering Knuckles
- Steering Pumps
- Idler Arms
