The Canada Billiard Story

Canada Billiard has a 50 year tradition of manufacturing superior billiard products. Their reputation has been built on crafting fine billiard furniture that is second to none. Each solid wood table is pre-assembled by master craftsmen in their state-of-the-art manufacturing facility in Laval, Quebec to ensure a perfect fit. Pieces are matched and numbered just like in the good old days. These tables aren't held together with staples and wood screws. Machine bolts and dowels are used for precise and solid assembly. All tables utilize a unique built-in levelling system that eliminates shimming the legs. Rails are fastened using nut plates, threaded rods and lock washers to ensure that the rails are fastened securely to the slate. This ultimate link between rail and slate minimizes vibrations and guarantees quiet, lively bounce back and playability. Professional "Masterspeed" rubber cushions provide true rebound and maximum accuracy. All tables conform to B.C.A. (Billiard Congress of America) specifications and come with a Lifetime Warranty.

What to Look for when Buying a Pool Table

Canadian-made Herrington Billiard and Canada Billiard tables provide unsurpassed value and exquisite styling. These 1" slate tables offer solid wood rails and a wide variety of styles from classic to contemporary. We carry sizes to fit your room with choices of 3' x 6', 3 1/2' x 7', 4' x 8', 4 1/2' x 9', 5' x 10' and 6' x 12' versions. Match any décor with a choice of 26 cloth colours and a vast variety of stain choices.

- 1. Solid Frame** – The frame supports over 600 lbs of slate so it must be heavy duty. We use a minimum of 1-5/8" thick base frame and assemble it with inserts and bolts (not wood screws) for lasting strength.
- 2. Secured Slate** - Slate is secured to the base frame with solid wood blocks.
- 3. 1 inch Slate** - Premium slate from the best quarries. Precision machined to within 10/1000 of an inch.
- 4. Solid Hardwood Rails** - Solid hardwood rails and aprons are bolted to the slate so they will always provide a lively bounce for every shot. The unique rail anchoring system uses steel plates embedded precisely in the solid hardwood to keep the rails secure and true.
- 5. Master Speed Cushions** - Cushions utilize professional "Master Speed" natural gum rubber for true rebound and maximum accuracy.

- 6. Exclusive Levelling System** – Herrington and Canada Billiard tables incorporate heavy steel levellers inserted into each leg with tapped bushings to allow levelling on almost any surface. This provides a clean look and a more stable table.
- 7. Superior Finish** – Finishes vary from High Pressure Laminates to designer finishes applied with numerous coats of hand rubbed stains and lacquers ensuring a peerless quality, and a durable and gorgeous furniture finish.

Yes...it fits!

Don't worry about getting a billiard table into your house. All F.G. Bradley's tables come totally disassembled to fit through any doorway or staircase in your home. Our Certified Billiard Mechanics will handle all the assembly for you and level the table to within 10/1000 of an inch of accuracy
