

Hillhead 2026

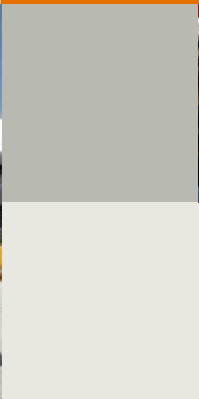

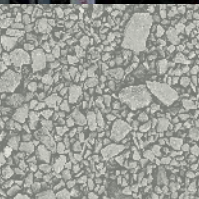

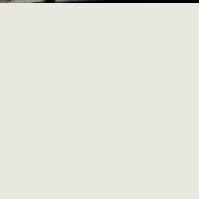

Quarrying,
Construction
& Recycling

23-25 June
Hillhead Quarry | Buxton
Derbyshire | UK

Exhibitor Information

hillhead.com

Hillhead is the world's largest working quarry event. Through it's 44-year history it has also grown into the UK's leading outdoor construction and recycling event.

The 2024 show delivered an impressive total of 19,560 unique visitors and 599 of the world's leading equipment manufacturers, suppliers and service providers, cementing its status as the premier industry event.

Looking forward to 2026, the show is set to remain at the forefront of the industry. Live demonstrations held across four dedicated areas will allow manufacturers and suppliers to showcase the very latest equipment in a real quarry environment. And with plans to enhance the demonstration viewing experience, visitors to the 2026 show will enjoy more timetabled events, curated content, and live commentaries across the site.

The newly extended Showground Pavilion and indoor food court was a great success and, with almost a third of all exhibitors now located in this area, it will continue to be a central hub and meeting place in 2026.

Exhibitors at Hillhead offer the full range of products and services for the industry, from crushers and excavators, all the way through to finance solutions and wear parts. All delivered to a dedicated audience of industry professionals and buyers.

The next edition of the iconic quarrying, construction and recycling exhibition will take place from 23-25 June 2026 at Hillhead Quarry, Buxton. We look forward to welcoming you.

Hillhead is one of our favourite shows to exhibit at, it has a unique and genuine proposition that is well respected within the industry.

Charlotte Walters
Air Spectrum Environmental

Sustainable Hillhead

We take our environmental responsibilities very seriously and have introduced several initiatives to make the exhibiting and visiting experience more sustainable.

At the 2024 show, over 280 exhibitors in the Showground and Registration Pavilion, as well as the Hillhead café and registration area were powered by Hydrotreated Vegetable Oil (HVO), a 100% renewable diesel. Swapping from fossil fuel to HVO generators reduced CO₂ emissions by 90%.

We have removed single-use plastics from the site, with our official caterers switching to eco-friendly options and exhibitors encouraged to follow this example. An increased number of visitors brought their own reusable water bottle and, following the success of the Hillhead hydration stations, we plan to increase the availability of free, chilled and filtered water at the next show.

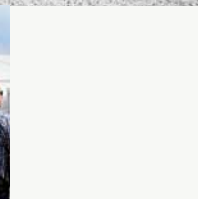

Recycling at the show remains a priority, with paper and cardboard, tin and aluminium, glass and food waste readily recycled across the site.

Other initiatives include among others sustainable paper and vegetable-based inks in our Show Guide; solar powered CCTV and lighting towers; and the promotion of lift-sharing to both visitors and exhibitors.

All our carpets and graphic panels are being given a second life and are reused, recycled or reprocessed after every show. Carpet is currently reprocessed into waste pipes, building materials and other carpet parts, and by 2026, it will all be fully recycled back into exhibition carpet.

Product Categories

Hillhead attracts hundreds of companies promoting a broad range of products and services, and it is not just about the 'big kit'.

Over 200 product categories will be on display including:

- | | |
|---|---|
| <u>Abrasion-resistant materials</u> | <u>Engines & transmissions</u> |
| <u>Ancillary site equipment</u> | <u>Generators, compressors & pumps</u> |
| <u>Asphalt production & paving</u> | <u>Health & safety equipment</u> |
| <u>Automation & control</u> | <u>Maintenance products & services</u> |
| <u>Buckets, breakers & attachments</u> | <u>Mobile plant</u> |
| <u>Bulk materials handling & storage</u> | <u>Mobile plant equipment & accessories</u> |
| <u>Computer software & systems</u> | <u>Organisations</u> |
| <u>Concrete plant & equipment</u> | <u>Plant hirers & contractors</u> |
| <u>Consultancy services</u> | <u>Quality control equipment</u> |
| <u>Crushing & grinding</u> | <u>Recycling equipment</u> |
| <u>Demolition tools & services</u> | <u>Sand processing</u> |
| <u>Design, installation & fabrication services</u> | <u>Screening equipment</u> |
| <u>Dredging equipment</u> | <u>Transport & logistics</u> |
| <u>Drilling & blasting</u> | <u>Weighing systems & equipment</u> |
| <u>Dust, noise & environmental equipment & services</u> | <u>Wheels & tyres</u> |
| <u>Electrical equipment & services</u> | |

Welcome to Hillhead

Registration Pavilion **1**

The Registration Pavilion is the only entrance and exit to the show and exhibitors here are guaranteed exposure to every single visitor. The Registration Pavilion houses over 100 exhibitors and stands can be either shell scheme or space only.

Exhibitor Entrance **2**

A dedicated exhibitor entrance provides fast-tracked access to the showground for stand staff at the beginning and end of each day.

Upper Showground 3

This is the first outdoor area visitors see as they exit the Registration Pavilion and make their way into the showground. Plots here range from 72m² to over 700m² and a number of stands in this area back directly on to the Registration Demonstration Area making them ideal for showcasing live products and equipment.

Registration Demonstration Area 4

Home to attachments, rock processing and recycling equipment, exhibitors surrounding this area have the opportunity to showcase their machinery working in a live quarry environment.

The 'Ramp' 5

Plots here range from 15m² to over 280m² and create a lively thoroughfare as visitors travel down the ramp to the quarry floor. Exhibiting here means you won't miss a single visitor as they make their way in and out of the show.

Showground Pavilion 5

Located in the centre of the showground and housing over 180 exhibitors, the Showground Pavilion is a hive of activity, providing a vibrant and diverse business-to-business environment. Stands here can be either shell scheme or space only

Recycling Demonstration Area 6

Crushing, screening, shredding and materials handling equipment dominate this area, and with multiple live demonstrations taking place throughout the open days it always draws big crowds.

Rock Processing Demonstration Area 7

Fondly referred to as 'Crusher Alley', this area draws visitors across to the western end of the site to watch the material extracted from the quarry face being processed by a host of machinery and equipment.

Quarry Face Demonstration Area 8

Taking centre stage is another of Hillhead's big attractions, the Quarry Face, which hosts a wide range of machines including excavators, shovels and dumptrucks. Operating across multiple benches, this area delivers three days of crowd-pleasing demonstrations.

Quarry Floor 9

With plots ranging from 72m² to over 2,500m², the exhibits on the main showground with their marquees, machines, flags and multi-tiered structures help create the distinctive Hillhead atmosphere.

Hillhead Café 10

Housed within the Showground Pavilion, the Hillhead café is at the heart of the show. With free Wi-Fi, and an outdoor seating terrace, it's the perfect place to stop and refuel while catching up on your e-mails.

Join us at Hillhead 2026 Become an Exhibitor

Stands at Hillhead are either outdoor on the quarry floor or inside one of the Pavilions.

All exhibitors receive the following as standard:

- ▶ An entry in the official Hillhead Show Guide which is distributed free of charge to show visitors. Includes your company name, stand number, 150-word profile and contact details.
- ▶ Inclusion on the Hillhead website exhibitor list.
- ▶ Unlimited exhibitor passes.
- ▶ Pre-show support in completing Health & Safety documentation.
- ▶ Access to the online Exhibitor Manual.
- ▶ E-Marketing pack including customer invitations, web banners, Hillhead logos and email signatures.
- ▶ Unlimited visitor invitations.
- ▶ Exhibitor car parking.
- ▶ Opportunity to submit press releases for inclusion on the Hillhead website.

Exhibitor Manual

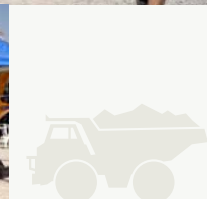

Our comprehensive online exhibitor manual is designed to guide you through all aspects of planning your stand and includes:

- ▶ Full details of your booking.
- ▶ Risk assessment guidance and templates.
- ▶ A supplier directory of everything from crane hire to floral displays.
- ▶ Useful downloads such as invitations, site maps and marketing tools.
- ▶ Online ordering of staff badges.
- ▶ Order forms for any extras such as furniture, Wi-Fi, electrics & catering.

Hillhead provided us with invaluable exposure and networking opportunities, and we are grateful for the platform it provided to connect with industry peers and potential clients. We believe that such events are crucial for fostering industry growth and innovation, and we are proud to have been a part of it. We look forward to continuing our partnership and contributing to future events.

Jan Keeley
Chain + Conveyor

Indoor Stand Prices

Hillhead has two large pavilions. Exhibitors wanting the convenience of an indoor stand can choose to be in either the Registration or the Showground Pavilion.

Both Pavilions offer a space only or shell scheme option. Stands are 3m or 4m deep with various frontages available; the smallest stand available is 9m².

A **weight limit** of 350kg per individual item applies within the Pavilions and exhibitors wishing to bring heavy exhibits should discuss their intentions with the Organisers.

A limited number of corner stands are available at a 5% premium.

The **Registration Pavilion** is the main visitor entrance and exit to the show. Exhibitors here are guaranteed exposure to every single visitor. The Registration Pavilion incorporates visitor registration and accommodates over 100 exhibitors.

The **Showground Pavilion** is located on the quarry floor and has space for over 180 exhibitors. There are a limited number of 6m deep stands available in the Showground Pavilion and exhibitors should contact the Organisers for availability.

Shell Scheme Package

£446.00 per m²

Package includes:

- Shell scheme measuring 2.4m high
- White Foamex panelled walling and aluminium frame
- Fascia panel with company name and stand number
- 1 fluorescent strip light
- 1 electrical socket
- Carpet

Space Only Package

£414.00 per m²

Space only stands do not include any additional services and exhibitors are responsible for arranging their own floor covering, electrical power and furnishings. Our space only exhibitors tend to employ an external stand builder and the Organisers can provide details of various contractors and give practical assistance to those wishing to create a bespoke stand.

All space only exhibitors are required to submit a stand plan and risk assessment for approval by the Organisers.

ATG and its various divisions have been exhibitors and sponsors at Hillhead for several years now. We have always found the Hillhead production team an absolute pleasure to work with, from early planning and participation at the event to the final takedown. The benefits of our involvement at Hillhead have included superb brand awareness, industry insights, and multiple contracts won. It is without doubt one of the highlights in our calendar of events, and we look forward to supporting and participating for many years to come.

Gary King
Marketing Director
ATG Global Sourcing

Outdoor Stand Prices

Outdoor Plots

£59.00 per m²

The majority of stand space at Hillhead is outside on the quarry floor. Standard plots are 12m deep with frontages starting from 6m. Smaller and larger plots may be available subject to availability. Companies wishing to take an outdoor stand should contact the Organisers to discuss their size requirements and to check availability.

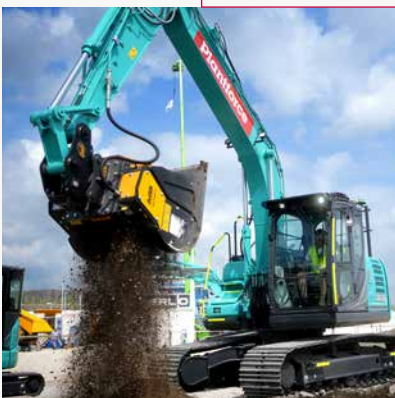

Outdoor plots do not include any additional services and exhibitors are responsible for arranging their own shelter, Wi-Fi, electrical power and furnishings. Upon booking, exhibitors will receive access to the Exhibitor Manual which includes details of contractors providing these services.

All outdoor exhibitors are required to submit a stand plan and risk assessment for approval by the Organisers. The Organisers are happy to provide assistance and guidance when completing these documents.

Hillhead was the busiest show we've ever done. The fact that visitors had to pass our stand in the Registration Pavilion at least twice during the day meant we had excellent footfall. Many visitors have opened accounts with us as a result of exhibiting at the show, most of which have made multiple purchases from us already.

Alan Street
Turbo Active

Demonstrate Your Products Live At Hillhead

There are four separate demonstration areas available and there is no cost to demonstrate for exhibiting companies unless special arrangements have to be made at the request of the exhibitor. All demonstrations will take place under the control and supervision of the Organisers and are operated in accordance with the Quarries Regulations.

— The **Quarry Face**. Multiple benches form an impressive amphitheatre where over 35 machines can work in tandem. Large excavators, wheel loaders, dumptrucks, dozers, hydraulic breakers, screening buckets and mist canons all operate in this area.

— **Rock processing** takes place in the ever-popular 'Crusher Alley', where a range of tracked and skid-mounted crushers, screens, scalping grids and stockpiling conveyors can be demonstrated by exhibitors.

— The **Recycling Area** at the south end of the site shows a range of specialist crushers, shredders, screens and materials handling equipment. Material imported on to the site for recycling demonstrations includes general construction and demolition waste, reject concrete blocks, waste asphalt and brick rubble.

— The **Registration Area** hosts the first live demonstrations that greet our visitors as they enter the show. The enclosed arena with adjacent static stands is the ideal place to demonstrate compact rock processing and handling equipment and attachments.

Those interested in demonstrating should contact the Event Manager, **Harvey Sugden**.

Becoming a sponsor is a great way to enhance your presence at the show. Our event sponsors benefit from increased exposure in the run-up to and during the event and we can help you get your firmly under the eyes of your target market.

Sponsorship Opportunities

We have numerous opportunities available to suit a range of budgets. If you are interested in these or any other opportunities, then please contact **David Fisher** on +44 (0) 115 865 8283 for full details and costs.

Opportunities include:

- Pavilion floor branding
- Car parks
- Hydration stations
- Hillhead Café
- Lanyards
- Visitor map
- Registration
- Restrooms
- Shuttle buses
- Viewing platforms
- Visitor bags
- Wi-Fi
- 'You are Here' boards

Advertise With Hillhead

As part of The QMJ Group, Quarry Management and Agg-Net are the official media partners for Hillhead and are the only ones with exclusive access to Hillhead visitor data.

Taking a stand is a fantastic opportunity to promote your brand, and many of our exhibitors choose to increase their exposure in the run-up to the show by taking advantage of our wide range of advertising opportunities. We have packages suit a variety of budgets and marketing objectives, take a look at the options below or contact **Kathryn Bardsley** to discuss your ideas on +44 (0) 115 945 4369 or by email kathryn.bardsley@qmj.co.uk

- Digital advertising on the Hillhead and Agg-Net website with a billboard, MPU, leaderboard and video positions available
- Print advertising in the official Hillhead Show Guide
- Dedicated Hillhead e-shots sent direct to 45,000 recipients
- Video features on HillheadTV
- Hillhead and Agg-Net sponsored e-newsletters
- Visitor bag inserts
- Entrance roadside banners

Show Marketing

The show is supported by key trade publications both in the UK and overseas which help us to deliver our extensive digital and print campaigns. Here are just some of the many marketing activities that exhibitors benefit from.

- ▶ Media partnership with Agg-Net, the leading digital route to market for the aggregates and recycling industries.
- ▶ Partnered with Quarry Management magazine, the official journal of the Institute of Quarrying.
- ▶ Email bulletins to an extensive database of Hillhead and Agg-Net subscribers.
- ▶ Dedicated e-shots and sponsored links through our promotional partners.
- ▶ Display advertisements on key industry platforms.
- ▶ Printed invitations featuring the full exhibitor list distributed by direct mail and inserted into industry publications.
- ▶ Advertisements and inserts placed with over 35 UK and overseas publications and digital platforms.
- ▶ A social media community of over 24,000 across Facebook, X, Instagram and LinkedIn, plus partnerships with industry influencers.
- ▶ Circulation of numerous press releases and editorial reviews to leading industry trade journals.

Press Attendance

Through the show's media partners Quarry Management and Agg-Net, national and international press representatives are provided with access to our dedicated online press portal and invited to attend and report on the show.

Hillhead exhibitors are welcome to submit press releases, press event information, and media packs for inclusion on the portal and will have access to an international press audience whilst exhibiting at the show.

Hillhead once again provided us with the ideal opportunity, in a great setting, to connect with people across the quarrying industry. The show is a great way to better understand the needs of quarry owners when it comes to traffic management and safety solutions in their sites. To showcase our latest innovations and receive such positive feedback, as well as gain new customers, ensures that the team are already eager to return in 2026.
