

4 YOU RANGE

VOX

# 4 You

Comfortable during the day and during the night, cozy when we're alone and hospitable when friends come to visit.

## A functional solution tailored to your needs.

Create new space and blend your bedroom with your living room. Thanks to the ingenuity of our designers, the bed from 4 You collection combines functions of many pieces of furniture and its aesthetics makes it fit into even the smallest spaces.

Complementing accessories enhance the character of the interior and also allow you to store various items.

# Who said a bed is only for sleeping?

Additional recesses on the sides of the bed and a convenient storage unit under the mattress allow you to use 100% of the area occupied by the bed.

# Family command center in a bedroom.

You don't need additional furniture to store your bedding – use the compartment behind the headboard.

Take advantage the convenience of connecting the parent's bed with a baby crib.

Enjoy your homely library, available at your at your fingertip, thanks to combination of a bookcase with a headboard.

Accessories of your choice, might be hung on a side ladder.

# Go to the cinema to watch a movie without leaving your bed.

A cinema room in your bedroom? It's possible with the 4 You collection: drop the curtains, put a projector on a bookshelf, make yourself comfortable – the show is ready to start!

Thanks to the bed's additional features, you can create relaxing atmosphere and ambience in your bedroom every day.

# Makes you want to remain seated.

This table supports your passions! A specially designed recess in the table's center and six drawers located between a double table top, make it easy to store and organize.

Fresh herbs or the opportunity to warming up meals encourage celebrating and cooking along with family and friends.

# Table of our times.

Large, modern table is much more than a place to have meals. It is a central area for meetings, work, study and play for a whole family. It cannot be replaced.

# A new table tailored to the dynamics of life at home.

Three table sizes.

In the central part of a table, there is a recess for herbs, tea lights or flowers.

Two-sided drawers give a choice of fronts' colors (white and oak).

Wooden legs and safe rounded corners.

# Capacity in size XXL

In our wardrobe none centimeter will not be wasted. To even enlarge its capacity you can add a side bookcase.

## It's more than wardrobe...

The wardrobe folding doors ensure full access to everything you store there and facilitates both organizing and sorting clothes. Additionally, you can equip your wardrobe with a variety of functional accessories.

A pull-out hanger and drawers make taking clothing out of the wardrobe even easier, and the folding doors facilitate opening and save space in a room.

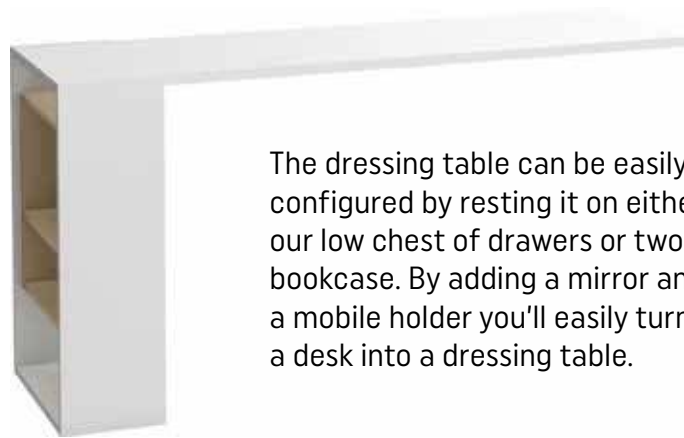

# A living room or a bedroom with a place to work.

A dressing table is a universal piece of furniture, which can also function as a workspace at home. It can be supported by either a low chest of drawers or a two-sided bookcase. A mirror and a holder perfectly complement the dressing table.

The 4 You collection contains a desk as well, with functional containers. The cover is a unique organiser, and turned upside down, it expands the desktop.

The dressing table can be easily configured by resting it on either our low chest of drawers or two-sided bookcase. By adding a mirror and a mobile holder you'll easily turn a desk into a dressing table.

Nothing will be  
the same ever.

Full freedom  
of choice.

Multipurpose boxes can be used as a part of the furniture, serving as storage for accessories, documents or jewellery. The same boxes may form an individual piece of furniture, if stacked and locked using special clamps. The way you need it.

Storage can be creative. Personalize your furniture by adding boxes.

Create your furniture using boxes of two sizes and available in three colors: oak, grey or marine.

Create your space as you want it. Find inspiration and practical solutions at: [voxfurniture.com](http://voxfurniture.com)
