Product Development & Manufacturing

At Adventa we manufacture in our own factory and stock products in our warehouses in the UK and USA, for fast delivery to your door.

"You make it so easy to add these products to my range - how do you do it?"

European Procurement Department Manager

We Manufacture

For your peace of mind we control the whole manufacturing process from the specification and procurement of bulk materials, through design, manufacture and quality control to dispatch.

- We have 24 hr lean manufacturing
- Are experienced with a range of materials such as glass, acrylic, board and MDF
- Use custom-built glue lines
- Operate 12 highly automated robot systems

All from our purpose built factory in Mid-Wales, which just saw an addition of a new state-of-the-art warehouse extension.

Increased storage capacity by 896 pallet spaces and has new dedicated canvas production area

Taking on feedback to improve our products

- Listen to feedback and enhance product further
- Print and bespoke products
- Excel at customer care

We have enthusiastic teams in both customer service and sales support departments with in-depth knowledge of your industry.

5

- Finalise product
- Start production
- Start marketing campaign
- Register designs & patents

Our purpose built factory in Mid-Wales with state-of-the-art machinery and automation uses 'lights out' manufacturing techniques to operate round the clock. This investment in technology enables us to compete in the global markets we increasingly serve.

We have a long list of patents and designs registered to protect the uniqueness of our range.

4

Involvement

Evaluation 2

Develop

- Build a model
- Test in market

When our designers are satisfied with the product on the screen, a 3D life-sized model is produced for further scrutiny. Only then, do they develop product drawings for manufacture or injection moulding.

1

- Analyse market and customer needs
- Discuss new ideas

The Adventa product development team are driven by a culture of innovation. We thrive on adapting to market changes and your needs.

We will strive to take your ideas quickly and efficiently from concept to completion

Idea Generation

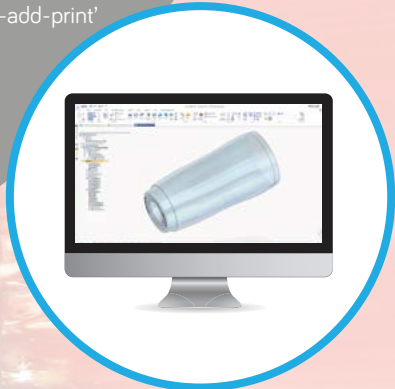

Evaluation 1

Development

- Concept testing - we visualise the finished product using our CAD/CAM software
- Return on Investment verification

Skilled and imaginative engineers and designers use the latest 'CAD/CAM' software to turn ideas and concepts into market leading products.

This steady stream of new products has become the hallmark of Adventa and resulted in the company becoming market leaders in instant 'just-add-print' products.

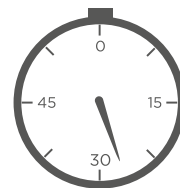

3

Our enthusiastic sales team then discuss the prototypes with our customers to ensure we have developed a product to suit all their needs and requirements and ultimately a product that will sell through!

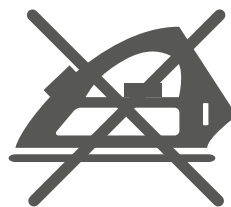

We Get Results

Our production means our products have these benefits...

From prints to product in seconds

One way to make more margin from print effortlessly!

No heatpress required

Safe – no more burnt fingers!
 Cost-effective – no expensive equipment, ideal for multiple installations. Quality – because the products use professional photo prints.

Unique patented products and registered designs

We design our own products to ensure they assemble easily and you get the quality you need. We are within the top 10 companies in Wales applying for registered designs and patents due to the uniqueness and quality of our products.

We also welcome challenges

So if you cannot find what you are looking for in this catalogue, please contact one of our sales staff who will be glad to help you achieve a solution to your needs.

Our Manufacturing Capabilities

For your peace of mind, we control the whole manufacturing process, from the specification and procurement of bulk materials, through design, manufacture and quality control to dispatch.

state-of-the-art machinery
ship to +30 countries

24 hour lean manufacturing

robots work +8000hr every year

In 2017 we manufactured over 5 million keyrings, over 2 million magnets and 150,000 baubles!

launched 1983

Over 400 quality product lines

Safety tested over 17 products in 2017

new warehouse has 896 pallet spaces

over 2.5 million of our best selling keyring made in 2017!

98.5% orders delivered on time

In peak time we use on average 35 miles of tape on the QuickPro Canvas in 3 days!

Imaginative and skilled designers

48 hours yearly dedicated to NPD meetings

credited ethical suppliers

We Care

We are committed to reducing our environmental impact and continually improving our environmental performance as an integral part of our business strategy and operating methods.

Products & Packaging

- Striving to reduce volume of waste per completed product. Retailed Bauble Packs have gone from 36 pieces of plastic to one already!
- Using responsibly sourced certified card and paper wherever possible
- Working with suppliers to ensure materials are ethically sourced, and environmentally friendly wherever possible
- Investing in research on plastic alternatives and recyclable plastic for future developments

Building

- Reducing kWh of electricity used per square metre through efficient use of machinery and motion sensitive LED lights

Office Supplies

- Reducing the number of single-use cups used per day
- Removing all laminated paper cups and replacing for personalised mugs for team members – saving over 700 cups being used in a year!
- Establishing a new recycling scheme where all paper in the office will be recycled

Global Service

A frictionless global logistics service supplying over 30 countries worldwide!

How
to...

Slot the clip into the smaller groove semi-circle upwards to create a stand.

Alternatively slot the clip into the longer groove and slot the other side of the clip into the longer groove of an additional frame to link them together.

Use the long groove to create portrait frames and the smaller groove for landscape frames.
