## VISION

In this rapidly evolving financial landscape, I manifest to position Chartered Accountants as Global Professionals and keep our profession ahead and relevant.

I also look forward to fostering collaboration among members in practice as well as in industry.

Through the above mentioned goals, I desire to help in nurturing and increasing opportunities for Chartered Accountants not only in India but also abroad and in Large as well as MSME Sectors.

## MISSION STATEMENT

As the financial world undergoes a seismic shift fuelled by AI, technology, and rapid globalisation, my mission is to elevate the profession by focusing on the core pillars that address the present needs and future ambitions of our members:

CA in Practice

CA in Industry

Senior CA

Young CA

Women CA

CA in Business

## IT'S NOT ABOUT IDEAS, IT'S ABOUT MAKING IDEAS HAPPEN

### CA in Practice

It is crucial to foster an environment that empowers our members to excel independently and ethically. I will advocate for enhanced auditor independence, address the challenges posed by tendering and work towards streamlining empanelment procedures.

My focus will also be on capacity building of the practitioners through strong social networks, specialised skills and pioneering cutting-edge technology for globally standardised services.

I also envision a rationalised Code of Ethics that would empower our members while preserving our professional integrity.

Lastly, I pledge to safeguard our members in practice from undue pressures, ensuring a balanced and supportive professional ecosystem.

### CA in Industry

My experience as a professional finds it important to create a robust ecosystem that empowers our fraternity as a whole. To align with my goal, the excellence of our Members in the industry is crucial.

As on today, Newly qualified CAs are empowered to an extent but when it comes to the members in their mid-career, the empowerment fades out. By working upon a Mid-Career Placement Program, I manifest to enrich our profession.

Licensing CFO Awards to recognise outstanding corporate leadership and industry-specific specialisation and research insights, I aim to drive professional growth, visibility and sector-focused expertise for our members.

Together, we will build a fraternity that champions career development, celebrates excellence and fosters knowledge-based specialisation in the global financial panorama.

## A CALL TO ACTION

In a world defined by change, let us be the leaders who embrace it. By focusing on AI-driven innovation, empowering MSMEs and start-ups, fostering inclusivity, and building capacity for the future, we will ensure that ICAI remains at the forefront of the financial profession.

Together, we can build a future where Chartered Accountants are not only custodians of financial integrity but also architects of economic growth and transformation.

### Senior CA

As we move forward, it is vital to honour the senior members of our profession, who laid the foundation upon which we stand today.

I also envision to introduce a specialised helpline number and work closely to introduce offline membership fees payment procedures.

### Women CA

Every third CA in Bharat is a woman. But, women professionals face several challenges in their career.

For a more developed Bharat, empowering our women members with a specialised portal and providing them with Work from Home facilities should be an agenda.

### Young CA

Over 57% CAs are young. As India's custodian, empowering and enriching our youth is vital.

I would work hand in hand for the professional development of our young members through advanced Campus Placement Program and career development mentorships.

### CA in Business

We should also work together to empower CAs who are also business owners, recognising their critical role in the development of Bharat.

By launching a dedicated portal, we aim to connect them with potential customers and service providers, thereby fostering meaningful growth.
