GLOBAL *Conference*

BANGKOK

16 - 17 MARCH

2026

Editor's Note

m

I am currently in Bangkok, well ahead of our next Global Conference which will be held on the 16th & 17th of March. We have over 130 attendees confirmed so if you haven't signed up please do so within the next two days, **registration will be closed on Saturday the 28th of February.** If you have any questions about attending the conference please email [Heidi](#).

I am happy to report that the latest version of the Cross Ocean [Mobile App](#) now includes an update timestamp and a manual update button.

In network news we share member movements related to: Argentina, China - Europe, India - South Africa, India - Indonesia, Angola, UAE, Zambia, Slovenia, Portugal, SE Asia - Middle East, South Korea - Seychelles, Pakistan, China, China - Malaysia, Germany - Sweden, Brazil, Netherlands - Ukraine, and Egypt. We are also happy to announce new members representing Saudi Arabia, Spain, and India (Mumbai), plus our Hon. Chairman meeting with members in Chile.

Also note the intensive week of online one-to-one meetings we have scheduled for the Week of the 20th - 24th of April, see page three of this newsletter for more details and email [Heidi](#) to sign up.

Registration will close soon for our next Global Conference, sign up if you haven't already!

The standard rooms at the Waldorf Astoria Bangkok - are now fully booked. Fortunately, there are many excellent hotels nearby — some just 150 meters away. Please see [this list of nearby hotels](#) sorted by distance from the venue.

The conference fee of 970 USD includes welcome drinks, 2 days of one-to-one meetings, coffee/snack breaks, lunches and a dinner.

REGISTER FOR THE NEXT GLOBAL CONFERENCE

Six Overseas Completed a Complex Steel Discharge at Leixões Using Shore Cranes

The operation was executed under a controlled plan with clear alignment across vessel, terminal and stevedoring teams, prioritising safety, stability of lifts and uninterrupted operational flow.

The discharge was carried out using shore cranes with spreader beams and slings, favouring vertical lifts and stable handling to minimise movement and protect the cargo throughout the lifting sequence. During the voyage, periods of strong winds required an additional safety measure: the ship's crew removed outer plastic sheets from the tops and sides of the units to avoid hazards on deck and prevent plastic loss to the marine environment. The removed material was collected and stowed in the hold, maintaining a clean and controlled working area.

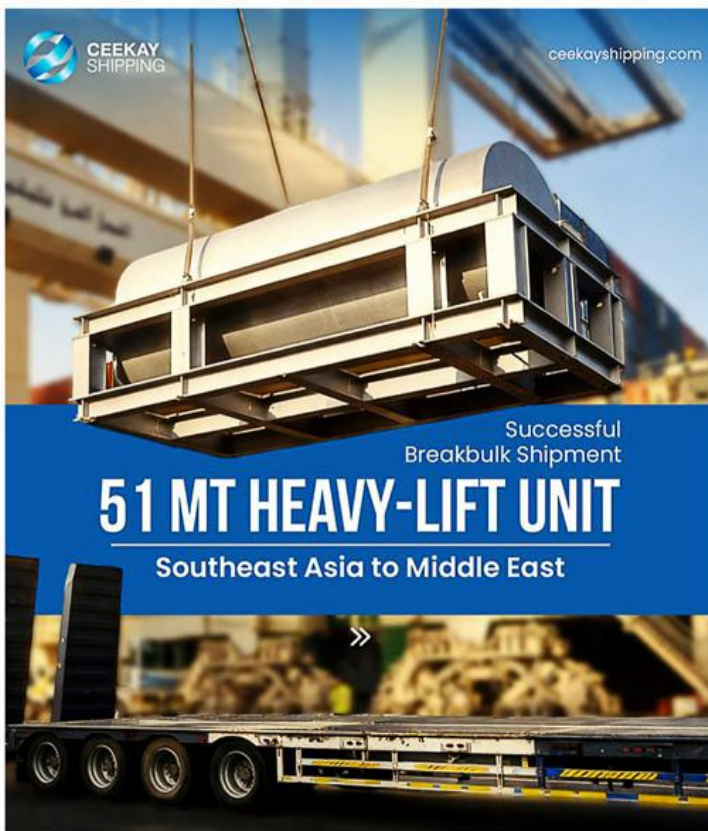

As part of operational close-out, a limited verification on selected units confirmed that the cargo remained protected by five tightly applied plastic layers and that, in the inspected areas, there was no evidence of water or humidity ingress. Additional openings were intentionally avoided to prevent unnecessary exposure after arrival and to reduce the risk of post-handling corrosion marks.

Star Shipping Pakistan Handled Discharging onto Hydraulic Trailer via Heavy Duty Crawler Cranes at Karachi Port

Star Shipping's heavy-lift team successfully handled the discharging operations of an abnormal size cargo package at Karachi Port, weighing 60+ mt with extra-ordinary length beyond 24meters long. The said package arrived via carrier vessel "Bohwa Amoy" on January 12, 2026, hence the handling cranes remained available in assembled position besides the nominated cargo berth prior to the arrival of the cargo to avoid any project delay. Upon the arrival of the vessel and grant of cargo discharge permission of both cranes capacities 150+ mt each performed the cargo discharging task efficiently and directly delivered the freight on trailer as required.
