EXCEPTIONAL SERVICE

Our skilled service technicians are always ready to assist with installation, repairs, and preventative maintenance - **anytime, anywhere.**

Our goal is to fulfill our customers' requirements quickly and consistently with as little down-time as possible.

A scheduled site survey is done prior to any asphalt equipment installation. This ensures we are providing the proper equipment for your plant requirements.

We ensure that our services are accessible whenever and wherever you require them, without fail.

Smart doesn't have to be complex. For decades, our family-owned company has relied on a simple formula for success: **innovation + quality + reliability.** Just like all of our formulas, customers can count on it.

ASPHALT PRODUCTS

Brody Chemical is proud to manufacture and distribute top-quality asphalt release agents, drag slat lubricants, paving products, equipment cleaners, and shop chemicals. Our commitment to excellence is evident in our state DOT-approved and AASHTO-tested and listed products.

We don't just stop at providing premium formulas, our dedicated service technicians are on-call and visit on-site. Plus, with our in-house manufacturing capabilities, we offer automated spray equipment with fast turnaround times.

ASPHALT RELEASE AGENTS

SLIDE OUT ASPHALT RELEASE

2994

Biodegradable, oil based, asphalt release agent for polymer modified asphalt mix!

Slide Out is the worlds best asphalt release! The perfect solution for releasing all types of asphalt from your truck beds. May also be used for asphalt tools, steel rollers and other applications. This product is a blend of biodegradable oils that is designed to work under high-heat applications and long-hauls. This is your answer for extremely sticky, tacky, polymer-modified mixes. Available in a winter blend formula **2994WB**

TOP SHELF ASPHALT RELEASE

6900

DOT approved and AASHTO tested premium release agent!

Top Shelf is a water soluble, premium asphalt release agent specifically formulated for use on high-polymer mixes and can be diluted with water for effective use on standard asphalt mix. State DOT approved and AASHTO tested and listed as an asphalt release agent for use in truck beds and on hot mix asphalt equipment and tools. The perfect product for a drive-thru spray system. Contains no petroleum solvents. Non-hazardous, non-corrosive, non-DOT regulated, and high flash point. Perfect for cold temperature climates with a freezing point of -9F. The perfect product when only the best will do.

DRAG SLAT LUBRICANT

DRAG SLAT LUBRICANT

2997

Keep your employees safe! Non-flammable, extremely effective lubricant and cleaner!

Drag Slat Lubricant is a highly effective slat cleaner and lubricant designed to promote longer chain life as well as reduce maintenance costs. This product provides a non-stick barrier to prevent asphalt build-up which will reduce costly down time and operational delays. Non-flammable, biodegradable and eco-friendly. Customized drag slat spray systems available.

PAVING PRODUCTS

ASPHALT ROLLER & RUBBER TIRE RELEASE

3050

Extremely effective oil based product for pneumatic tires and rollers!

This asphalt roller and rubber tire release acts as a lubricating barrier between the tires of a pneumatic roller and the asphalt mat. This barrier prevents petroleum based asphalt from sticking to the tires. Can be used on steel rollers and any other type of equipment used on the paving site. Great for all equipment and tools including pavers, shovels, and rakes.

ASPHALT ROLLER RELEASE ADDITIVE

3000

Keeps the asphalt from sticking to your steel rollers!

Formulated with 100% active surfactants, Asphalt Roller Release Additive is highly-concentrated and produces a slippery foam barrier that prevents asphalt from sticking to the roller when added to the roller compactor tank.

TAR BARRIER

2603

TAR BARRIER SUPER

2603S

The solution for hot-melt crack and joint sealant repair protection!

Tar Barrier is an all-natural, biodegradable, non-toxic formula designed to prevent tracking and picking up of freshly applied crack and joint sealant. Don't let down time hold you back from a fast fix. With Tar Barrier, you can get back to business as usual with no interruptions. This high-performance product takes just one person to apply and creates a protective barrier that prevents fresh sealant repairs from picking up and tracking. Available in super and regular strength.

WATERLESS HAND CLEANER TUBES 2896-T

There is no finer or higher quality product on the market today!

Our Waterless Hand Cleaner is a premium formula designed to remove asphalt and sealcoat without harsh acids or alkalies. Works equally well with or without rinsing with water. You'll be amazed with how your hands look and feel after use. Clean, conditioned, and without the greasy feeling associated with most hand cleaners. 12 tubes to a case for use on the paving site.

ASPHALT REMOVERS

ASPHALT ASSASSIN 5093

The most powerful citrus asphalt and tar remover on the market today!

Heavy-duty, biodegradable oil blend specifically formulated to effectively break down and dissolve asphalt residues. This eco-friendly cleaner harnesses the natural power of plant-based oils, ensuring a potent yet environmentally responsible performance. Enhanced with a 15% infusion of citrus oil, it accelerates the removal process, making it ideal for tackling even the most stubborn asphalt accumulations.

ORANGE SOLVENT 4028

The most powerful citrus asphalt and tar remover on the market today!

Orange Solvent is an excellent organic, non-petroleum cleaner, degreaser, and deodorizer. It is completely biodegradable and environmentally friendly. Dissolves asphalt and tar on contact. No manual scrubbing required. Great citrus scent. Easy-to-use. Non-flammable and non-toxic! Excellent for all types of paving equipment, trucks, and tools. Also available in an aerosol [BA191-1](#)

TAR ATTACK CITRUS 5090 **TAR ATTACK CITRUS SUPER** 5090S

Thicker viscosity and an added punch of D-Limonene melts asphalt and tar on contact!

Tar Attack Citrus, in Regular and Super strength, is an excellent organic, non-petroleum cleaner, degreaser, and deodorizer. It is completely biodegradable and environmentally friendly. 100% active with no water added. Dissolves asphalt and tar on contact. No manual scrubbing required. Great citrus scent. Easy-to-use. Non-flammable and non-toxic! Syrup like consistency helps cling to vertical surfaces without dripping.

TAR ATTACK PINE 5090

Pine solvent replaces costly citrus solvent!

Tar Attack Pine is an excellent organic, non-petroleum cleaner, degreaser, and deodorizer. It is completely biodegradable and environmentally friendly. 100% active with no water added. Dissolves asphalt and tar on contact. No manual scrubbing required. Great pine scent. Easy-to-use. Non-flammable and non-toxic! Syrup like consistency helps cling to vertical surfaces without dripping.

PINE SOLVENT 4038

Pine solvent replaces costly citrus solvent!

Powerful, natural degreasers are specifically blended to out-perform the conventional hazardous solvent degreasers. This tar remover instantly emulsifies tars and asphalts, grease, oils, and fats without the use of harsh acids, alkalies, or petroleum solvents. This pine formula dissolves thick coats of tar and asphalt from heavy equipment and vehicles and shop floors. This formulation contains a strong natural pine solvent.

ASPHALT EATER 5094

Biodegradable, economical asphalt remover that clings to vertical surfaces!

A heavy-duty, biodegradable oil blend specifically formulated to effectively break down and dissolve asphalt residues. This eco-friendly cleaner harnesses the natural power of plant-based oils, ensuring a potent yet environmentally responsible performance. Great for soaking shovels and tools. Optimized to keep asphalt from sticking to equipment if used as a pre-treat.

ELECTRIC HANDHELD SPRAY SYSTEM

BE1100-TL

- Draws from concentrated product
- Can be diluted with water
- A metering manifold to fine tune the dilution ratios can be included
- Adjustable On/Off timers to prevent overuse
- Built with a heavy duty pump and motor
- Includes Stainless Steel nozzles for easy cleaning and durability
- UV and chemical resistant hoses ensure a longer life span
- Cabinet enclosure protects your equipment from the outside elements
- Pressurized water source or water holding tank can be used with this pump

DRAG SLAT LUBRICANT SPRAY SYSTEM

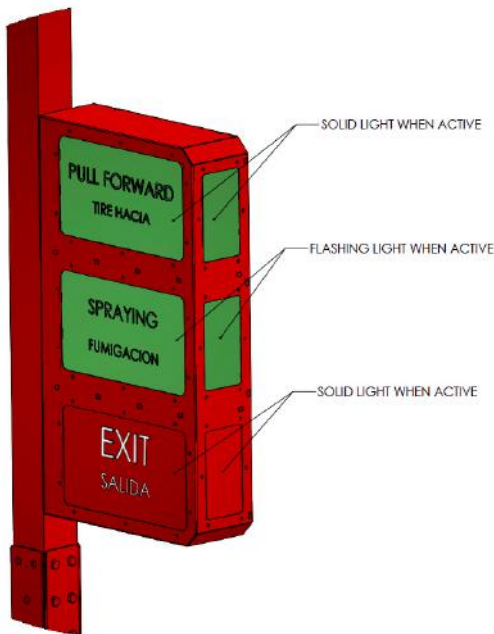

BE1150

- Drag slat spray system prevents failure and keeps your plant running efficiently
- Keeps your drag slat clean and reduces wear and tear, prevents build-up, and reduces your amp usage
- Reduces the life-cycle costs and maintenance resulting from build-up in the conveyor system
- 100% effectively removes asphalt and tar build-up throughout the drag slat
- Helps to lubricate moving parts in the drag chain and drive sprockets
- Provides a non-stick barrier that lasts longer than diesel
- Spray applications at the top and bottom of your drag
- Customizable with spray bars, nozzles, and/or a wand
- Built with a heavy duty pump
- Includes Stainless Steel nozzles for easy cleaning and durability
- UV and chemical resistant hoses ensure a longer life span
- Cabinet enclosure protects your equipment from the outside elements

DRIVE THRU ASPHALT SPRAY ARCH

Keep your drivers in their trucks moving quickly with no stopping to spray
Easy to install, easy to maintain, less downtime, less headaches.

- Heavy-duty base plate for high wind locations may be ordered
- Bolted solution available for concrete pad
- Pressurized water source can be used with attached water tank.
- Stand alone water tanks can be gravity fed to pump
- Proximity sensor technology to allow for all different types of truck sizes
- Quick release tubing allows for quick disconnect on spray nozzle
- Instructional light panel mounted to arch, visible on both sides for drivers
- Metering manifold is used to fine tune dilution ratios
- Customized PLC programming for tandem truck beds.
- Built with an all-in-one heavy duty pump and motor.
- Stainless Steel nozzles for easy cleaning and durability with a rectangular spray pattern to prevent overspray on truck.
- UV and chemical resistant hoses ensure a longer life span
- Cabinet enclosure protects your equipment from the outside elements
- Light beacon alerts drivers of the status of the equipment. Ready/ Spraying/ Exit
- Easy installation and operator manual included

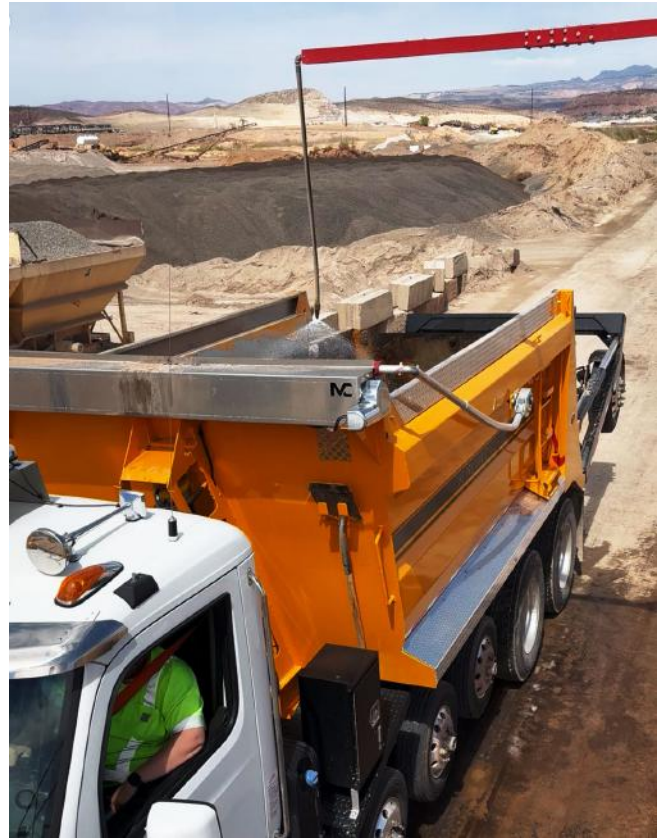

- Solid green for Ready
- Flashing green for Spraying
- Solid Red for Exit/Do Not Back Up

STATE-OF-THE-ART

Brody's Drive-Thru Asphalt Release Spray System stands as the **industry's leading solution**, featuring a **premier mechanical design** and **advanced technology**. This spray system has been rigorously tested and proven in the asphalt industry, making it the top choice for reliable performance.

Our technology team collaborated with a top-tier mechanical engineering and design firm to develop a drive-thru spray system that is **rugged, durable, wind-resistant, and built for high-performance**. Designed with both **quality and usability** in mind, it offers easy operation, straightforward maintenance, and **quick installation and troubleshooting**.

No expense was spared in crafting this state-of-the-art spray system, ensuring it delivers **industry-leading reliability and efficiency**.

This asphalt release spray system is compatible with our DOT-approved asphalt release agent, **Top Shelf**, as well as our high-performance oil-blend, **Slide Out**.

Our goal is to get you up and running with an **installation time of under three hours**. Every part can be swapped out and replaced in less than 10 minutes.

Purchase, lease-to-own, and consignment options are available for large customers.
