# Sustainability.

TripleTwoNine is purposefully designed to promote sustainability and deliver long-term value, operational efficiency and workplace wellbeing for forward-thinking tenants.

Sustainability is embedded into every layer of the estate's design and delivery. Backed by Aliro's commitment to delivering positive property outcomes, TripleTwoNine supports both environmental responsibility and operational performance, creating spaces where businesses and people thrive together.

We are proud to be targeting a 5-Star Green Star Communities rating by the Green Building Council of Australia, a nationally recognised certification that reflects excellence in sustainability, liveability and resilience at a precinct scale.

Each new building in the estate is also targeting a 4-Star Green Star Buildings rating, ensuring your workspace is energy-efficient, water-smart, and supports the health and wellbeing of occupants.

## TripleTwoNine will feature:

### Energy & water monitoring

Systems track and optimise energy use across tenancies to reduce environmental impact and operational costs.

### Solar PV systems

Harness solar energy to power parts of the estate and support a lower carbon footprint.

### Rainwater capture and re-use

Collected rainwater is reused for landscaping and amenities to conserve precious resources.

### EV charging infrastructure

Onsite electric vehicle charging stations support greener transport choices.

### Integrated walking and bike paths

Native plantings and green zones enhance biodiversity and offer inviting outdoor areas for staff and visitors.

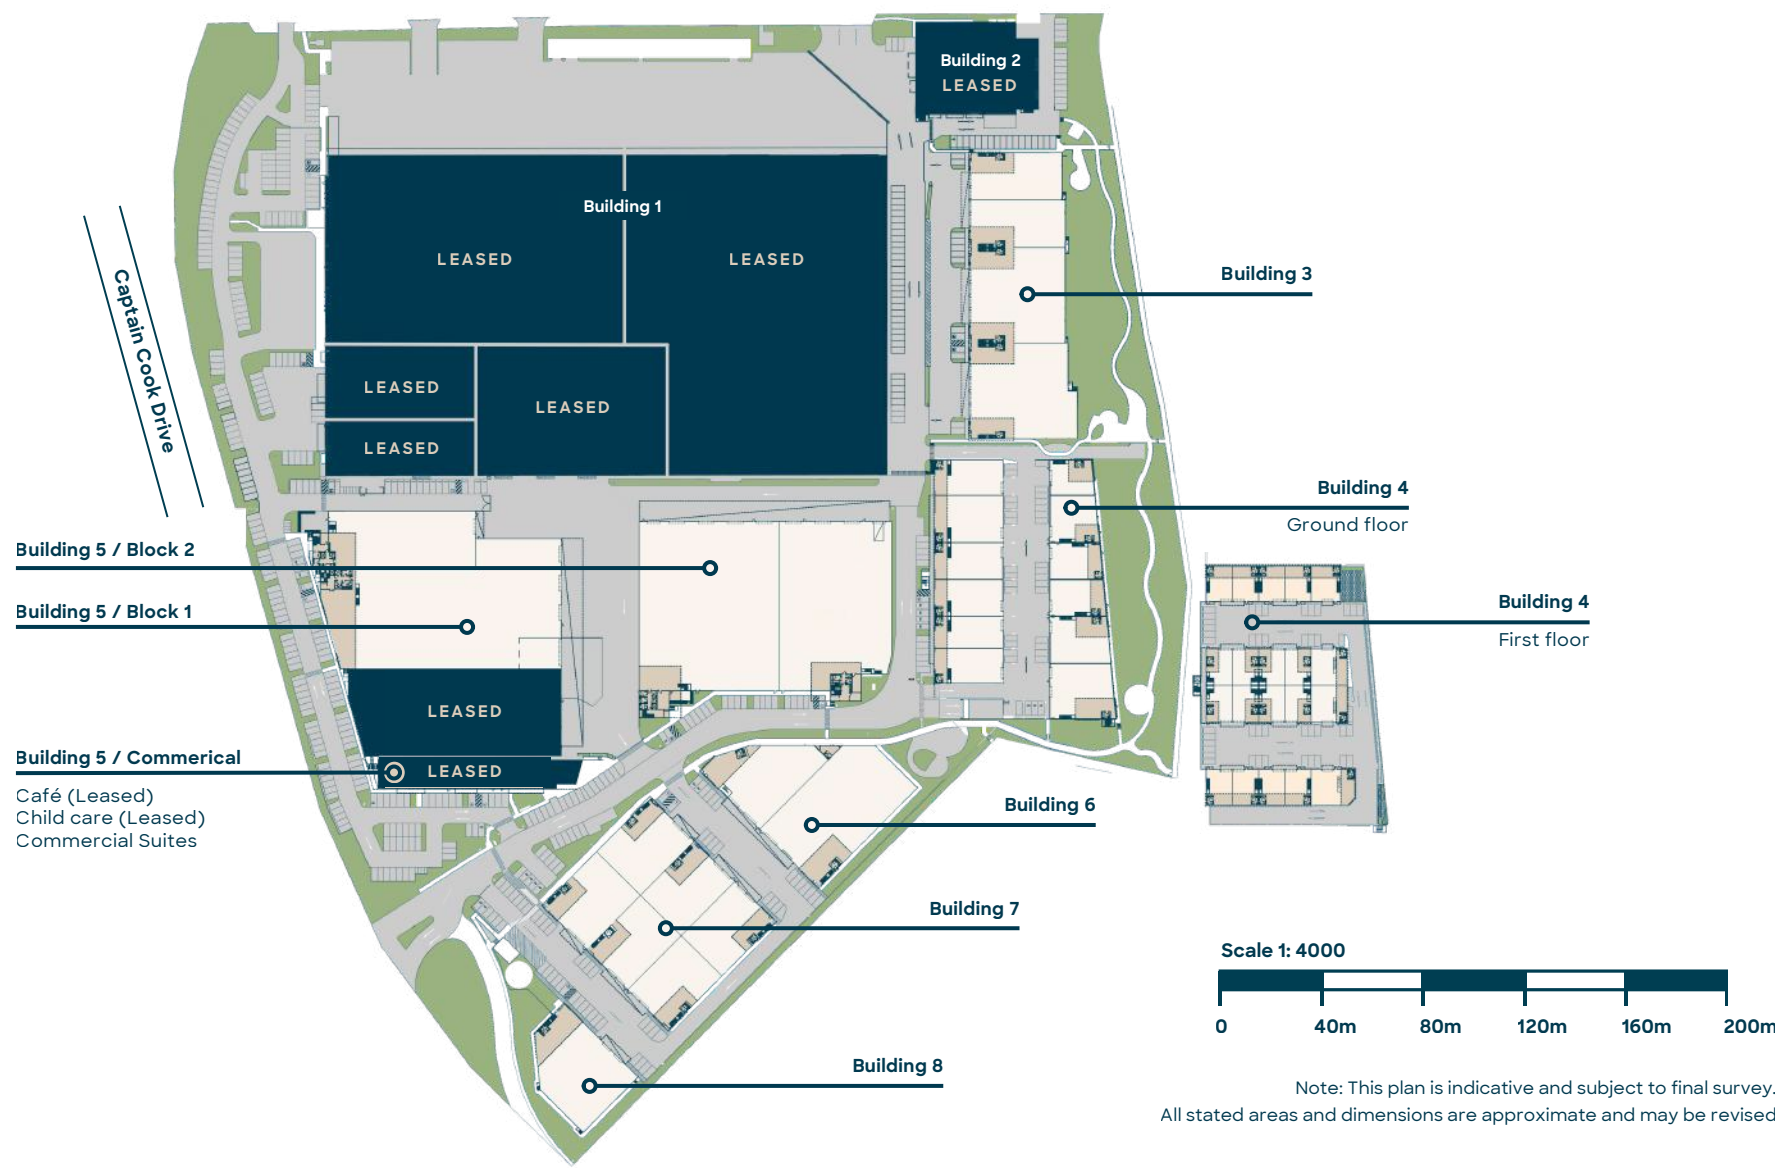

### Open green space and native landscaping

Encouraging active commuting and wellness, with well-connected pedestrian and cycle links throughout the estate.

# TripleTwoNine Master Estate Plan

# Building 3 overview

**Building 3** offers flexible tenancies from approximately 797sqm, designed to suit a variety of industrial and logistics requirements.
