ZAHO®
LIGHTING

Liralighting Group is a renowned manufacturer and supplier of modern lighting solutions, specializing in projects for the hospitality industry. Our lighting systems combine innovative design, energy-efficient technologies, and the highest quality craftsmanship to create unique and functional spaces in hotels around the world.

We collaborate with investors, architects, and hotel operators, offering comprehensive support—from concept and design to implementation. We understand how important lighting is in creating atmosphere and guest comfort, which is why we deliver solutions tailored to the specific needs and character of each property.

We offer both interior and exterior lighting, ensuring a cohesive and impressive look throughout the entire hotel. Our products stand out not only for their aesthetics but also for their durability and efficiency, which translates into operational savings and sustainable development. We carry out both standard projects and fully customized solutions tailored to the individual requirements of investors.

With years of experience and advanced technology, Liralighting Group is a trusted partner for any hotel seeking to stand out in the market. We create light that inspires, emphasizing the prestige and uniqueness of hotel spaces.

Bero SD

Hotel Indigo Kraków, Poland

Hotel Indigo Kraków – Old Town is an elegant boutique hotel located in a restored 19th-century townhouse in the heart of Kraków. The interiors seamlessly blend original historical details with modern design inspired by local culture and art. The hotel offers 56 individually designed rooms, a restaurant, bar, and wellness area. The lighting solutions we provided highlight the unique interior architecture, creating a cozy and atmospheric ambiance. The entire space forms a cohesive environment that delights with both comfort and aesthetics.

Cumulus City & Resort Helsinki, Finland

Cumulus City & Resort is a modern property located in Helsinki, the capital of Finland—a country renowned for its raw natural beauty. The hotel underwent a major renovation, including the reception area, restaurant, saunas, and modern conference rooms, now forming one of the best-equipped conference facilities in the country. The comfortable interiors combine Scandinavian functionality with a cozy atmosphere. For this project, we supplied around 2,500 projectors, aimed at highlighting the modern architecture and creating cohesive, well-designed lighting throughout every area of the hotel.

Sheraton Sopot Hotel Sopot, Poland

Sheraton Sopot Hotel is an elegant five-star property located right by the beach and the famous pier, offering stunning views of the Gdańsk Bay. The hotel stands out for its extensive conference facilities and wellness area, blending modernity with a coastal character. As part of the project, we delivered bespoke lighting solutions individually tailored to the prestigious interiors of the hotel. The selected luminaires emphasize the elegance of the spaces while ensuring functionality and user comfort.

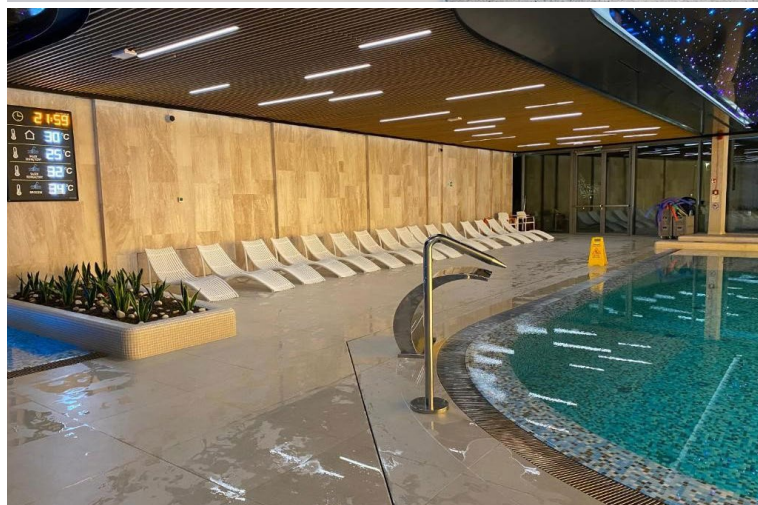

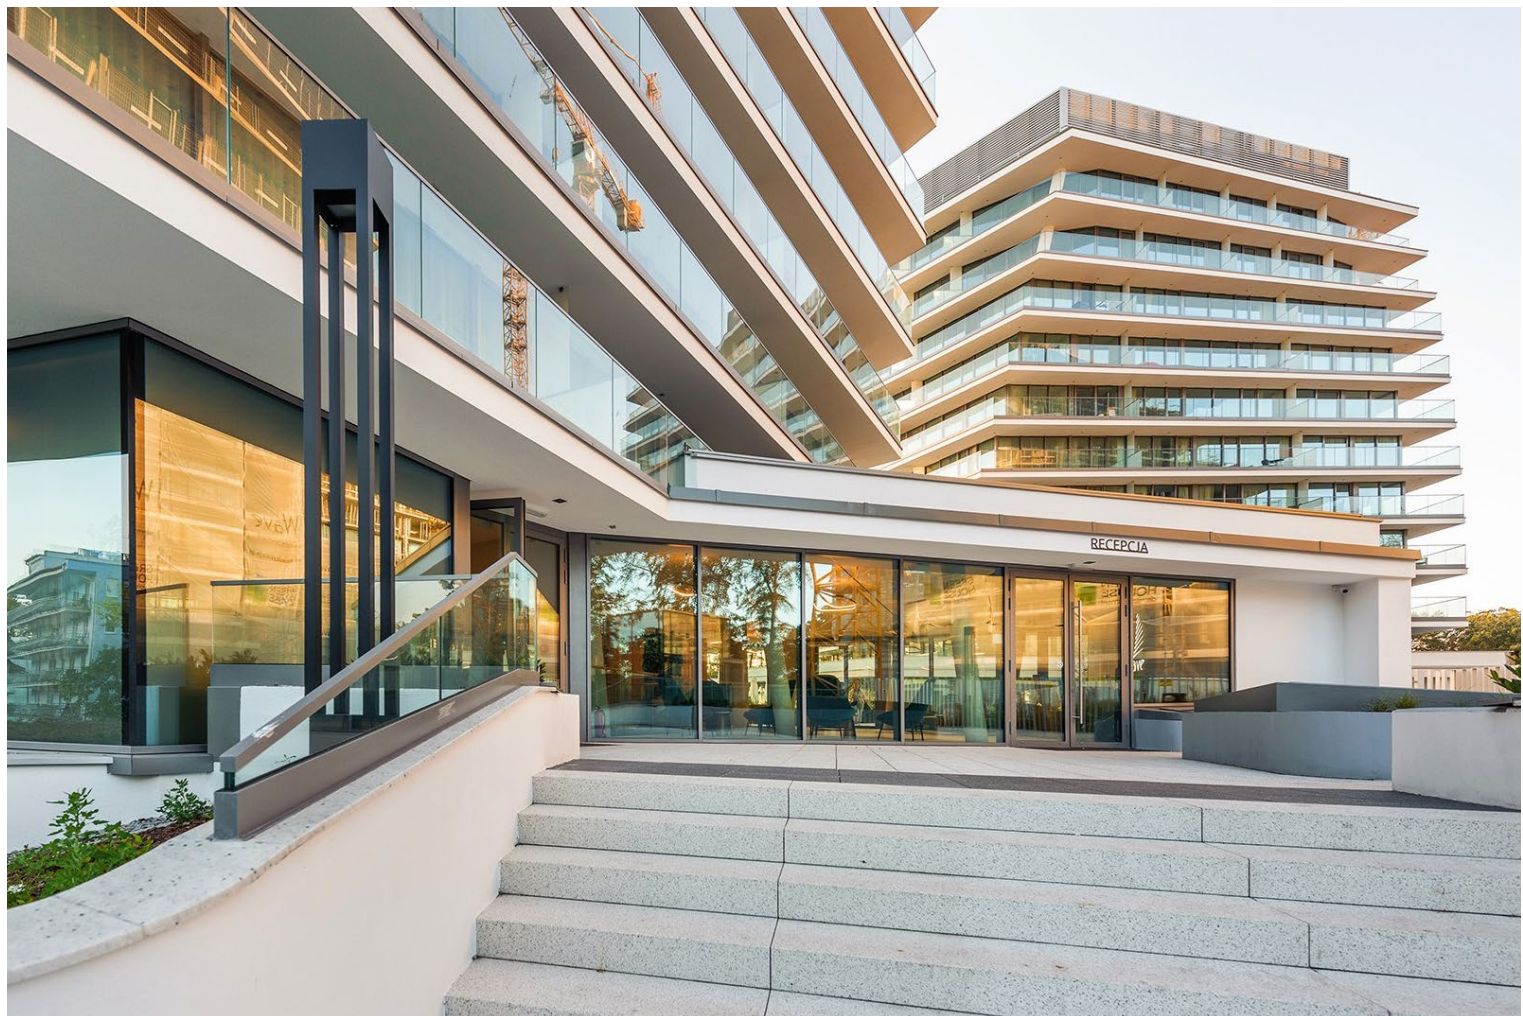

Hotel Quadrielle Relais & Châteaux Gdynia, Poland

Hotel Quadrielle Relais & Châteaux in Gdynia is an exclusive five-star property housed in a renovated 18th-century palace, located in the Orłowo district. The hotel interiors combine historic architecture with modern design inspired by the world of Alice in Wonderland. The property offers 32 uniquely designed rooms and suites, a luxurious spa, the Biały Królik (The White Rabbit) restaurant, and conference facilities. As part of the project, we delivered bespoke lighting solutions that highlight the unique character of the interiors and create an extraordinary atmosphere.

Wave Międzyzdroje Resort&SPA, Poland

design: Modo architektura

Wave Apartment in Międzyzdroje is a modern seaside resort complex located right by the beach, with architecture inspired by the shape of an ocean wave. The distinctive, flowing lines of the buildings blend harmoniously into the coastal landscape, offering guests stunning views of the Baltic Sea. The project features custom lighting solutions, including bespoke SPIN luminaires in a gold finish, the innovative BRI system with high-quality aluminum profiles and LED modules, and TOTEM outdoor poles with a striking form. Additionally, PISTON projectors highlight the greenery, while the LINE lighting system, designed to create seamless lines of light without the need for cutting, contributes to an extraordinary evening ambiance that enhances the charm of the space.

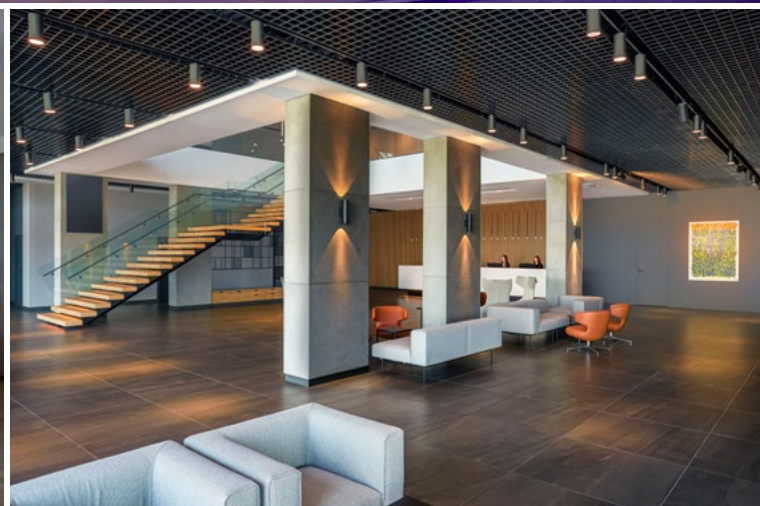

Aquamarina Prima Międzyzdroje, Poland

investor: PRIMA II Sp. z o. o.
part of the SABE Group

Aquamarina Prima is a modern apartment complex located in Międzyzdroje, near the seaside pier, offering a unique view of the sea. Elegantly designed apartments provide a comfortable and relaxing stay, perfectly blending into the coastal landscape. Thanks to its excellent location, guests can enjoy the proximity of the beach and various tourist attractions. The lighting design features DONUT SLIM luminaires that offer subtle interior illumination, as well as LIGHT POLE lighting posts that beautifully accentuate the surroundings. In the evening, these lighting elements create an unforgettable atmosphere, highlighting the charm of the place.

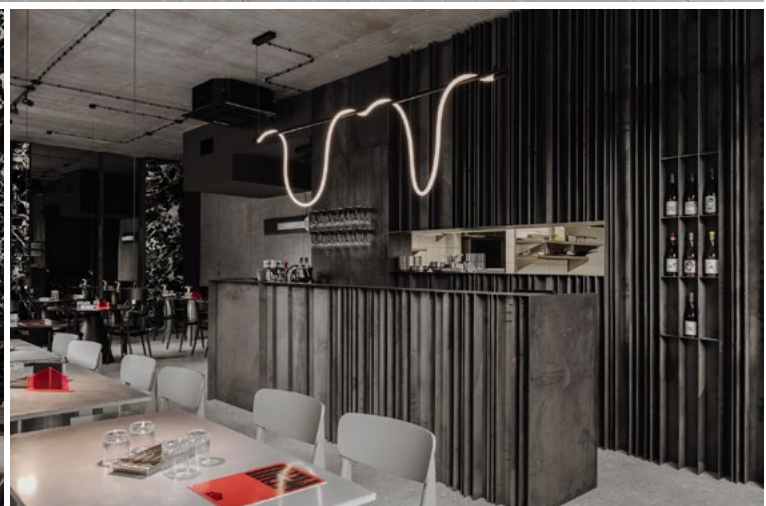

Q Hotel Plus Wrocław Bielany, Poland

design: MOT Studio

Q Hotel Plus Wrocław Bielany is one of the largest properties in the Q Hotel chain and one of the most functional conference complexes in Poland. The hotel offers 201 rooms and as much as 3,700 m² of conference space, making it an ideal venue for hosting events. Properly designed lighting plays a key role in creating a comfortable atmosphere, both inside and outside the building. The use of LT outdoor bollards and diverse indoor lighting that combines aesthetics with functionality ensures the right ambience in every area of the hotel.

Berlin Ecke Restaurant Poznań, Poland

design: Pulva

Berlin Ecke Restaurant in Poznań combines minimalist design with an industrial aesthetic, inspired by Berlin's urban lifestyle. The interior, dominated by concrete and steel, is enhanced by carefully selected lighting. SPRITZER luminaires installed above the bar counter add a refined accent, while JETSON WALL sconces bring an industrial touch, emphasizing the raw character of the space. The result is a cohesive, modern atmosphere with warm, ambient lighting that perfectly complements the minimalist design.

selected
products

Bero

Bero is a luminaire that combines functionality with modern design. Its slim line will appeal to fans of simplicity. The light source mounted at the end of the tube provides indirect lighting, while the spotlight attached to the side allows you to direct light to any area. This feature will satisfy those who like to relax with a good book or work on a computer in the evening. The product is available in various color options, with the possibility to choose optics and color temperature. The Bero family includes pendant, floor, and desk luminaires.

Rid Family

collection of hotel luminaires

The RID hotel lighting family includes wall lamps that can be mounted by the headboard, making them perfect for relaxation areas. The collection also features desk lamps and functional floor lamps, ideal for hotel spaces and apartments. These versatile lighting solutions combine elegance with practicality, meeting the needs of both guests and interior designers.

Sun Family

The SUN lighting family offers modern and minimalist solutions, ideal for residential, commercial, and hotel interiors. The series includes pendant, surface-mounted, and floor lamp models, available in elegant finishes: white, black, gold, and gray.

The simple design blends harmoniously with modern and industrial spaces, enhancing the prestige of hotel interiors. Each lamp provides high-quality lighting and meticulous craftsmanship, creating a comfortable atmosphere for guests. With a variety of models, the SUN series offers versatile solutions adaptable to different interior styles.

Noah

acoustic luminaire

NOAH is not just a lighting luminaire that provides excellent light distribution, but also an innovative solution that takes care of the acoustics of a space. The luminaires are equipped with a special acoustic housing that helps effectively reduce sound reverberation, has sound-absorbing properties, and allows the absorption of sound waves within a room. They are perfect for both residential spaces and offices. The availability of the material in various color options allows for easy customization to fit any space. The PET material is hypoallergenic and certified by Intertek.

Lily

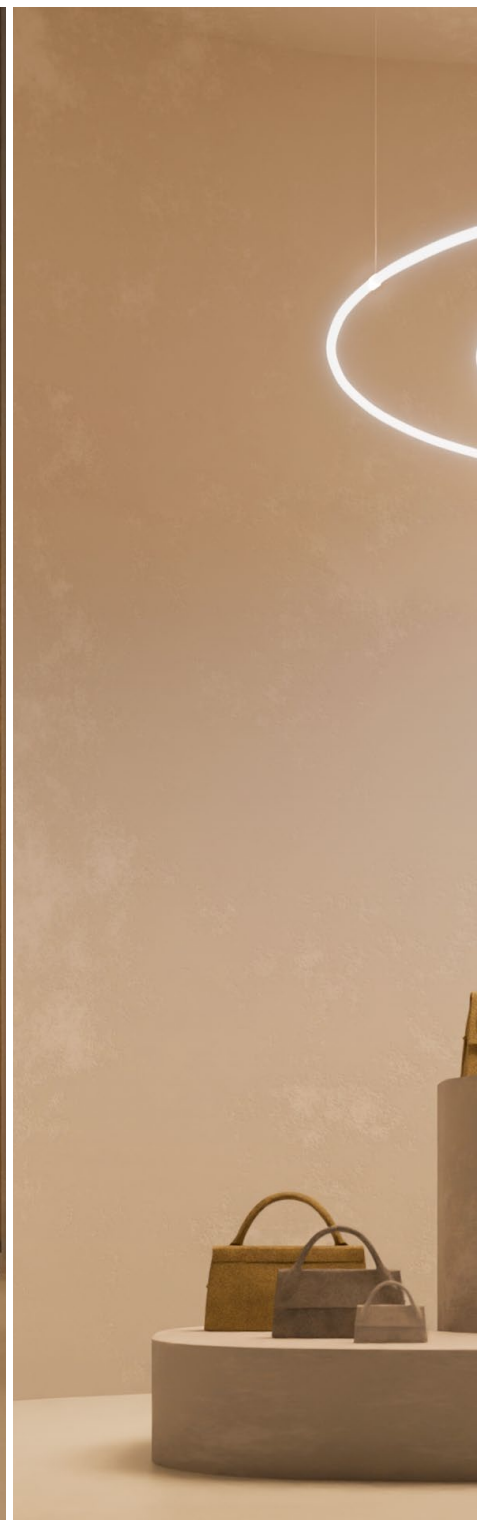

Mute

Mesmo

Mesmo is a family of lighting luminaires that not only provide the necessary light but also become an integral part of the decor, adding a unique charm and exceptional character to any space.
