## ANALGESIC

### BIOFREEZE PROFESSIONAL - PUMP BOTTLE

**For Sale To HealthCare Professionals Only**

The BioFreeze Professional - Pump Bottle is a pain relief product which, when applied, causes menthol to bind with temperature sensitive receptors in the skin and produce a cold sensation to overwhelm the pain signals that would otherwise be felt. ~~We apologize, but we are unable to sell this product to pharmacies, home health stores, sports stores or other retail businesses.~~

[Read More](#)

**SKU:** N/A

**Recommended For:** [Arthritis](#), [Bursitis](#), [Delayed Onset Muscle Soreness](#), [Tendonitis](#)

## MEDICAL TAPE

### ADHESIVE NON-WOVEN FABRIC - 10M ROLL

Use DynaPro Adhesive Non-Woven Fabric for fixation of your primary wound dressings. Its latex free and hypoallergenic construction will ensure that your patients with sensitive skin will enjoy the security it offers with no long term wearing discomfort.

[Read More](#)

**SKU:** N/A

### COVER-ROLL STRETCH

BSN Cover-Roll® Stretch provides the ultimate conformability to highly contoured areas of the body such as elbows or knees. Manufactured from a soft stretchable non woven polyester material, it will secure primary dressings to those areas without constricting or congesting blood or lymphatic fluid passage and will not interfere with the natural healing processes of the body.

[Read More](#)

**SKU:** N/A

### HYPAFIX WOUND DRESSING

BSN HypaFix offers both small and wide area fixation of primary dressings on surgical or wound sites with superb protection from infection, contamination and foreign matter. It is also a great choice for fixation of instruments, probes, catheters or similar instruments and conforms well to highly contoured areas such as the knee or elbow.

[Read More](#)

**SKU:** N/A

### MICROPORE TAPE

Micropore tape is hypoallergenic, latex free and the ideal choice for fixation of small to medium sized dressings or lightweight tubing.

## WRISTS & SHOULDER

### TWIST-BEND-SHAKE EXERCISER

The Twist-Bend-Shake Exerciser can be used to strengthen the muscles in the shoulder, wrist and hand. Available in xx-light to x-heavy resistance levels. You can control the amount of force needed to "work" the bar by slowing down or speeding up the flexion of the bar, or changing to a different resistance bar. Available in 24" and 36" length.

[Read More](#)

**SKU:** CD-TBSE

### TWIST-N-BEND EXERCISER

The CanDo Twist-N-Bend product is a 12" portable exercise bar used to strengthen hand, wrist and shoulder muscles by simply twisting and bending the bar. In addition, it also helps to improve coordination and increase range of motion. Available in xx-light to x-firm resistance levels.

## RIGID BACK BRACE

### BACK FLEX

#### Targeted compression for effective back pain treatment

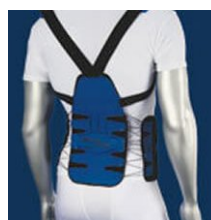

The Bio Skin Back Flex is a simple and effective treatment for a variety of causes of lumbar pain. It is also helpful as a post-procedural treatment for stabilization, compression, and cold therapy. The brace includes two hot/cold gel pads that attach to the lumbar panel to enhance patient comfort and maximize pain relief.

The patent-pending design of the Back Flex provides unrivaled support and pain relief to the lower spine. The solid lumbar panel is attached to a mechanically-advantaged cinching mechanism which provides adjustable pressure to the lumbar spine. Because the cords attach the side panels to the back panel, engaging the cinching mechanism focuses the compression on the spine and provides better support than is possible with other designs.

[Read More](#)

SKU: N/A

**Recommended For:** [Back Muscle Pain](#), [Chest And Back Pain](#), [Degenerative Disc Disease](#), [Herniated Disc](#), [Lower Back Pain](#), [Lumbago](#), [Lumbar Strain](#), [Spinal Stenosis](#)

### BACK PLUS

#### Pain relief and stabilization. Promotes proper positioning during healing.

The Bio Skin Back Plus combines the pain-relieving benefits of compression with stabilization after an injury or procedure to promote proper positioning during healing. The cinching mechanism allows a patient to easily apply circumferential compression. The shoulder straps anchor the shoulders to the back panel, limiting thoracic and lumbar flexion, extension, and rotation.

Includes two hot/cold gel pads that attach to the lumbar panel to enhance patient comfort and maximize pain relief.

**BAJA 627****It's a Cinch, 41% reduction in low back pain**

The Bio Skin Baja 627 provides unrivaled lumbar support and pain relief, allowing you to return to normal activity. It has a double lacing system with the two banks of pulleys positioned on the sides of the torso. When the patient engages the cinching mechanism, the posterior panel is drawn forward, focusing the compression on the soft tissues that support the spine.

A recent study using the bilateral cinching mechanism of the Baja 627 showed an average reduction in VAS scores of 40% and a 41% improvement in Roland Morris Disability Questionnaire scores in patients with chronic low back pain.

## ELBOW STRAP

### BAND IT ELBOW BRACE FOR TENNIS ELBOW PAIN

Therapeutic Forearm Band - the Band It Elbow Brace is the only medically designed device which aids in the relief and prevention of pain associated with Tendinitis, Tennis Elbow, Carpal Tunnel Syndrome, Repetitive Stress Injuries and Cumulative Trauma Disorders sustained in the workplace or in recreational environments. Designed by world renowned orthopaedic surgeon and sports medicine specialist, Donald Fareed, M.D. As a long time consultant to members of the Davis Cup, other professional sports teams and Olympic athletes, he designed the BandIt Strap based on 20 years of clinical observation and treatments of RSIs.

## HINGED KNEE BRACE

### BIO-LOGIX KNEE BRACE

The McDavid Bio-Logix Knee Brace combines a semi rigid lightweight design and bi-lateral aluminium dual axis geared hinges to provide a fluid feel and a natural range of motion.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Back Of Knee Pain](#), [Knee Hyperextension Injury](#), [Knee Joint Instability](#), [Knee Popping Sound](#)

### CROSSFIRE ROM

**Optimal support for knee instability with SlimLok ROM hinge**

The Bio Skin CrossFire™ ROM protects the MCL, ACL and other knee ligaments, providing extra stability while limiting unwanted twisting and bending of the knee joint. The hinge is very thin, only ½ inch, while providing flexion and extension lockouts needed for rehabilitation. The Bio Skin material is very comfortable with a highly-compressive single-layer portion surrounding the knee. The Cirrus™ material is sewn in a pre-tensioned manner to prevent bunching behind the knee which ensures a comfortable fit throughout vigorous activity. The brace's comfort continues into the small details of how it is sewn together; featuring the ActiveSeam™ stitch that prevents unwanted chafing in the more sensitive areas of the knee.

### HINGED KNEE SKIN

#### Lightweight and low profile for comfort

Our Bio Skin Hinged Knee Skin is one of the lightest hinged knee braces available. The offset, bicentric hinges conform to the shape of the leg and provide extra support to knees with ligament damage. The Hinged Knee Skin provides excellent compression to control swelling and pain caused from a meniscus tear or an LCL or MCL injury, and to speed up the healing process in a damaged knee joint.

### PATELLA STABILIZER WITH CONFORMA HINGE

#### Relief and support for sore knees with performance foam patellar ring

The Bio Skin Patella Stabilizer with Conforma Hinge is an excellent choice to treat anterior knee pain and other knee problems. Constructed from Bio Skin's patented, breathable materials, the patella stabilizer gives excellent compression to control swelling and decrease pain in the knee. The donut shaped buttresses stabilize the patella and help keep swelling away from the knee joint. The brace is comfortable to wear and stays in place even during vigorous activity.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Knee Joint Swelling](#), [Knee Osteoarthritis](#), [Meniscus Tear](#), [Osteoarthritis](#), [Patellar Subluxation](#), [Patellar Tendinitis](#), [Sprained Knee](#)

### PREMIUM J WITH CONFORMA HINGE

#### Patella subluxation and patellofemoral pain treatment

The Bio Skin Premium J with Conforma Hinge combines function, comfort, and affordability. Constructed from Bio Skin's breathable materials, the Premium J gives excellent compression without causing discomfort. A buttress on the outside of the patella prevents patella subluxation and knee dislocation. The two elastic straps that cross over the knee help seat the patella in the trochlear groove to increase surface contact area and decrease patellofemoral pain. Premium J with Conforma Hinge - Protection against patellar subluxation

[Read More](#)

**SKU:** N/A

**Recommended For:** [Back Of Knee Pain](#), [Knee Pain](#), [Patella Tracking](#), [Patellar Subluxation](#), [Patellofemoral Syndrome](#)

### PRO LEVEL HINGED KNEE BRACE

With a super strong triaxial hinge that follows the complex motion of the knee and results in near normal motion that standard polycentric dual hinges simply cannot match, the Mueller Sports Medicine Pro Level Hinged Knee Brace equips serious athletes with a high performance brace that offers maximum medial-lateral support. The brace comes with a lockout tool for complete immobilization and adjustable extension stops at 10, 20 and 30 degrees to limit the range of motion when used for rehabilitation purposes.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Knee Hyperextension Injury](#)

### Q BRACE WITH CONFORMA HINGE

#### Adjustable support for patellofemoral pain

The Bio Skin Q Brace with Conforma Hinge is designed to reduce the pain of mild to moderate patellofemoral problems. The Q Brace's t-strap places gentle, lateral pressure on the patella to prevent subluxation (dislocation) and to help maintain the patella in its proper position. Constructed from Bio Skin's breathable materials, the Q Brace with Conforma Hinge gives excellent compression without causing discomfort.

**SKU:** N/A

**Recommended For:** [Knee Pain](#), [Patella Tracking](#), [Patellar Subluxation](#)

### Q BRACE WITH CONFORMA HINGE - FRONT CLOSURE

#### Adjustable support for patellofemoral pain

The Bio Skin Q Brace with Conforma Hinge - Front Closure is designed to reduce the pain of mild to moderate patellofemoral problems. The Q Brace's t-strap places gentle, lateral pressure on the patella to prevent subluxation (dislocation) and to help maintain the patella in its proper position. Constructed from Bio Skin's breathable materials, the Q Brace with Conforma Hinge gives excellent compression without causing discomfort.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Knee Pain](#), [Patella Tracking](#), [Patellar Subluxation](#)

### Q LOK

#### Q Lok - Dynamic Patella Traction System

The Bio Skin Q Lok is designed to diminish the effects and aid in the rehabilitation of patellofemoral pain. Patellofemoral pain is caused by improper tracking between the patella (knee-cap) and the femur. The superior compression and unique strapping system of the Q Lok push the patella back into the correct position in the trochlear notch at the end of the femur. A properly positioned patella spreads the force in the joint over a large surface and decreases pain and wear on the joint. Constructed from Bio Skin's breathable materials, the Q Lok gives excellent compression without causing discomfort.

**Recommended For:** [Patellar Subluxation](#), [Patellofemoral Osteoarthritis](#)

### Q LOK ROM

#### Maximum patellofemoral pain relief with SlimLok ROM hinge

The Bio Skin Q Lok ROM aids in the rehabilitation of patellofemoral joint while preventing subluxation and further dislocation during everyday activity. The high-level compression and dynamic patella traction strap make this brace ideal for patients suffering from a high Q angle, chronic pain from patella tilt, glide and malalignment. The thin, ½ inch range-of-motion hinge gives the option of limiting flexion and extension of the knee. Comfort is a key feature of this brace with a combination of Bio Skin's breathable material and an enhanced single-layer lycra portion that is pre-tensioned to prevent chafing, irritation and bunching behind the knee. This Cirrus™ material also enhances the grip of the traction strap to ensure patellar control.

**PREMIUM J****Patella subluxation and patellofemoral pain treatment**

The Bio Skin Premium J combines function, comfort and affordability. Constructed from Bio Skin's breathable materials, the Premium J gives excellent compression without causing discomfort. A buttress on the outside of the patella prevents patella subluxation and knee dislocation. The two elastic straps that cross over the knee help seat the patella in the trochlear groove to increase surface contact area and decrease patellofemoral pain.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Knee Pain](#), [Patella Tracking](#), [Patellar Subluxation](#), [Patellofemoral Syndrome](#)

**Q BRACE****Q Brace - Adjustable support for patellofemoral pain**

The Bio Skin Q Brace is designed to reduce the pain of mild to moderate patellofemoral problems. The Q Brace's T Strap places gentle, lateral pressure on the patella to prevent subluxation (dislocation) and to help maintain the patella in its proper position. Constructed from Bio Skin's breathable materials, the Q Brace gives excellent compression without causing discomfort.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Knee Pain](#), [Patella Tracking](#), [Patellar Subluxation](#)

**Q BRACE FRONT CLOSURE****Multi-directional patella tracking knee brace**

The Bio Skin Q Brace Front Closure is designed to reduce the pain of mild to moderate patellofemoral problems. The Q Brace's t-strap places gentle, lateral pressure on the patella to prevent subluxation (dislocation) and to help maintain the patella in its proper position. Constructed from Bio Skin's breathable materials, the Q Brace gives excellent compression without causing discomfort.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Knee Pain](#), [Patella Tracking](#), [Patellar Subluxation](#)

**SELF ADJUSTING KNEE STABILIZER**

The Mueller Sports Medicine Self Adjusting Knee Stabilizer features criss-cross straps for consistent support and compression above and below your patella. Fits either knee. One size.

[Read More](#)

**SKU:** MU95627

**Recommended For:** [Knee Joint Instability](#), [Sprained Knee](#)

**STANDARD KNEE SUPPORT - CLOSED PATELLA**

This knee support features an oval pad to retain body heat, which reduces knee stiffness and improves ligament suppleness to reduce the risk of sprains. It is easy on/off and an excellent choice to reduce arthritic pain.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Knee Arthritis](#)

**STANDARD KNEE SUPPORT - OPEN PATELLA**

This knee support uses an oval pad for enhanced knee warmth and extra protection. However, it also includes reinforced patellar stabilization and the open patella design makes for greater wearing comfort. The stretch fabric construction also facilitates application and removal.

## THUMB BRACE

### THUMB SPICA

The Bio Skin Thumb Spica controls motion in the CMC and MP joints by protecting the thumb against painful movements, while allowing full use of the fingers. Constructed with Bio Skin's patented Ultima 2s material, the Thumb Spica features a thin layer of ultra-soft micro-fleece against the skin, which wicks moisture away from the body, keeping you cool and dry. The brace can easily be applied with one hand.

Relief from overuse or injury. This ultra low-profile brace protects the thumb from unwanted motion while allowing a full range of motion in the other digits. It is comfortable to wear and easy to apply with one hand. No laces!

[Read More](#)

**SKU:** N/A

**Recommended For:** [Bursitis](#), [De Quervain's Tenosynovitis](#), [Gamekeeper's Thumb](#), [Trigger Finger](#)

### THUMB STABILIZER

The Mueller Sports Medicine Thumb Stabilizer features an adjustable metal splint and a shock absorbing foam at the base of the thumb for comfortable fit.

## WRIST SPLINT

### DP2 WRIST BRACE

#### Wrist brace for carpal tunnel syndrome and more

The Bio Skin DP2 Cock-up Wrist brace was designed to be the most comfortable and functional wrist brace ever. Constructed with Bio Skin's patented Ultima 2s material, the DP2 features a thin layer of ultra-soft micro-fleece against the skin, which wicks moisture away from the body, keeping you cool and dry. There are no laces and the straps don't need to be threaded through loops to be tightened, so the brace can easily be applied with one hand. The dorsal and palmar stays are removable and can be reshaped by hand to customize the shape of the brace. The DP2 is low profile and allows full use of your fingers, while limiting motion in the wrist to ease the pain caused from carpal tunnel syndrome, arthritis, sprains, and bursitis.

[Read More](#)

**SKU:** N/A

**Recommended For:** [Arm Pain](#), [Arthritis In Wrist](#), [Bursitis](#), [Carpal Tunnel Syndrome](#), [Sprained Wrist](#)

### DP3 WRIST BRACE
