Split Type DC Inverter [WIFI]

NetHome Plus

Control from anywhere, at home or away

You have multiple Wi-Fi ACs at home or your office, you can conveniently control them all just by using a mobile device.

Control your AC with a much simpler user interface conveniently schedule timers, control fan speeds and even set temperatures based on outside weather conditions, even support voice commands

Reduce your electricity bills

ACs can be scheduled to turn on and turn off according to your convenience. Some of these models also have a smart analysis feature, which lets you keep a track of the energy usage, trends and it also sets monthly consumption limits.
