2023 Preferred Partner Directory

A note from the Rewards team,

This directory is your guide to our 140+ Preferred Partners who want to earn your business. This is the place to make your membership a profit center through rebates. Our average rebate check is about \$2K a quarter. Some are ten times that. Yes, those checks go to pretty big companies, but they weren't always big. Some of our biggest checks go to companies whose first checks were less than \$20. Really. So, if you're not earning rebates or not earning enough, grab a cup of coffee and take a few minutes; dive into the following pages and find partners for your business.

Want more? Log on to [ServiceNation.com](https://www.servicenation.com) and click on the Roundtable Rewards tab. There's a link there for a FREE rebate analysis. Fill it out and we'll follow up with you with more ways to grow your check.

And, consider Service Nation Alliance, our top tier of membership. As an Alliance member, not only will you earn the largest rebates, but we'll give you tools and guidance to help you grow faster and better. Just give us a call at 877.807.0869 and ask about learning more.

Finally, from all of us on the Service Nation Rewards team, thank you. Without you Service Nation and the Rewards simply wouldn't be.

– Peter, Nicole, Michael, Sam, and Juan

Shift Financial Insights

Contact: Shannon Johnston

Phone: (778) 656 – 1337

E-Mail: crushit@shiftfinancial.co

Shift is a lively team of professional bookkeepers and controllers who do all the seemingly boring, kind of painstaking, totally annoying, and sort of scary yet truly valuable stuff that comes with running a business: The numbers.

Our team of bookkeepers and controllers is your team. They are neck deep in balance sheets, reconciliations, and accounting processes and procedures. They can also hold a conversation, too. In fact, spelling out what the numbers really mean is our forte. So is delivering financial insights that literally transform small businesses into big players. We get pretty excited about that.

Power Selling Pros

Contact: Barry Gates

Phone: (801) 253 – 1004 or (801) 860 – 1871

E-Mail: barry@powersellingpros.com

Power Selling Pros is the result of an evolution of ideas that started 13 years ago. Executives at Power Selling Pros (PSP) got their start in the industry advising business owners in their marketing endeavors. As time went on, they realized the need for call handling training and developed a principled centered surefire way to help customer service reps and dispatchers book more calls.

Consumer feedback towards local business whether it be good, bad or indifferent... is being shared in real time on popular search and social media platforms; manipulating the consumer's perception of your company. Your call handling team is on the frontline of this real time feedback and without excellence in customer service training, they'll be the first, and maybe even the last impression a consumer will have of your company. Our training process is unique in that we work with each member of your team one-on-one to achieve the best outcome on every call they pick up. And because we teach a proven method of excellence in phenomenal customer service, you'll experience an immediate boost in profitability within mere weeks and more productivity out of the customer phone calls you're already getting.

Business Modification Group

Contact: Patrick Lange
 Phone: (352) 440 – 4604
 E-Mail: patrick@businessmodificationgroup.com

Business Modification Group specializes in the sale and acquisition of heating and air companies. Our main service is matching buyers with sellers.

When the time comes to sell your heating and air business, you may be unsure of where you should turn or who you can trust. The number one goal in working with a HVAC business broker should be to sell your business for the most amount of money in the shortest amount of time.

You have spent years becoming an expert in your field. Then, why would you trust the sale of your business to someone with no experience in the industry. I have knowledge specifically required to find the most qualified buyer. Contact us today for a complimentary confidential conversation.

Why They Buy- Train W/ Michelle LaFrance

Contact: Michelle LaFrance

Phone: (833) 568 – 9474

E-mail: michelle@heysmartypants.com

Michelle La France specializes in working with contractors, for over 12 years her company has helped HVAC and other home service contractors Get More Leads via the services of her digital agency. Today she helps them Close More Sales with Why They Buy Training.

As the owner of a digital agency, she has worked with both small businesses and large corporations to help them get more leads online; however she felt it was incomplete to generate the lead and then tell her clients they were on their own to close the sale. That all changed when she read WHY THEY BUY. The revolutionary methodology called B.A.N.K. cracks the personality code of anyone in 90 seconds or less. Michelle teaches people how to use this personality coding technology to increase sales by up to 300%. Previous to starting her own company, Michelle was a Regional Sales Manager responsible for managing the sales and operations of a major high tech company. She has hired and developed inside and outside sales forces that have achieved record results in the high tech industry. Today you'll find Michelle teaching contractors how to grow their business by increasing their closing ratio with clients.

GoodLeap

Contact: Seth Ure
E-Mail: servicenation@goodleap.com

GoodLeap is America's leading digital marketplace for sustainable solutions, delivering a technology-driven financing experience that is simple, fast, and frictionless. GoodLeap's proprietary point-of-sale platform is actively used by more than 22,000 home improvement professionals who want to offer their customers flexible and affordable payment options. The company's custom and robust underwriting engine also helps contractors approve more customers and move deals forward faster.

- Pull credit from all 3 bureaus & use the highest score to qualify
- Soft credit until funding: a hard inquiry will only appear on a credit report if a loan funds
- Ability to add a co-borrower: co-borrowers don't have to be on title, be related, or live in the home

While we can help you approve more borrowers, GoodLeap also ensures the highest level of customer care and produces high quality loans that are trusted and valued.

Okinus Credit Solutions

Contact: Chris Crocker
Phone: (855) 330 – 3959
E-Mail: ccrocker@okinus.com

Okinus (oh-kin-us) is a fast and friendly lease-purchase program provider that offers instant approvals of up to \$10,000 with no credit needed. We provide much needed options to consumers who really need it. Our approvals help good people bring home, or have installed, what they want when they need it with no embarrassment of rejection or long waits for approvals.

We understand that many good people may have not-so-great credit. Our founder grew up in the furniture and financing businesses. After having seen hard-working individuals struggle for basic comforts, he decided to do something to help, so in 2004, Okinus was created with those exact families in mind. Since our beginning, we have executed hundreds of thousands of lease-purchase contracts.

As one of the largest independent providers of lease-purchase programs in the industry, Okinus is a second chance for consumers and a way to begin rebuilding credit. We report positive payment history to two of the three major credit bureaus thus helping the consumer to raise their FICO score.

Our customer service representatives genuinely care about providing the best customer service possible. That commitment to quality is backed by a significant investment in our technology, positioning us among the industry's most trusted partners in communities across the country.

As a leader in the disinfectant technology industry, Decon7 is redefining what it means to disinfect and deodorize in the HVAC and Plumbing industries. Traditional processes focus on just cleaning – D7 cleans and offers the additional benefits of disinfection, sanitization and deodorization allowing customers to experience improved indoor air quality.

As an EPA registered chemistry, D7 is proven to kill viruses, bacteria and mold in all environments. D7 can be sprayed on coils, fogged in ducts* or foamed in drains depending on the application. In HVAC applications, D7 is applied directly to coils in air handling equipment to provide powerful disinfection and cleaning of the system. D7 eliminates problems such as “dirty sock syndrome” where other cleaners fail.
