Designed for heavy duty: LiHDX batteries with tabless technology.

With our new 18V LiHDX battery packs, we are bringing power to the ultimate level. After all, we know intense work demands maximum power for perfect results. We make it possible by using revolutionary tabless technology.

Stronger

Thanks to the extremely good performance values offered by LiHDX battery packs, you can complete tough work easier and faster by hand – from grinding to drilling and sawing.

Longer

Up to 85% longer battery runtimes compared to LiHDX battery packs in the toughest applications ensure you keep working and achieve your goals quicker – without a lot of interruptions. The tabless technology used in the LiHDX battery packs also gives them the longest service life in their class.

Faster

Make more progress, faster – the new ASC 290 quick charger charges your LiHDX battery packs in around 30 minutes
