Shoe Care

Find the perfect fit

If your shoes are ill fitting, they'll not only be uncomfortable but they'll also break down more quickly. Your feet go through temperature extremes and your new shoes will take time to adjust to this. Footloose staff are trained to match your feet with the correct fitting shoe. Use their experience.

Choose the right shoe for the job

Every boot and shoe is designed for a specific purpose, whether it's hiking, dancing, boating or simply fashion. Don't expect one shoe to do every job.

Give your shoes a rest

If the same pair of shoes is worn day after day, they will wear far more quickly. The perspiration build up doesn't have time to dry out leaving leather hard and cracked. You can double the life of shoes by alternating them.

Clean your shoes

Of course, shoes will last longer if they are cleaned properly. Always use the correct cleaning products for the material of the shoe. Never allow grit to abrade the upper surface. Apply polish or cream lightly and evenly and allow it to dry before a final buffing with a soft clean dry cloth or soft bristled brush. Finally, finish off with a liberal spray of our water/stain protector. We recommend you continue to use this spray on all your footwear throughout the season to keep them looking great and to protect against stains and spills.
