HISTORY OF SPIP HISTORY OF SPIP **HISTORY OF SPIP**

SPIP officially opened in March 2010 as the ideal alternative International Programme of Thailand on the campus of Srinakharinwirot University, Bangkok. The programme was established with the strong support and supervision of Prasarnmit Demonstration School (secondary) entirely based on the Cambridge Curriculum . Originally comprising of currently just 70 students at the start, SPIP has since grown to more than 450, now.

Over the past sixty years, the Prasarnmit Demonstration School (secondary) has been widely recognized as an institution of considerable quality and this has lead to the high standard quality of SPIP as well. SPIP's academic programme is primarily structured for students who wish to enter universities abroad or outstanding international programmes at Thai Universities. The SPIP programme is accredited by the Thai Ministry of Education (MOE) which recognizes the SPIP diploma as equivalent to the Thai secondary school certificate

As a Cambridge International Centre, accredited by Cambridge International Examinations, SPIP is eligible to conduct Cambridge IGCSE and A level examinations and Cambridge Checkpoint tests. The Cambridge IGCSEs are recognized by the MOE as being equivalent to the Thai Secondary School Certificate.

OUR VALUES

Knowledge, Integrity, Citizenship

VISION

For the Satit Prasarnmit International Programme to be acknowledged as a leading provider of a top quality, holistic International Educational Programme based on the British National Curriculum that fosters a passion for life-long learning and for being leaders in the global community.

MISSION STATEMENT

The British National Curriculum-based International Programme at Prasarnmit Demonstration School (Secondary) aims to provide a quality education that develops the individual academically, emotionally and morally, while also paying particular attention to the culture that is uniquely Thai in nature.

S

SELF-RELIANCE

Our students are encouraged to trust their instincts, think independently, solve problems, make decisions and do their own work without depending on others.

P

PARTICIPATION

Our students are given every opportunity to make their voices heard, join in class discussions and get involved in decisions that affect their learning and well-being.

I

INNOVATION

Our hands-on learning environments allow our students to ask questions, try new ideas and learn through experience, inspiring them to be more creative and innovative.

P

PROGRESSION

Our students' standards, progress and continuous achievements are closely monitored and regularly promoted through effective and engaging instruction and assessments.
