# What do our members say?

Blarney Chamber membership has provided opportunities to meet local people, establish new networking connections, and engage with like-minded individuals. It also offers a chance to support local businesses. are extraordinarily generous with advice and with practical help.

I've been made to feel right at home from my very first meeting. There is a most welcoming atmosphere to newcomers and even a palpable sense of community and camaraderie from the existing members each week. I have found each of the members I have had the pleasure of meeting to be easily approachable, positive and engaging.

Our General Manager Gillian Hayes is our representative at chamber. We have found the best thing to have come from chamber membership is the other members. Meeting other businesses, getting their support and giving our support to them. Building a real community connection.

The following Chamber members all offer gifts so it's easy to support local businesses when doing your Christmas shopping.

## An interview with...

**Gillian  
Hayes**

Q - Give us a quick description of your business.

A - Magical Blarney Christmas Village, located in the flagship Blarney Woollen Mills complex, is the perfect spot for a family day out, with magical light displays perfect for your festive photos. With 8 exhibitors selling crafts for all your Christmas gifting. Street food, sweet treats, candyfloss, donuts, tea, coffee, hot chocolate, mulled wine & mulled cider. Live music by Tarah Moore & Martin Byrnes, Jennifer Lyons, Eoin Mc, Bermuda CC, Youngstars Music School & Rathpeacon NS

Q - Who are the people behind your business and define each of your roles/ or if it's just yourself tell us about your role.

A - We have a large team of nearly 250 in our Blarney Woollen Mills Complex. Led by our CEO Freda Hayes, we have an amazing team across our Retail, Restaurant, Bar, head office teams, Warehouse and despatch. Our Magical Blarney Christmas Village, which we would like to focus on for this spotlight is headed up by Dominic Heaney, GM; Laura Hurley, Sales Manager and Louise Kerwick, Head Chef.

Q - Where are you based?

A - Blarney Woollen Mills, Blarney, Co. Cork

Q - How long have you been involved in this work?

A - We have been running our Magical Blarney Santa for the past 20+ years, and it has grown and evolved into the Magical Blarney we know today in the last 10 years. We know our customers love the traditional Santa visit and knew we could offer more to them for before and after their Santa visit.

We started our click & collect business during Covid and it was a great success which we were so excited about. Our customers wanted more and more from this. We have continued this and love coming up with new ideas. Last year we created 'Christmas Dinner at home' and had a little market outside the Mill Restaurant selling our homemade 'Easy Peasy Christmas dinner sides' which was also available on click and collect. It was so popular we decided to go bigger and better this year and so Magical Blarney Christmas Village was born, as was our 'Bumper Christmas Day Lunch' which was requested by our loyal customers and this too is available on click and collect.

Q - Tell us about your offerings.

A - Street food, Christmas themed sweet treats, 8 exhibitors with lots of Christmas gifting, music in the marquee with seating. The perfect family evening out!

Q - What do you consider to be one of your works best features- what are you proud of?

A - Our magical lights display & how amazing our Christmas village turned out. Adding to the huge success of our Magical Blarney Santa experience every year has been very rewarding. The consistent positive reviews say it all.

Q - Any funny anecdotes?

A - When Dominic went down to the Killarney Christmas tree farm it was after many days of rain. He was sending a video of the chosen tree back to the team at Magical Blarney HQ when he stepped into a very deep puddle, so deep that his wellies flooded and his jeans were so soaked that he had to drive home in just an overcoat. We're sure that the garage where he bought diesel must have had a great laugh!! We certainly did.

Q - Highlights?

A - Seeing our dream become a reality. Seeing the wonder and joy in the faces of all that visit us. Working so well as a team to bring it all together. From our Retail team running the Santa element, to our hotel team leading the Christmas village and with lots of help from our warehouse and head office team, it was a huge effort of team work to get to where we are today.

Q - Biggest challenges?

A - Getting everything done on time for Santa's arrival this past 25th November. It is a huge event that draws thousands of visitors and takes many months of planning.

Q - Any advice for Joe Public?

A - For our 'Easy Peasy Christmas Table Side Dishes' this must be ordered before midnight on 21st December for collection on 23rd/24th December  
For our 'Bumper Christmas Day Lunch' this must be ordered by midnight, 15th December for collection on 23rd or 24th December

Q - Any new ideas in the pipeline?

A - Always! We have something new coming mid-December to The Mill Restaurant. Watch this space, it is very exciting,

Q - Anything else you'd like to add- offers etc.?

A - Christys Bar & Grill- serving dinner every evening from 5pm-9.30pm with 2for1 cocktails every Thursday. Afternoon Tea is served daily from 12pm-4pm, booking is essential at least 24 hours in advance. Our Festive Afternoon Tea is served throughout December.

Q - How does Blarney Chamber membership help you/what do you like most about your local chamber?

A - Our General Manager Gillian Hayes is our representative at chamber. We have found the best thing to have come from chamber membership is the other members. Meeting other businesses, getting their support and giving our support to them. Building a real community connection.

## An interview with...

**Anne Marie  
Forrest**

Q - Give us a quick description of your business.

A - Findings is a gift shop - with a difference. Everything instore is designed and created in the onsite workshop.

Q -Who are the people behind your business and define each of your roles/ or if it's just yourself tell us about your role.

A - I guess I am chief cook and bottle washer. From outfitting the store, to creating products, to designing packaging, Findings is my vision. Of course there are easier ways of running a business but I want Findings to be truly unique, with its own distinctive product range, created right here in Blarney.

Q - Where are you based?

A - Both the Findings store and the workshop are located in the heart of Blarney, overlooking the beautiful Square.

Q - How long have you been involved in this work?

A - Findings opened as a 'pop-up' shop in June 2021, as something of an experiment really. I wasn't sure if making everything instore was really a feasible idea. Or that people would want to buy what I was producing. Fortunately, it's turning out to be a success on both accounts!

Q -Tell us about your offerings.

A - Findings is brimming with unique jewellery, greeting cards, notebooks, bookmarks, Christmas decorations, candle holders, suncatchers and so many other original items - the range is ever expanding.

Q -What do you consider to be one of your works best features- what are you proud of?

A - The 'This Is Your Life' range has turned out to be extremely popular, and great fun to work on. Going on details given to me by a customer, I turn life's precious moments - weddings, christenings, graduations, anniversaries - into a keepsake artwork. I enjoy hearing people's story, getting them to know a little, and using that knowledge to make something really unique for them or their loved ones.

Q - Highlights?

A - Happy customers are definitely a highlight. Another highlight is when an idea for a product becomes an actual product, and when that actual product is chosen by someone.

Q-Biggest challenges?

A - Keeping all the balls in the air!!

Q -Any advice for Joe Public?

A - Not really. Except, remember life is short, and be kind!

Q -Any new ideas in the pipeline?

A - So, so many.

Q - Anything else you'd like to add- offers etc.

A - Sustainability is at the very heart of Findings.  
Everything is made instore. The shop is outfitted with upcycled antique furniture. All our packaging is recyclable.

Q - How does Blarney Chamber membership help you/what do you like most about your local chamber?

A - The chamber provides a great opportunity to meet with other local business people, each with their own expertise, challenges and successes. As a sole trader it's great to be able to listen and learn from their experiences in what is a warm and supportive environment.

## An interview with...

**James Holland**

Q - Give us a quick description of your business.

A - jhDesign is a local graphic design startup that focuses primarily on designing bespoke gift frames for all of life's special occasions or to celebrate and commemorate a special achievement by one of those closest to you. New gift frames are constantly being added to our catalogue and please get in touch if you have anything in particular in mind as we are happy to design a frame for any occasion. jhDesign also provides photo restoration as well as typical graphic design services such as:

- Logo & Brand Design
- Advertising & Flyer Design
- Poster Design
- Layout Design

Q - Who are the people behind your business and define each of your roles/ or if it's just yourself tell us about your role.

A - Well, it's just me for now so I am doing literally everything. I like to keep things as organised as I can so I allocate specific time for admin, bookkeeping, housekeeping etc. but of course inevitably on a busy day I'm doing a bit of everything all of the time! I work on the rule of thumb that everything takes at least twice as long as you expect (and then I double it again because I'm a notorious perfectionist!).

Q - Where are you based?

A - I work from my dedicated studio at home in Castle Close, Blarney which has seen many iterations over the years with the addition of more and more equipment. I really enjoyed both designing it and building it up over time and obviously working from home has the benefit of keeping overheads down and caffeine levels up. Storage of materials is becoming a problem though so I might have to jump ship sooner rather than later.

Q - How long have you been involved in this work?

A - In terms of doing this for a living it's been a few years now but in terms of hobbies and interests it's been forever. I've always been creative and was really into drawing in my youth and I've always been a stickler for layout and even spelling and grammar. I've actually studied and worked in journalism too which means I am also very capable in copywriting. I think the combination of my creativity and my attention to detail is a great foundation for graphic design. Those close to me would probably describe me as a pathological perfectionist but "excellent attention to detail" sounds better... My passion for what I do initially came from making personalised greeting cards and gifts for my family, particularly my nieces and nephews when they were younger. That progressed to doing the same for friends and colleagues, many of whom suggested that I do it for a living. Seeing their reactions to my creations is incredibly fulfilling as I really enjoy using my talent and skills to bring a little bit (or a great bit) of joy to people's lives.

Q - Tell us about your offerings.

A - I design bespoke gift frames for...anyone for anything really! It's all in the name of "keeping memories precious". I think a few years of Covid-19 has taught us all what is most important in life - namely those closest to us and the memories we make together for each other. In that respect I'd like to think we have all learned to be a little more grateful for and mindful of time spent together. The aim of my work really is to make the people I lose to my clients feel special and to help make those memories last forever.

Q Can you tell us about some of your work that you are particularly proud of?

A - I worked with the Healthy Club section of Blarney GAA to create posters, business cards and graphics for their "Be kind to your mind" campaign which was set up to help those who might be struggling with the considerable mental stresses and strains of life particularly during the Covid-19 lockdown.

The contact details for critical mental health support services were incorporated into my designs which

were made available at every GAA Club and second level school in Cork and were also used in national GAA media.

Regulars at our Chamber meetings will know that I frequently joke about this but... I am also very proud of the fact that I make most of my clients cry! I know that will sound crazy but bear with me! The fact remains that almost every client I have dealt with reports back to me saying that my design brought tears to their eyes (if they were ordering for themselves) or that the person they gifted one of my frames to cried upon opening it. It's proof that what I'm designing for my clients really resonates with them emotionally.

Q Do you have any funny anecdotes you would like to share?

A - I have several hilarious anecdotes but unfortunately, they are not suitable for publication here...nor anywhere for that matter!

Q Biggest challenges?

A - There are many online platforms and websites that provide the likes of personalised calendars or photo frames at very competitive prices and fast turnaround times. I like to think that my designs are more personal than these high-volume providers. I really value speaking to people directly to try to understand their story and the emotions that they want to convey, and I think this shines through in my work.

Q Any advice for Joe Public?

A - My advice comes mainly around taking photographs on mobile phones. I'm well aware that we now live in a very digital world and that most people love to plaster their photos all over their social media feeds and reels and... more power to them! Unfortunately, however, the likes of Facebook and WhatsApp can seriously compress image quality. The reality is that the photos will almost always look fantastic on your phone screen, but the quality usually become a huge problem when you decide that you want to put a 30 x 20-inch print over your fireplace! Yes, there are AI algorithms, websites and software that can "upscale" your photos to higher resolutions, but they often yield disappointing results.

Although I'm aware that it comes with the downside of taking up more storage on your phone, I would strongly advise people to change the camera settings to take as high a resolution of photograph as possible. Also, don't take images from the web or social media to print. Instead try to find the original photo file on your phone and send by email (at original size) or by file sharing (e.g., Google Drive or WeTransfer).

Q Any new ideas in the pipeline?

A - A lot of clients have asked me about providing a wedding package which is definitely in the pipeline for the coming year. This will include Invitations, RSVP cards, Save The Date Cards, Mass Booklets and Scrolls, Thank You Cards, Seating and Table Plans (and a few extra bits once I get my thinking cap on!) On that romantic note I will definitely be offering something for Valentine's Day and Engagements, and I will be expanding my range of frames on my website to include New Homes, Mother's Day, Father's Day, Graduations, Retirements and who knows what else?

I look forward to providing my graphic design services pro bono to the wonderful folks at Cork Cancer Care Centre of which I recently had the privilege of becoming a charity partner. It's amazing to see the work they do and the hugely positive impact that they have on the lives of their cancer warriors and their families. Amazingly, Cork Cancer Care Centre survives solely on fundraising and volunteers and accordingly would greatly appreciate any donations. Please visit [www.corkcancercarecentre.ie](http://www.corkcancercarecentre.ie) for more information.

I also plan on canvassing small local charities early in the new year to offer my services. A big part of my business plan is to provide such services in the community.

Q - How does Blarney Chamber membership help you/what do you like most about your local chamber?

A - The fact that I have only recently started my own business means, inevitably, there is a lot of learning as I go whether I like it or not. It's great to have the opportunity to lean on the many years experience that other Chamber members have as many will have gone through similar scenarios, problems and come through them. I also like the fact that I get to meet experienced business people from outside of my field because they give valued insight and opinion from a totally different perspective. This certainly helps me avoid the trap of tunnel vision.

While I always like to meet new people and forge new connections and friendships, I'd be lying if I said that I was comfortable or confident while doing so in person in large groups. This is where I would have to speak very positively about the Blarney Chamber. I've been made to feel right at home from my very first meeting. There is a most welcoming atmosphere to newcomers and even a palpable sense of community and camaraderie from the existing members each week. I have found each of the members I have had the pleasure of meeting to be easily approachable, positive and engaging. It seems clear that word is getting around because there has been a significant influx of new members in recent weeks! I also like to think that a feeling of trust is paramount in the foundation of any relationship and the committee and members of Blarney Chamber certainly instil that.
