# INDIA-NORDIC FUSION

## Indian-Nordic Fusion

At Quote Copenhagen you will find a wide selection of unique products made from Indian Vintage Sari for your home – both indoors and outdoors. Each Sari is carefully selected in India, so the products match in color, style and quality, resulting in the products being a perfect fusion of Indian culture and Nordic design.

We believe that colors are positively affecting us, and therefore a large selection of the products in Soft toned down colors that compliment the Nordic color palette while maintaining the authentic expression. Each product is "One of a Kind" with a separate story behind it and therefore a unique expression that fits perfectly into our Scandinavian lifestyle.

Our products range widely from mattresses, pillows and blankets to cushions and bags. But they all have our overall style in common: luxury bohemian in subdued and soft colors with an ethnocultural but Nordic touch.

# KANIKA CUSHIONS

The beautiful hand-embroidered Kanika cushion covers are an excellent example of craftsmanship and aesthetics. They are made of soft velvet and covered with a unique floral embroidery that brings life and color to your decor. The edge in a contrasting color encircles the cushion, which creates an exclusive look and focuses on the fine craftsmanship. The back is made of cotton with a hidden zip that gives an elegant finish.

The cushion is the result of many hours of careful craftsmanship and is a personal and luxurious addition to your bohemian-inspired decor. You can mix and match with our linen or velvet cushions, and create your own unique expression.

The dimensions of the cushion are 50x50 or 30x50 cm and it can be washed in a gentle way to preserve the fine embroidery. The origin of the cushion is India, making it a truly globally-inspired addition to your home.

# SARI COLLECTION

At Quote Copenhagen we make one-of-a-kind products made of vintage saris, the traditional Indian dress. We buy the colorful saris from the locals in the small villages in the region of West Bengal.

After we handpick, mix and match the saris for our products, they are hand embroidered using traditional kantha stitching by a team of local women. This not only gives our products the authentic expression, that we love so much, but secures that the production benefits the local area and the people, that we treasure so much.

*"SELECTED AND  
MADE WITH CARE"*

## *EVERY PIECE ARE UNIQUE*

beautiful vintage Indian saris “upcycled” into unique product in toned down and soft colors with an ethnocultural but Nordic touch.

Therefore every single product is truly one-of-a-kind there simply is just ONE of each unique pattern.

This gives you the chance to create vibrant and truly personal bohemian spaces to hang out and host in.
