CASAMONTE

INTRODUCTION

Casamonte was founded on the belief that true artistry is a collaborative journey. Inspired by the timeless interplay of texture and design, Casamonte partners with distinguished artists and designers to craft surfaces that are both transformative and enduring. Through these partnerships, we have crafted collections that transcend trends, standing as timeless testaments to the power of design to inspire and connect. With every collection, we invite our customers to see their spaces not just as places, but as canvases for self-expression and stories waiting to be told.

YODEZEEN

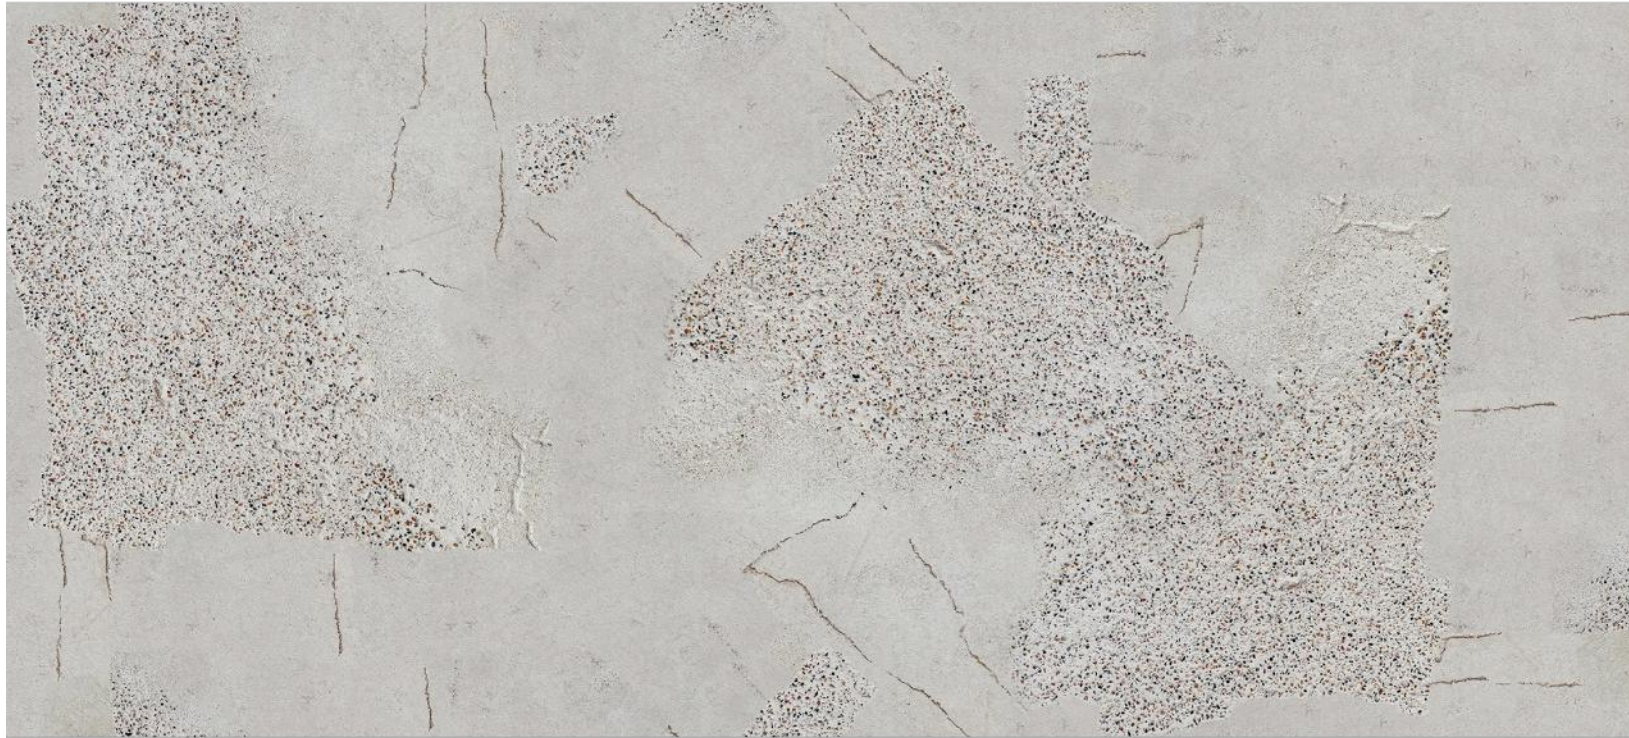

INTRODUCTION

Artur Sharf and Artem Zverev established the studio in 2010 in their desire to create a knowledge-based approach to design and architecture. With offices in Miami, Los Angeles, Dubai, Warsaw, Kyiv, Milan, and London, YODEZEEN is distinguished by its high-end design, international expertise, and local capability and works across various typologies, including residential, commercial, and hospitality projects.

Yodezeen thinks big, and goes for perfection in everything. Over the past fifteen years, the studio has successfully delivered projects across the USA, Europe, and the Middle East, with almost 1000 projects in 29 countries & 127 cities. Yodezeen offers tailor-made solutions for every project with a unique identity according to its context.

Yodezeen has won over 60 international awards for top residential and commercial projects, including accolades from the Best of Year Awards, American Architecture Awards, Global Future Design Awards, SBID International Design Awards, and many others. The studio's hospitality work, such as Catch Seafood Restaurant and Virgin Izakayas, has garnered global recognition, helping to promote Ukraine internationally.

EARTHSKIN MURALS

YODEZEEN's Earthskin Murals are conceived as immersive works of art, designed to transform walls into monumental expressions of nature and architecture. Unlike traditional surface treatments, these murals are envisioned as singular, large-scale compositions—crafted to create atmosphere, emotion, and presence.

Rather than repeating patterns, each mural is a curated narrative. It draws from the studio's architectural sensibility, translating the drama of landscapes, raw textures, and elemental forms into bold statements that command space. Earthskin Murals are not coverings; they are destinations within a room. Developed with advanced production techniques and a meticulous design eye, the murals achieve an unparalleled balance between realism and abstraction. They echo the weight of stone, the fluidity of sand, and the layered memory of aged plaster—but in ways that feel artful, not imitative.

Earthskin Murals establish an entirely new category for interiors: part architecture, part fine art, and entirely immersive. They are designed not just to fill walls, but to define them.

EARTHSKIN

Earthskin collection redefines the role of wallpaper, turning it into a canvas that celebrates the textures and colors of the natural world. Inspired by the richness of materials—stone, wood, plaster, and beyond—we’ve created designs that evoke the essence of the earth. From the delicate grain of wood to the raw texture of sand, and the organic irregularities of aged stone, each pattern tells a story of connection and authenticity.

Using cutting-edge technology and the artistry of our designers and photographers, Earthskin wallpapers achieve an extraordinary realism, offering both tactile depth and visual impact. They reflect our architectural philosophy: to merge human creativity with the timeless beauty of nature. This collection transforms walls into immersive landscapes, embodying an architect’s vision of harmony between interiors and the world outside

The image displays three vertical panels of different wallpaper textures. The left panel is a solid, light beige color. The middle panel features a series of horizontal, wavy ridges. The right panel has a more pronounced, irregular relief pattern. Each panel is labeled with its name and a product code in white text.
