

MINI ME

Eijffinger[®]
Decorating
the world

A collection that brings happy dreams to life. Charming animals play tag in the forest, whales and octopuses frolic in the waves. Look, a unicorn is romping among the flowers and, in the distance, the cut-out silhouettes of wild creatures are having their own adventures.

Mini Me is a collection full of light and subdued tones: from sand, pebble and sea green to contemporary ochre, soft pink and blue, with a playful accent of bold and bright colours.

Take
you to the moon and back

A large, full moon is the central focus of the image, appearing as a bright, textured sphere against a dark blue, starry night sky. The sky is filled with numerous small, white stars of varying sizes, creating a sense of depth and vastness. The moon's surface shows subtle details of craters and lunar maria.

Take you to the moon and back
