MPL Handles  
Window Handles

LEVER/LEVER

The Maxus adjustable sprung lever lever door furniture, a truly versatile multipoint door handle that will replace the majority of existing handles on the market. The levers adjust to vary the PZ centres between 62mm and 95mm which can be used with single spindle, split spindle and offset spindle lift to lock multipoint locks.

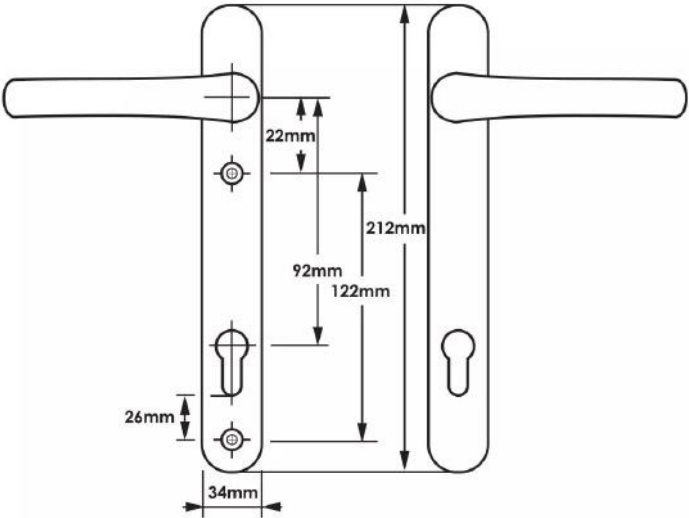

With a large backplate of 290mm x 30mm, which is ideal to cover over any marks and holes from the previous handles, these are available in a range of finishes with boxed and visit packed options.

The distance between the fixing screws is 260mm with the bottom screw positioned 48mm below the euro profile cut-out.

They are supplied as a pair complete with fixings consisting of spindle & 2 colour co-ordinated screws.

Like all Maxus Multipoint Door Handles they are supplied boxed with the components inside individually bagged to avoid damage in transit.

With 117mm PZ to suit Millenco Locks with 117mm Centres (PZ).

This handle has a backplate measurement of 267mm and screw centres measuring 237mm. It is a durable and reliable handle. The handles have undergone cycle testing of over 50,000 operations. The polished chrome, silver and polished brass finish has undergone salt-spray testing for over 480 hours.

They are supplied as a pair complete with 2x removable spring cassettes, 2x 75mm colour coordinated fixings, 2x 85mm colour coordinated fixings and 1x 8mm x 125mm solid spindle.
