Detailed information in the warranty document

The MUGA is made of high-quality S235 steel, featuring vandal-proof stainless steel screws and nuts. It undergoes sandblasting for cleaning and receives a corrosion-resistant powder coating finish. Additionally, a galvanized surface option is available for enhanced protection and longevity.

Our MUGA features reinforced base plates fixed to a concrete base, ensuring stability and durability. This design can withstand intense sports activities, maintaining its structural integrity due to the solid foundation provided by the concrete base and the added strength of the reinforced base plates.

Our MUGA's post ends are sealed with injection moulded plastic, enhancing durability and safety. This feature ensures a smooth finish, reducing wear and tear while providing additional protection against elements.

BeStrong MUGA's are designed in a modular system, offering easy customization of fence height/width, goal numbers, basketball hoops, and entrances. Tailored to your needs, they adapt to various sports activities, providing flexibility and creativity in shaping your sports area.

The MUGA small Panna Goals are compact and measure 4'-2"x2'-4". They are designed specifically for Panna games providing an ideal size for fast-paced, small-sided matches. These goals are perfect for both recreational play and organised tournaments. Their sturdy construction ensures durability and long-lasting performance, making them a great addition to any MUGA.
