modern way

MODERN WAY is particularly artful when playing with the different textures and the successful color selection. Bright colors such as honey yellow and brick red, bold colors such as ink blue, sea green and black and fresh, soft colors such as turquoise green, sand yellow and sky blue can be found here. The different block colors are therefore a great eye-catcher in themselves. Timeless block stripes, entwined branches, stylised flowers, graphic arches with a retro touch and an original leaf pattern can be wonderfully combined with the block-color designs. This way, a great living environment is created in no time at all.

natural elegance

A pleasant balance of soft colors such as white, beige, grey, brown or even a light pink and an exclusive longitudinal structure both as a three-dimensional effect and on top: Elegance and style – creating the perfect backdrop for special furniture and accessories with NATURAL ELEGANCE. The shiny leaf motif is drawn with an even surface in the longitudinal structure. The graphic pattern is created by cleverly changing the direction of the texture, and the block-color wallcovering also looks good on the wall as a solo artist if desired. With this direction of style, you can bring both nature and sophistication into your home in no time at all.
