Vision 2025 – New Projects & Solutions
A Preview of Innovation in Lighting Design

synergies group limited

Expert Solutions for Large-Scale Lighting Projects

About Us

Since 1995, Synergies Group Limited has been a leading player in the design and production of indoor and outdoor lighting solutions, providing high-quality products for mass distribution, the DIY sector, and large enterprises. With extensive expertise and a strong focus on innovation, we support our clients in the development of large-scale lighting projects, ensuring efficiency, reliability, and outstanding design.

Our Philosophy

Our mission is to offer cutting-edge lighting solutions that combine aesthetics, functionality, and energy efficiency. Our work is guided by three fundamental pillars:

Innovation: We continuously develop new technologies and materials to provide state-of-the-art products with smart and sustainable solutions.

Quality: Each product is designed for durability, using weather-resistant materials and certified manufacturing processes.

Design: We create lighting solutions with a strong visual impact, enhancing commercial spaces, residential exteriors, and public areas.

Our Product Range

We offer a comprehensive selection of technical and decorative lighting solutions, tailored to meet various market needs:

Indoor Lighting: Functional and stylish solutions for retail stores, offices, and residential environments.

Outdoor Lighting: Luminous globes and shapes designed for gardens, public areas, and commercial spaces.

LED and Solar Technology: Energy-efficient systems for greater sustainability and lower consumption.

Thanks to flexible production and an optimized logistics management system, we help our partners plan and distribute products efficiently, ensuring fast deliveries and operational reliability.

A Strategic Partner for Your Business

We collaborate with major distribution networks to provide customized solutions, supporting every stage of the process—from product selection and supply chain management to post-sales assistance.

Trust Synergies Group Limited for your lighting projects and discover how we can help your business grow with innovative, high-quality, and market-driven products.

The primary component of the LASER series is a slim rod illuminated along the entirety of its length. The opal diffuser radiates soft LED light outward from the axis of the lamps and completes the cylindrical shape. Used in angled repetition the fixture becomes increasingly energetic creating a field of radiant floating lines.
