Quality, Innovation & Service

Weltron Elektronik

Weltron Elektronik is a global distributor of electronic components. Decidedly digital in our way of working, dedicatedly personal in our relationship with our customers, we have been striving to ensure the satisfaction of our customers to the highest degree every day ever since. As a family business with over 35 years of experience, we are your partner at eye level and specialist for passive components, combining the flexibility of an independent distributor with the continuity and technical know-how of an authorised dealer.

Our components of success are a broad supplier network, with the help of which we can reliably supply customers with top-quality components at attractive prices, even far away from the volatility of the market, a unique customer service, flawlessly functioning international logistics with complete supply chain transparency and, above all, smart quotation and order processing.

With Weltron you can optimise your procurement process today and make it more efficient.

Here's to good cooperation!

Focus lines

Passive & Electromechanical Components

Potentiometer, trimmer

DIP switches, rotary coding switches, limit switches, multi-function switches, slide switches, SIP switches, pushbuttons, short-stroke pushbuttons, ladder plate pushbuttons

Wire resistors, fuse resistors, current measuring resistors

EMI filters, EMI suppression, interference suppression capacitors, fixed inductors, ceramic capacitors, crystals, thermistors

Ceramic capacitors

EMI filters, EMI suppression, interference suppression capacitors, fixed inductors, film capacitors, ceramic capacitors, TVS varistors, MOVs

CHIP resistors, wire wound resistors, EMI filters, EMI suppression, solid inductors, ceramic capacitors, carbon film resistors, power resistors, MELF resistors, metal oxide resistors, metal film resistors, resistor network

Blister packs, single rotary potentiometer, tandem rotary potentiometer, top-hat rail housing

Antennas / SMD, CHIP Resistors, Wirewound Resistors, Electrolytic Capacitors, Ceramic Capacitors, Carbon Film Resistors, Capacitor Networks, Power Resistors, Metal Glaze Resistors, Metal Film Resistors, Resistor Networks

Authorised lines (LOA)
