

READY TO CREATE

STUDIO ARTS

HANDS-ON OPPORTUNITIES TO EXPLORE CREATIVITY, BUILD SKILLS, AND DEVELOP CONFIDENCE.

Through Related Arts and Electives offerings, students learn to express themselves, think critically, and connect creative work to their academic learning. The program encourages collaboration, curiosity, and problem-solving—skills that support growth both in and out of the classroom.

Classes take place in the Collins Family Art Barn, a dedicated space designed to support a variety of visual arts experiences. The building includes a clay studio with a separate kiln room for ceramics and 3D work, a drawing classroom for 2D projects, and a fully equipped darkroom for photography. From sculpture to sketching, students develop an understanding of artistic principals with access to professional tools, allowing them to set their own course and discover what inspires them.

WOODSHOP PROGRAM

A separate space is dedicated to our woodshop program, offering students a hands-on introduction to the fundamentals of woodworking. Students learn essential skills such as tool use, techniques, and woodworking terminology. They also explore different types of wood and their unique characteristics. Throughout the term, students create a variety of projects that not only build their confidence but also showcase their growing craftsmanship.

CORE COURSES:

CERAMICS
EXPLORING ART
FINE ARTS: GRADE 5
FINE ARTS: GRADE 6
FINE ARTS: GRADE 7
INTRODUCTION TO ART
PHOTOGRAPHY
