# PRODUCTION

# Product Shot

A Product Shoot is a photo shoot to support the marketing and sales of a product. This shooting is done to show the product's features, quality and use in the best possible way. Its purpose is to ensure that the product is presented to potential customers in an attractive and informative manner.

# Outdoor Shooting

Outdoor Shooting is photography or video shooting in outdoor environments. Using natural light and environmental elements, it shows products or people in a real life context, providing vivid and realistic images.

# Concept Product Shooting

A concept product shoot is a type of shoot where a product is photographed within a specific theme or storyline. This approach emphasises the brand's message and aesthetic by showcasing the product in a specific context or usage scenario.

## Every Drop Carries the Spirit of the Aegean!

Our olive oil, obtained from Afitap Hanım's farm, is produced from carefully selected olives that are the gift of the unique nature of the Aegean. Produced by cold pressing method, this olive oil preserves the natural flavour and nutritional value of the olives and brings the spirit and freshness of the Aegean to your table with every drop.

Our olives are harvested from the special orchards of Afitap Hanım's farm and immediately subjected to cold pressing process. This process preserves the original flavours and nutritional values of the olives, ensuring that our product remains natural and unrefined. Every drop adds a touch of sophistication to your dishes and salads, adding an elegant aroma and a subtle flavour profile. Coming from the land of the Aegean, this sat olive oil is a symbol of healthy eating and quality living..
