HOKKAIDO

Inspired the rich culture of Japan, our Hokkaido collection transforms any space with beautiful textures, colours and designs. Expertly crafted in Japan, these mosaics blend traditional Japanese design with modern trends, bringing intrigue to modern spaces and infusing interiors with authentic design.

With unusual sizes and shapes, the range offers endless design possibilities to mix and match or place all over. A palette of calming, nature-inspired tones is synonymous with the Japanese principles of balanced design. Perfect for creating a truly personalised space, each mosaic subtly enhances interiors with an impact that wows.

MADE IN JAPAN

THE PROCESS & CRAFTSMANSHIP

Through the long firing process in Japanese tunnel kilns, glaze patterns, colours, and textures naturally form. This unique method allows us to propose creativity and individuality to spaces, also, the high temperatures to which the tiles are exposed lowers the water absorption making each tile frost and water resistant and suitable for external use. Each tile emerges with subtle variations, telling its own story shaped by flame and time.

This handcrafted approach ensures no two pieces are exactly alike, adding authenticity to every surface. Rooted in tradition yet refined for modern design, our tiles embody a balance of art and function in harmony.

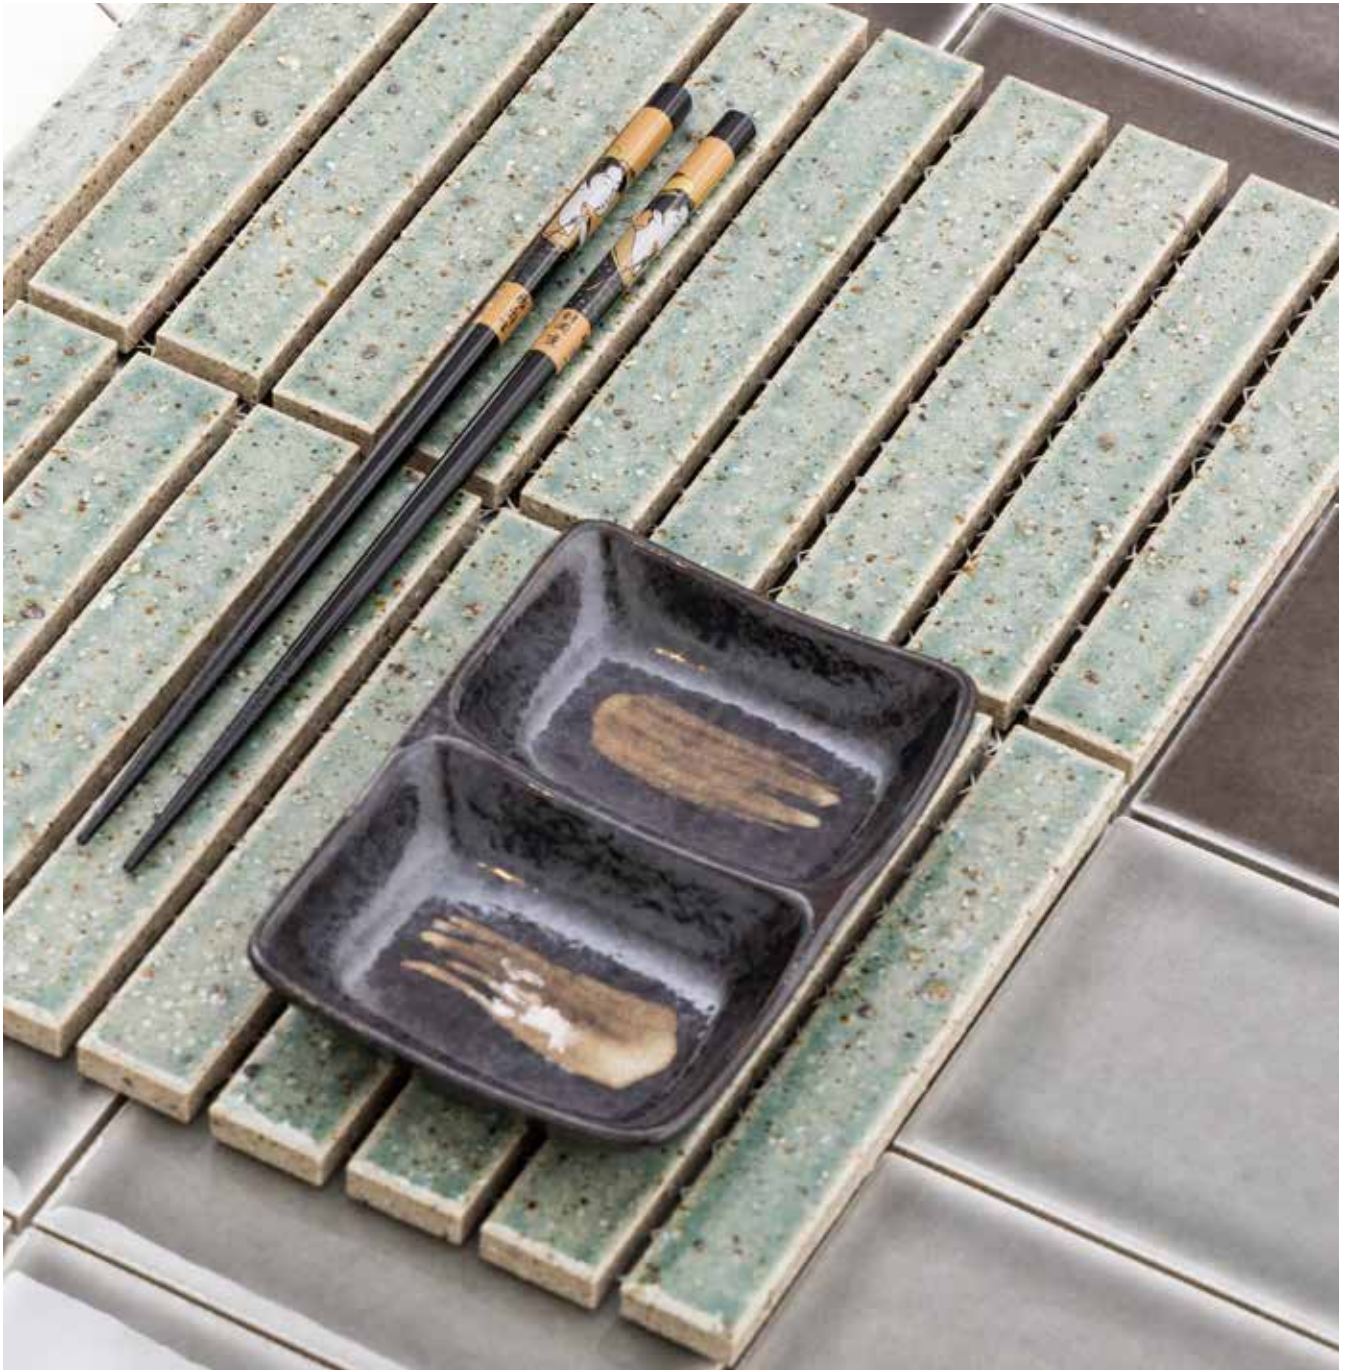

ANY AND EVERY SURFACE

A directional collection of the latest trends in a variety of textures, finishes, sizes and small & large formats, SURFACES BAGNODESIGN offers a unique range of tiles and slabs for indoor and outdoor spaces. An endless array of combinations offers the ability to suit your personal style.

Carefully curated to complement the wider BAGNODESIGN bathroom and kitchen ranges, every product in the collection is manufactured to exacting standards by leading European manufacturers to ensure outstanding results designed to stand the test of time.
