Dear water sport enthusiast,

you love *freedom, individuality and perfection*.
You are proud of your yacht and really appreciate if it stands out of the crowd.

Often it's the small things that make the difference and give you great pleasure.

Thanks to the innovative and technical know-how of fender-design you have the perfect opportunity to receive customized made-to-measure outdoor textiles.

Discover on these pages fascinating and unique possibilities to **individualize and beautify your yacht**.

Yours faithfully,

Often it's the small things that make the difference and give you great pleasure.

fender-design is the innovative and immense growing department of Renz OHG. This department is specialized in the production of naval textile products.

With electronic guided knitting machines, customized texts and logos are knitted into the textile while production.

It's not embroidered! - it's KNITTED into the textile

Our competitors use other methods to individualize textiles with logos or letterings e.g. embroidering, printing or flocking.

As these methods are used ON the products after the textile is produced, they can be destroyed very quickly and are not rational and unflexible.

We knit your LOGO directly INTO the textile while producing, what is **unique in the worldwide watersport branch.**

Fabric Quality

For your new equipment in outdoor textiles we only use the world's best raw material that is available on the textile market for technical appliances and outdoor use.

Because of **direct sales without a middle man, directly from the manufacturer to you** - we can afford to use these extremely expensive fibres and still deliver at an affordable price.

We get this basic fibre spun and twisted to special soft staple fibre yarn.

- + elastic
- + non-fading
- + highest UV resistance
- + absolutely rot proof
- + washable (40°C)

The ideal outdoor fibre - Made in Gemany

The fibres of the world market leaders:

- German premium car manufacturer rely for convertible tops only in this fibre

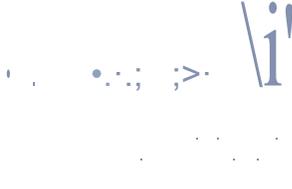

„Our covers won't fade“

Thanks to the enormous and reliable light fastness of our outdoor fibres we developed our **7 years guaranty concept***.

This twisted yarn we process in our factory with additional elastic and coloured yarns **to achieve three different quality fabrics:**

Qualitat: Basic
our basic fabric quality is knitted from reinforced twisted yarn.

As a result, the elastic fabric is more stable, has a higher rubbing resistance and a better durability.

smooth fabric quality,
compeareable to Jeans fabric

Quality: Towelling
the surface of towelling consists of loops. Thanks to this construction terry fabric is very resistant to wear and tear and offers a good buffering effect. But this brings disadvantages as well.

Disadvantages:

- Sand and dirt get stuck in the loops and possibly rub on the hull/gel coat.
- Pilling Effect: Formation of small, fuzzy balls on the surface of the fabric

8:EB3

As we do not make any recommendations for this fabric quality - the towelling quality is only available on request

fabric quality with small loops
nnnnnnnn
compeareable to a towel fabric

Quality: Velvet
As opposed to towelling, Velvet has open polar fibres where sand and salt cannot settle.

*Similar to animal coats, the velvet like surface is highly dirt-resistance (self-cleaning effect). Because of the velvet surface - the underside is protected and makes this fabric the **most resistant to wear and tear***

sheared knit quality,
JUUUUUUU
compeareable with a velvet

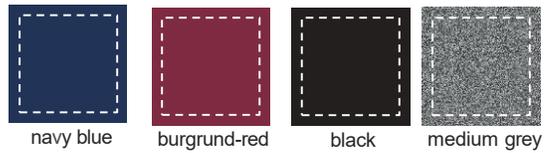

Basic Colours / Font Colours

Basic Colours

The choice of colours for your new outdoor equipment is from high importance.

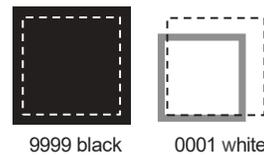

Often the basic colour is selected according to the colour of the sun awnings or painting of the yacht.

For our customized product range (page 7-24) you can choose from our 7 basic colours:

Font Colours(Standard)

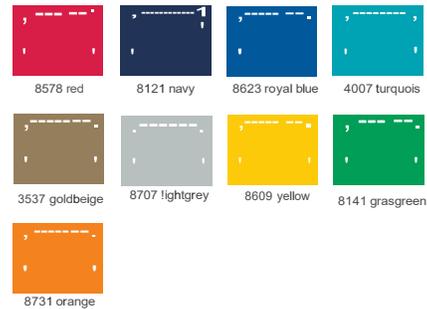

for the colour of your customized inscription we recommend our 2 standard font colours:

Special Font Colours

If desired, you can choose from our special font colours, too. However, please note that the UV resistance and lightfastness of our special fonts are lower.

No colour guarantee for these special font colours

Rough quaysides can destroy any kind of textile. Please be carefully!

Wear and tear of the covers are not covered by any guarantee

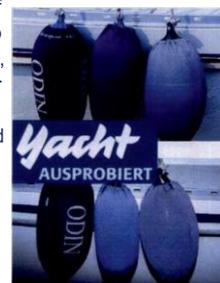

The magazine Yacht did a long-term trial for fender covers - comparing our covers with other available covers on the market.

UV-resistant Sock

FENDER COVERS The result of a long-term study of fender covers (see upper row of photo): on the right side a common fender sock before the trial at the beginning of 2003, 3 years old, in the middle a new sock of the same quality and on the left a new high-quality cover (with boat name) by fender-design (see also YACHT 8/03, p. 79) Photo below:

The result after two years of use and after a number of wash cycles. The fender had been constantly hanging over the side or in the fender baskets. The standard sock has suffered almost equal amount of fading as its two year older equal, whereas the colour intensity of the posh knit sock had barely changed

"With fender covers from fender-design your yacht will give an exclusive first impression!"

Why fender covers made by fender-design?

- Fender covers by fender-design are **custom-made** without any additional charges.
- Fender-design manufactures fender covers made of flexible high-tech outdoor material. (with **5 year guarantee of non fading**)
- Your **yacht logo or name** can be knitted directly into the cover (while fabric production). Thus to this - the lettering is permanent and cannot be rubbed of (it's not embroidered or printed)
- Fender covers by fender design will give your yacht an **exclusive outfit**
- Thanks to the fender-design basic concept - you have the **opportunity to individualise and beautify** your yacht „step-by-step“.

Configure your new fender cover outfit

1. Choose your Fender Type

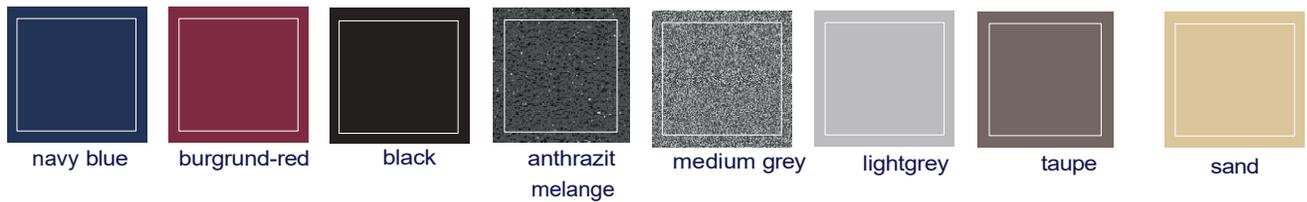

<p>Fender Cover Type F</p>  <p>Example:</p> <p>cylindrical, with eye on each side</p> <p>CONFIGURE NOW</p>	<p>Fender Cover Type G</p>  <p>Example:</p> <p>cylindrical, without eyes up to Ø 35 cm</p> <p>CONFIGURE NOW</p>	<p>Fender Cover Typ A</p>  <p>Example:</p> <p>spherical</p> <p>CONFIGURE NOW</p>	<p>Fender Cover Typ INF-Supersize</p>  <p>Example:</p> <p>cylindrical, inflatable from Ø 30 cm</p> <p>CONFIGURE NOW</p>
--	---	---	---

2. Choose a fabric quality

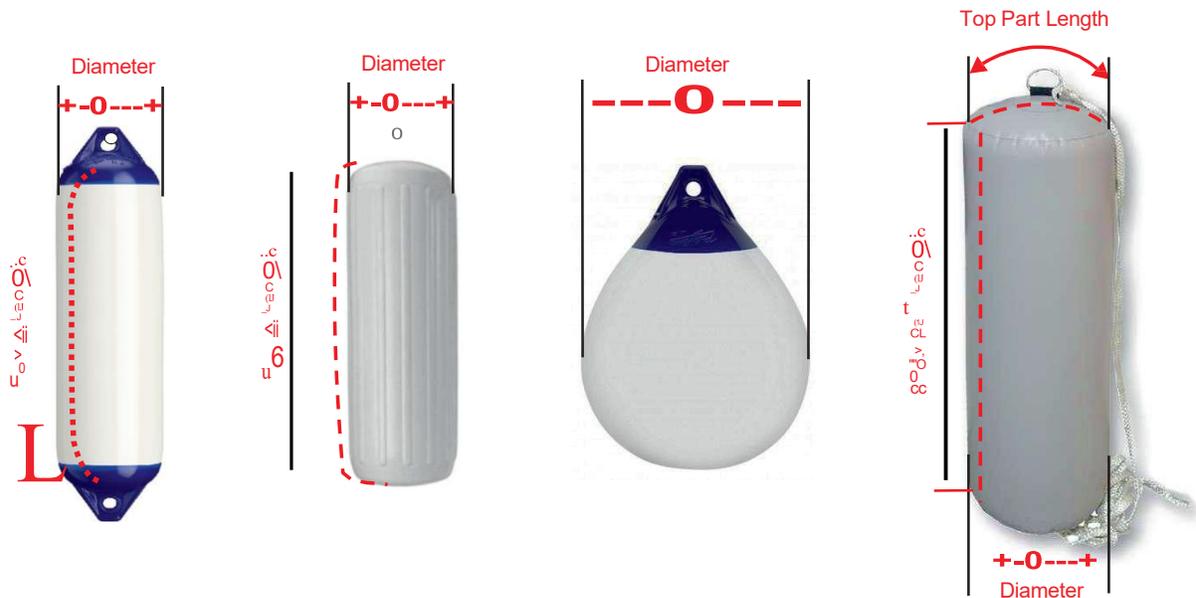

(D for more information please see on page 3 in this catalogue on online on www.fender-design.com

3. Choose you Basic Colour

4. Measure the diameter and required lengths

5. Choose your Inscription/ Design

Would you like to have it customized? Yes? -No?

Font colours:  **CD** see on page 4

Font Type: Choose from many different fonts, tell us your font or simply send us a photo (.jpg) or PDF of your desired yacht lettering

Positioning of Inscription:

Inscription vertically
(3 x on circumference)

Inscription on top
(3 x on circumference)

Inscription on top
+ Logo/Text vertically

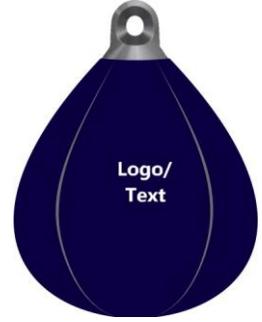

(3 x on circumference)

Inscription vertically
(4 x on circumference)

Inscription horizontally
(4 x on circumference)

(D) Measure correctly

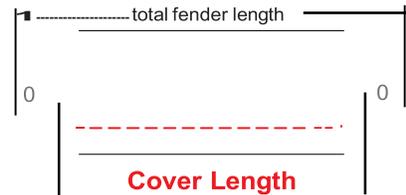

Depending on the air pressure and age of the fender, differences of up to 15% to the manufacturer's specifications are not uncommon!

PLEASE take your time and measure accurately!

Use the circumference to determine the diameter of your fenders:

1. Fenderdiameter (Ø) = $\frac{\text{Circumference}}{3,14}$

2. Cover Length = please let us know the length that your fender should be covered.
NOT THE TOTAL FENDER LENGHT.

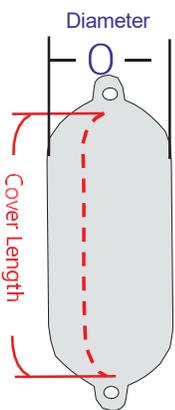

we recommend to use a flexiblle measuring tape

Sizes/Prices - Customized Fender Covers

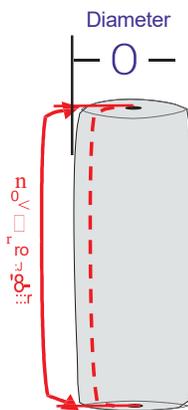

Covers for cylindrical fenders

Type F

Type G

Sketch

+

A sewn cord at the bottom and a special locking system makes it easy for you to fix and remove your cover

Please note: Our covers can only be used for completely removable covers. Hinges, velcro fasteners, fastening lids and other buttons cannot be considered.

*) This article can be marked/produced with your yacht name or logo. Please note the one-time off cost for your first order. (50€).

Customized Welcome Mats

the first impression will be perfect if a customized mat decorates the entrance of your yacht

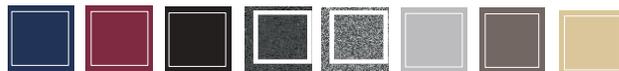

Your guests will be impressed!

Welcome Mats on your yacht are not only beautiful but practical and important to avoid dirt and sand on board

Welcome Mats from fender-design are especially designed for yachting sports

- **Non-fading:** the textile surface of our welcome mat is made of our outdoor quality *velvet*. For further information please refer to page 3 in this catalogue
- **water permeable:** Especially for outdoor use this is *very* important. Thanks to the cross-linked foam the water will leak through the mat and thus will get dry *very* quickly.
- **non-slip:** The bottom of the mat is made of a high quality anti slip foam construction.
- **easy to clean:** washable in the machine (as a roll, 30°C)

- **Colours:**

You find our colour overview of basic colours and font colours on page 4

- **Construction:**
 - **Textile:** Our Outdoor Quality **Velvet**
 - **Bottom:** cross-linked foam (antislip)
 - **Frame:** Nubuck (colour: lightgrey)

Available in 4 standard sizes:

Practical Ideas and Innovations for Watersport

order conveniently at www.fender-design.com 11 ! 1 ! 1

AnchorRoll

good to know where **YOUR** anchor is

Anchoring, even in the nicest bay, is a very sensitive situation. The anchor and anchor chain is the only connection of the yacht to the mainland and therefore safety is the top priority!

AnchorRoll marks the exact anchor position, visible for the captain and other yachts. This allows to react just-in-time in dangerous situations

+ Self-Adjusting

thanks to the „roll-up“ mechanism, AnchorRoll self-adjusts to the water depth and thus always floats directly above the anchor

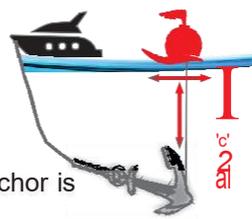

+ Anti Docking-Manoeuvre

the special design as a roll (not as a normal buoy) and prohibition signs on each side helps to avoid dangerous docking manoeuvres by other vessels

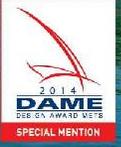

+ Easy Storage

thanks to a build-in gab and two velcro fastener at the top, AnchorRoll can be attached easily and safely to every stainless steel rail on the ship bow.

Diameter: approx. 15 cm
Length: approx. 25 cm
Water Depth: up to water depth of 12 m
Trip Line: **Dyneema®** 2 mm - 410 daN {kg}

stressless anchoring!

+ Solar LED

thanks to a thread at the top each AnchorRoll can be extended with a solar LED lamp for better visibility at night. (not included)

+ Anchor Retrieval Support

if the anchor gets stuck on the ground, the very strong **Dyneema®** cord (2mm) can be used as a trip

Price: (incl. 19% MwSt)

AnchorRoll: 199,00 € / piece

Solar LED: 24,90 € / piece

YachtGrabber.. always a hand

+ universal usage + easiest handling + floating

the innovative, floating suction cup that can be used single-handed with one finger.

- the ideal grab handle for all kinds of work around the yacht (weather from water, on the stand-up or from the dinghy)
- easy release with just one finger
- smart construction without any metal parts

a **MUST HAVE**
for every yacht owner

Price:
€ 25,90/piece

THE „ ;

CLINK-FREE SYSTEM

the practical and universal fixing system for tableware

+ universal

+ limitless arrangements

+ for all kind of dishes

CLINKFree brings the solution to a known problem of every yacht owner and captain.

Thousands of glasses and dishes are damaged on motor and sailing yachts every year. With ClinkFree glasses, cups and bowls of all sizes and shapes stay in place. Even on an incline or in rough seas.

The **perforated acrylic sheet** and the **cleverly designed stainless steel brackets** allow glasses and dishes to be attached to the desired places - depending on the universal situation on board. This arrangement can be repositioned as often as required at any time.

+ for ALL types of dishes (stemware, cups and plates)

+ limitless arrangement options

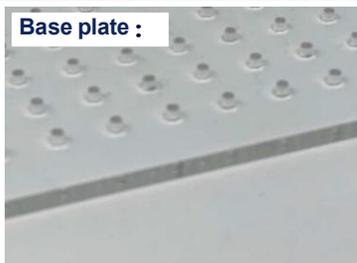

+ optimal use of space

+ simple and modern design

Components of the CLINK FREE SYTEMS

Base plate :

or 2x /2 x Clips for stemmed glasses/cups
or 4 x Clips for cups/mugs

124,90 € /Set

Flexicush

the individually usable boat fender cushion

- + adapts on curved surfaces
- + space saving
- + different shaping and fixing possibilities
- + floating
- + UV-resistant
- + double-face design (black/blue)

FlexiCush is a universal cushion specially developed for use in water sports. Thanks to the special flexible construction, the seven flexible segments of the cushion nestle against curved surfaces. FlexiCush is ideally used as a fender for inflatable boats. Normal fenders protrude from the cylindrical tube, roll away and are easily deflected and lose their protective function.

+ Various Applications

+ Comfortable Cushion

Size: 50 x 32 x 4 cm
Colour: navy/black (double-face)
inclusive black rope

Price: € 59,90 / piece

Rollneck

Boat Fender Covers by meter

- + self-cut with regular scissors
- + no sewing required
- + self-rolling ROLLNECK - won't fray
- + great value for money
- + hard wearing outdoor polyester
- + washable (40°)
- + 100 % made in Germany
- + 2 Colours: - navy blue
- black

**Roll over, cut it,
Done!**

LED LIGHT with innovative magnetic holder for fabrics

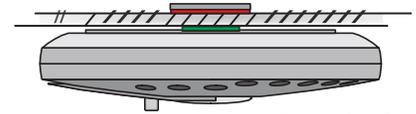

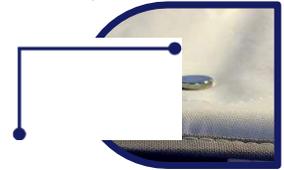

No matter - whether on the sprayhood of a sailing yacht or on the bimini of a motor yacht - as well on all other awning fabrics. Thanks to the new innovative magnetic holder, you will be able to bring light into the dark, exactly where you need it - e.g. for dinner or reading

+ Easy Mounting

thanks to the innovative magnetic mounting idea, the lamp can be installed simply and quick on all awning fabrics. Once attached it and can be moved flexibly to the position where light is needed

+ Warm LEDs

the warm LEDs produce a bright and effective but still very pleasant light. Thus, the romantic evening mood on board will not be destroyed.

simple but ingenious

Price: € 29,50 / Piece

Power Supply:

4 x AA Batteries (1,5 V) or 4 x AA (1,2V rechargeable) - not included

Charging Function:

with integrated charger for AA rechargeable batteries (1,2V) - USB charging cable included

Guard Rail Cushions

Practical and low-priced - for additional comfort and safety on board

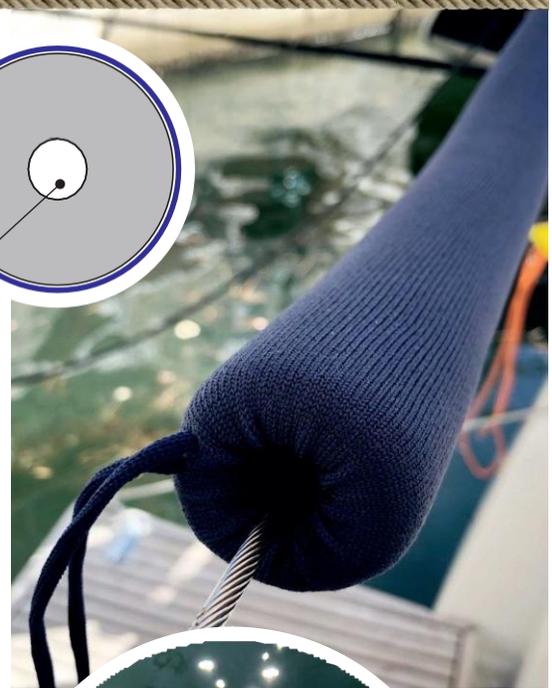

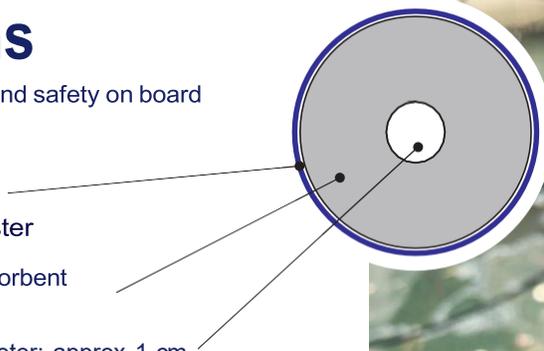

Cover: + seamless and UV resistant
+ made from solution dyed polyester

Core: closed cell-foam, non-slitted, non absorbent

Flexible PVC-Tube: nicht geschlitzt - Inner diameter: approx 1 cm

Length: 1 m

Colours: black or navy blue

Prices:

1 piece: € 14,90,-

4 pieces: € 48,-

Easy to attach to the thread of the Railing wire tensionern

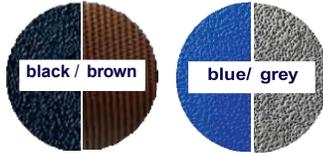

GripStar

Antislip Mat

fender-design has developed the ideal non-Slip Mat for the nautic sector. Based on Kautschuk material a fine foam is generated which is embossed in a special process.

- astonishing grip
- universal
- usable on both sides
- easy to cut
- washable (40°C)

usable on both sides:

Vacuumi (black):
1 piece: € 3,90
4 pieces: € 14,00

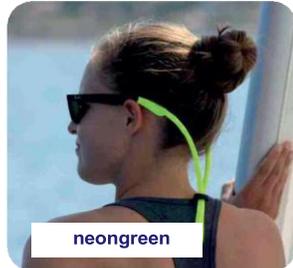

Vacuumi (with designprint):
1 piece: € 4,90
4 pieces: € 18,00

Adapter for Stemware
1 piece: € 3,50
4 pieces: € 12,00

Elastic Crookies

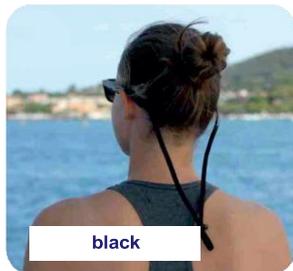

neongreen

glasses are needed in almost any watersport. It might be sun glasses or normal glasses. Especially by watersports, the risk of loosing glasses is very high. This is the reason why it makes sense to fasten glasses with elastic crookies. The crookies made by fender-design are elastic. Thanks to a practical plastic stopper, the glasses won't fall off with high waves or fast movements and will stay conveniently at it's place.

Price:
€ 4,90 / piece

flexible tube system

black

The elastic knit tube will simply be put over the earpiece of glasses.

2 sizes are available:

small: fits to all glasses with temple tips up to 6 mm (e.g. fine metallic glasses)

wide:: fits to all glasses with temple tips from 7 to 15 mm (e.g. sport glasses or sun glasses)

Floating Crookies

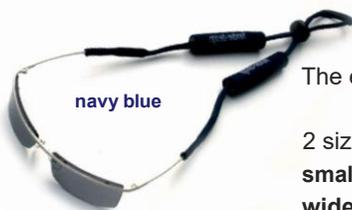

neongelb

... so that your valuable glasses don't sink into the water. Two attached floats prevent the glasses from sinking.

The glasses can be fixed to your head with the practical plastic stopper.

Price:
€ 8,90 / piece

navy blue

flexible tube system

The elastic knit tube will simply be put over the earpiece of glasses.

2 sizes are available:

small: fits to all glasses with temple tips up to 6 mm (e.g. fine metallic glasses)

wide:: fits to all glasses with temple tips from 7 to 15 mm (e.g. sport glasses or sun glasses)

Cap Catcher

Hat catchers are a must-have for every cap lover. A gust of wind and your beloved hat is overboard.

The cat is easily attached to a shirt with 2 high-quality crocodile clips.

Available in black and neongreen

Price:
€ 5,90 / piece

Universal Rail Cushion

fender-design Universal Rail Cushions make several parts on board more comfortable

- + non-absorbent (core of soft foam)
