Canape Display For Cocktail Parties

Exquisite Display for Cocktail Parties

Take an Event from Wonderful to Perfect

Mid-century modern, juxtaposes sleek lines with organic shapes. It is an aesthetic that is rooted in functionality, clean lines, and simplicity.

The Mid-century modern canape display aesthetic, relies on the following functional elements:

- a) X-large rimless boards (over 35cm / 14in) of stylish surfaces designed for one bite canapes.
- b) As opposed to popular surfaces such as slate or wood that cannot be dishwashed, Mid-century modern canape display, compiled of hygienic, non-porous glass surfaces that can be dishwashed and have a more elegant look rather than rustic,
- c) Tiering levels of canape trays in different levels and in different shapes (round, square and rectangular) by incorporating in the design metal risers, which themselves have an anti-slip rubber coating,
- d) Removable trays for easy replenishment of the canapes during cocktail parties.

Designed for functionality, it also approaches an important aspect of a cocktail party: **Theatrics**.

It isn't just about how the food tastes or how efficient the service is... it's also about how it looks and **how it fits the outlet' concept**. A wedding event in Paris needs a different stylistic approach rather than a wedding event in the Maldives.

Rather than simply being a surface to hold the food until it's eaten like white ceramic platters which provide nothing interesting or exquisite, mid-century modern canape display provides a **stylish** backdrop and supports thematic displays with the collection as it is, as well as MyGlassStudio's **bespoke** capability to deliver 150 colors in 4 weeks lead time.

The bowl riser set is comprised of 3 risers with the same diameters and in different heights. The risers can be used together with salad bowls but also with platters, shallow, deep or with rimless boards. With rimless boards, the set can also be a unique wedding cake stand in 3 different levels.

The metal risers have an anti-slip rubber coating to protect the platters from sliding off and to allow the bowls to sit on an angle thus creating a slanted bowl arrangement in 3 different levels.
