

interplas®

Flexible Packaging Made Easy

From Nuts to Bolts...We've Got You Covered

800-820-4722 • interplas.com

Why do America's leading leading businesses choose **interplas®**?

Unsurpassed Customer Care!

Our customers consistently compliment us on the exceptional care they experience throughout our organization. A team of Packaging Professionals is just a phone call away, ready to help.

Low Price Guarantee!

We continually compare prices across the packaging industry and are confident ours are the best. But if you ever find a lower price on a comparable product, let us know—we'll meet or beat any competitor's price, guaranteed.

Large Quantity Discounts!

This catalog shows our first three quantity price breaks only. If you're a volume user and would like pricing on larger quantities, give us a call. One of our High-Volume Specialists will put together a custom quote. And no matter the quantity, remember our Low Price Guarantee—we will not be undersold.

FREE Artwork Time!

Do you have an idea but no artwork? No problem! Give us a call at 800-820-4722 and one of our Packaging Experts will help bring your vision to life. Within hours, our in-house creative team will get to work. You'll receive 2 Free Hours of Artwork; a \$150 value! (Excludes plate costs.)

Fast Delivery!

All stock products ship the same day. UPS Ground delivers in as little as 1 business day. Need it faster? Just let us know. (Larger volume orders may require LTL truck shipping.)

Order Online at interplas.com

Visit interplas.com to research and order from our complete inventory of bags, packaging, and more. Find exactly what you need, then use our shopping cart and online ordering features to make purchasing fast and easy. We welcome your feedback.

Call Toll-Free 800.820.4722

We're ready to take your order or answer any questions. Our hours are Monday through Friday, 8 AM to 5:30 PM Eastern.

Fax Toll-Free 800.297.7186

Our fax lines are open 7 days a week, 24 hours a day. Fax your purchase order, sample requests, or information requests to the number above.

Mail

Send your order or request to:

International Plastics, 185 Commerce Center, Greenville, SC 29615-5817

Payment Options

We accept most major credit cards, or you may include a company check with mailed orders. There is no minimum order, but a \$3 handling charge applies to orders under \$50 (in addition to freight). Net 30 terms available on approved accounts. You may apply for credit with your first order of \$250 or more—we'll need a signed credit application and a favorable Cortera credit score. Companies with favorable ratings receive instant approval. To open an account, call Customer Service at 1-800-820-4722. Prices in this catalog are subject to change. For current pricing, visit interplas.com.

Think Green!

interplas offers earth-friendly alternatives, including Bio-Tuf compostable can liners (page 31) and Ecos T-Shirt bags (page 36). Plus, any of our custom poly products can be made biodegradable.

These bioplastic additives aid compostability and reduce decomposition time. Call one of our Flexible Packaging Experts to discuss your options. Reduce. Reuse. Recycle.

With over 9,000 packaging products in stock and virtually unlimited custom capabilities, it's hard to capture everything we do in a single catalog. Inside, you'll find our most popular stock items alongside a sampling of our custom solutions. We invite you to explore more at www.interplas.com and discover why customers call us "The Flexible Packaging Experts."

Our packaging professionals are ready to help—whether your order is large or small, simple or complex. Every order is backed by our 100% Satisfaction Guarantee and Total Low Price Guarantee. Order today and experience the interplas difference.

Chris Davis

Chris Davis, President

100% Customer Satisfaction Guaranteed

If for any reason you're not completely satisfied with your order, contact our Customer Service Department within 30 days. We'll arrange a return and provide a replacement, account credit, or full refund. Nondefective returns may be subject to a 15% restocking fee. Not applicable on custom items. Call for full terms and conditions or visit our website.

What does our ISO 9001:2015 certification mean to you?

- Consistent quality in products and services
- Prompt resolution of any issues
- Commitment to continuous improvement

It's important to know that your suppliers are as committed to quality as you are. We go to great lengths to ensure our systems, processes, services, and products meet and exceed the standards set by the International Organization for Standardization. For more information, visit interplas.com.

How to Measure a Reclosable Bag

Measuring a Regular ClearZip Bag

- 1) The Width (W) of the bag is measured from side to side
- 2) The Length (L) is measured from the bottom of the bag to the zipper.
- 3) For rigid items, add 1/2" to the width (W) of the bag to allow the item to fit through the opening.
- 4) For thick or bulky items, adjust the dimensions accordingly.
- 5) Add 1/2" to 2" to both dimensions for a looser fit.

Measuring a Slider Top ClearZip Bag

- 1) The Width (W) of the bag is measured from side to side
- 2) The Length (L) is measured from the bottom of the bag to the slider closure.
- 3) For rigid items, add 1.5" to the width (W) of the bag to allow the item to fit through the opening.
- 4) For thick or bulky items, adjust the dimensions accordingly.
- 5) Add 1/2" to 2" to both dimensions for a looser fit.

Capacity Conversion Chart

7"	x	8"	Bag	=	1 Quart
8"	x	10"	Bag	=	1/2 Gallon
10"	x	12"	Bag	=	1 Gallon
13"	x	15"	Bag	=	2 Gallons

SPECIMEN SHIELD® Reclosable Lab Transport Bags

These unique bags incorporate a zipper specimen bag and a separate attached document pouch. The reclosable specimen bag protects healthcare workers from specimen leaks as well as keeping its contents free from contaminants such as dirt or moisture. The document pouch is a helpful way of keeping information from being lost or contaminated.

- Conforms to NCCLS & OSHA specimen handling guidelines for secondary containment.
- Available in plain, biohazard print or custom printed to your specs.
- When safety and convenience are required, our reclosable Specimen Shield™ bags are perfect for serving both needs.

How to Measure a Reclosable Bag

From bottom of zipper to bottom of bag

Measuring a Regular Bag

- 1) The Length (L) is measured from the bottom of the bag to the zipper.
- 2) The Width (W) of the bag is measured from side to side.
- 3) For rigid items, add 1/2" to the width (W) of the bag to allow the item to fit through the opening
- 4) For thick or bulky items adjust dimensions accordingly.
- 5) Add 1/2" to 2" to both dimensions for a looser fit.

Measuring a Slider Top Bag

- 1) The Length (L) is measured from the bottom of the bag to the slider closure.
- 2) The Width (W) of the bag is measured from side to side.
- 3) For rigid items, add 1-1/2" to the width (W) of the bag to allow the item to fit through the opening
- 4) For thick or bulky items adjust dimensions accordingly.
- 5) Add 1/2" to 2" to both dimensions for a looser fit.

Capacity Conversion Chart

8"	x	8"	Bag	=	1 Quart
8"	x	10"	Bag	=	1/2 Gallon
10"	x	12"	Bag	=	1 Gallon
13"	x	15"	Bag	=	2 Gallons

How to Measure Gusseted Bags...

The length and width of gusseted bags are measured just like poly bags, by outside dimensions side to side and from top to bottom. The gusset is measured by its expansion diameter (D).

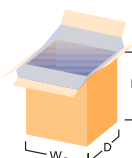

FOR COVERS: Add approximately 4" to either width (W) or depth (D) for a loose fit. For length (L) add half of depth (D) to actual length.

(W) 46" + 4" = 50" **Size to Order**
(D) 49" = 49" 50" x 49" x 75"
(L) 50" + 25" = 75"

FOR AN INNER LINER: Use the same procedure as above for width and depth. For length, add all of depth (D) to actual length plus 4" to 6" inches for overlapping the ends of liner. Add 10" to 12" if you plan to tie off bag.

(W) 46" + 4" = 50" **Size to Order**
(D) 49" = 49" 50" x 49" x 110"
(L) 50" + 49" + 11" = 110"

Gusseted Poly Bags On Rolls

- Great for parts, clothing, food storage and more.
- Polybags are made from low density polyethylene and can be recycled.
- These lightweight plastic bags on roll are perforated for easy tear off and can be sealed by using twist ties, bag tape or by heat sealing

Need it Fast? No Problem!

We have same-day shipping on over 3,000+ sizes of poly bags and UPS can deliver your order in as little as one business day. See inside cover for details.

4 Mil Gusseted Bags on Roll

Heavy weight solution for packaging and bagging items that need more volume inside than offered by flat bags. These plastic .004 mil side gusset bags on a roll are perforated for easy dispensing and make storage and organization simple for industrial, food service and healthcare applications. Made of 100% virgin Low Density Plastic (LDPE) that meets FDA/ USDA specifications.

Foil Ziplock Static Shielding Bags

Static Shielding Bags are made from a multi-layer 3 mil laminated film which has a metal layer as its core. This layer functions as a barrier to E.S.D which allows a static electronic charge to move around and not through the bag.

Economy Impulse Sealers and Sealers with Trimmer

- Designed for light industrial use.
- Sealers with trimmers cut poly tubing to size after sealing.
- Timer for bag thickness.
- Forms a tight, secure 1/8" wide seal on polyethylene and polypropylene up to a thickness of 6 mil.
- No warm-up necessary, power used only when sealing bar is down.
- Includes a 30-day limited warranty.

Cap Sheets

After you've inserted a drum liner, completely seal off contents with a polyethylene cap sheet. Keeps contents from coming in contact with the metal lid, preventing contamination.

- For 55-gallon drums, the 30" x 30" cap sheet is a perfect fit; for more overhang, use the 34" x 34" cap sheets.

SIZE W x L	STOCK#	MIL	QTY/ CASE	WT/ CASE	PRICE PER ROLL (\$)

Round Bottom Drum Liners

Round bottom liners virtually eliminate waste because nothing stays trapped in the pleats, corners or bottom of the bag.

- Great for pastes or powders.
- Fits 5, 15, 30 & 55 gallon size drums perfectly.

Poly Tubing

Poly tubing is the key to packaging odd-sized items, long cylinders, or extra-large objects. Just slip the length of tubing over the item you're packaging and seal both ends with a heat sealer, staples or tape to give your product a custom fit every time. All meet FDA specifications.

Pink Anti-Static Poly Tubing

Anti-static poly tubing is the key to packaging static sensitive, heavy weight, odd-size items or long cylinder objects. The item you're packaging can be sealed on both ends with a bag sealer to give your product a custom fit every time.

Pan Liners – Disposable, Oven Safe & Freezer Safe

Streamline your kitchen operations with our disposable pan liners, designed for the rigors of commercial food service. Eliminate the time-consuming task of scrubbing baked-on messes and extend the life of your pans. Our liners provide a non-stick barrier, ensuring even cooking and easy food release while minimizing the need for excessive oils and sprays. Crafted from food-grade, heat-resistant materials, these liners are perfect for cooking, storing, and transporting hot foods, simplifying cleanup and boosting kitchen efficiency.

Blue Tinted Ice Bags w/ Twist Ties

- These blue plastic ice bags have a large opening making packaging ice cubes easy. All of our ice bags meet USDA/FDA requirements for food contact. EVA and freezer-grade additive, metallocene, has been added to these ice bags to increase their strength, and puncture resistance, while also reducing brittleness at freezer temperatures.

Desiccants, Tapes & Labels

Desiccant Packets

- Made with clay, a natural mineral & low-cost compound.
- Effective desiccant that protects the contents of a properly sealed container until it is opened.
- More economical than silica gel or molecular sieve.
- Will absorb more than Mil-D-3464E requirements and exceed moisture vapor absorption of silica gel.

Thermal Labels

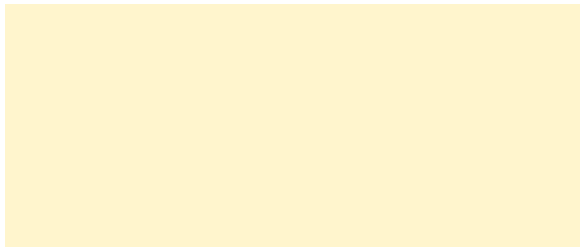

Selecting the right label solution is crucial for efficient operations, accurate tracking, and professional presentation. We offer two primary types of thermal labels: direct thermal and thermal transfer, in a wide range of colors and sizes. Direct thermal labels use heat-sensitive material that eliminates the need for ink, toner, or ribbons, reducing consumable costs and maintenance.
