Hand-crafted Wood

Eclectic Essentials

by TREMONT FLORAL

We are excited to introduce our live edge serving bowls and new wooden decor pieces that will add a touch of warmth and sophistication to your customer's home or business.

The wood we have selected includes a mix of orchard grown mango wood and acacia wood. Mango wood is especially sustainable as it's taken directly from fruit orchards whose trees are past their fruit-bearing prime. Acacia wood is a fast-growing tropical tree that is also easily replenished, and has a beautiful, naturally occurring two-tone color. Once a tree is taken down, 2 new trees are planted. Our decor collection does not use endangered or protected species of trees.

Crafted with the utmost care and precision, each piece is handmade by a master artisan, ensuring that no two pieces are identical. Our process involves carving the wood, drying it, sanding it, and applying a thin finish that maintains the natural look and feel of the original wood. To ensure that our serveware is food-safe, we have coated each piece with a water-based FDA 175.300 lacquer.

Care instructions: Our serveware is easy to care for. Please hand-clean each piece using the minimal amount of water required and allow it to dry naturally. To maintain the longevity of the serveware, please refrain from using it in a microwave, oven, or dishwasher. Every 3-6 months, we recommend applying a food-grade oil or wax to preserve the wooden piece.

We also offer exquisite wooden vases that are sure to impress your customers.

Care instructions: Our vases are not intended to hold water as wood. If you plan on using them as vases filled with water, please use a simple plastic insert. Additionally, prolonged exposure to sunlight or outdoor elements can naturally degrade the wood over time. A damp cloth or duster is all that is needed to keep these vases clean. Every 3-6 months, you may also apply a thin layer of wax or similar coating for protection and shine.
